

ANNUAL OPERATING BUDGET ENTRY

POLICIES AND PROCEDURES

AGENCY INSTRUCTIONS AND PBCS USER MANUAL

FISCAL YEAR 2018

Preparing the Annual Operating Budget

GETTING STARTED – PROGRAM STRUCTURE AND FUND SOURCES

The budget structure in the Planning and Budget Cloud Services (PBCS) application for the Annual Operating Budget will match the program structure as established in BudgetNet for the FY 2018 in accordance with the FY 2018 Appropriations Act. Any changes necessary to comply with HB 44 with regards to programs or fund sources must be made in BudgetNet prior to loading data from BudgetNet to PBCS. Any changes requested for BudgetNet will be reflected in PBCS.

Agencies should notify their OPB analyst to change the program or subprogram structure or to add new fund sources to the drop down menu in BudgetNet when entering their FY 2018 AOB into BudgetNet. The OPB analyst will submit a ticket through the electronic Issues Tracking System (ITS) identifying the changes. There is no need to submit a separate ticket for PBCS to request the same change.

For agencies using TeamWorks Financials, OPB will coordinate changes to program structure with the State Accounting Office (SAO). For those agencies not using TeamWorks, program structural changes must be made in their internal accounting system.

Once the AOB is approved in PBCS, program changes may only occur with an Amended Appropriations Act or Executive Order. Subprogram changes must be approved by the OPB Director.

OBJECT CLASSES

If object class structure changes are needed, agencies should notify their OPB analyst as they are entering the AOB in BudgetNet. The OPB analyst will submit an ITS ticket identifying the changes. For FY 2018 amendments, any additions for object classes will be made in PBCS only.

STANDARD PROGRAM CODES

The program code structure in FY 2018 in PBCS has been standardized to match the program structure used in TeamWorks. While BudgetNet allowed for standalone programs with no subprograms, all programs will have at least one subprogram in PBCS in order to match the structure used in TeamWorks. The first five numbers identify the program. The last two numbers (01-99) identify the subprogram (e.g., 1560100 = Agriculture Education program, 15601<u>01</u> = Extended Day/Year subprogram, 15601<u>02</u> = Youth Camps subprogram.)

STARTING DATA AOB REVIEW AND SUBMISSION IN PBCS

The FY 2018 AOB dataset in BudgetNet will serve as the starting point for loading the PBCS application. All FY 2018 AOB information should be entered in accordance with HB 44 in BudgetNet. Once data is entered, agencies should notify their OPB analyst that the data is ready for review. OPB will conduct its analysis of the AOB and, upon validation that the information entered complies with the appropriations act, will submit an ITS ticket to request that the FY 2018 AOB data be loaded into PBCS.

Agencies will not enter any additional information into the AOB dataset in PBCS. Data should be loaded into PBCS exactly as entered in BudgetNet. Agencies will be responsible for verifying that all information is present and accurate before officially submitting the AOB to OPB in PBCS.

STATUS OF DATA SETS

To provide users with more information about the status of the AOB or an amendment, PBCS has a task under each task group to show the current status of the AOB or any amendments. The task status items are located in the following places:

- 1. AOB 1) Agency Request
 - 4. AOB Submission Status InProgress

- 5. AOB Submission All
- 2. Amendments 1) Agency Request
 - 4. Review Amendment Workflow Status for In Progress
 - 5. Review Amendment Workflow Status by Stage
- 3. Allotments 1) Agency Request
 - 3. Review All Allotments Status by Stages
 - 4. Review InProgress Allotments by Stage

As in BudgetNet, agencies cannot create a new amendment dataset until the current dataset is approved. Until an amendment is approved it will not be reflected in available allotment funds.

Attached agencies are treated as separate entities rather than programs in PBCS. Therefore, parent agencies do not need to submit blank amendments for attached agencies to stay in "sync." Amendments for attached agencies should only be submitted as amendments are needed.

APPROVED BUDGET IN TEAMWORKS PROGRAM LEDGER

OPB forwards the agency appropriations from the approved AOB in PBCS to TeamWorks in an overnight process. Object class or subprogram data is not provided in this process. The amounts appear in the Program Ledger in TeamWorks the next day. Agencies must ensure that their program and fund source structure in TeamWorks is the same as PBCS in order for data to properly load to the TeamWorks ledger.

Agencies are strongly encouraged to verify that any approved amendments and allotments approved in PBCS properly post to TeamWorks the next day during the early implementation of PBCS. Amendments or allotments that fail to post should be immediately brought to OPB's attention so that any issues with the extract and batch process can be identified early.

SUBMITTING THE AOB – REQUIRED SUPPLEMENTARY SUBMISSIONS

In addition to submitting the budget in PBCS, OPB requires agencies submit the following as part of the AOB:

- Spending plan for the merit pay increase;
- Additional information as needed.

Introduction to PBCS

The AOB will be submitted electronically using the on-line Planning and Budget Cloud Services application after first entering AOB data for FY 2018 in BudgetNet. PBCS will be the official record of budget information for all state agencies and programs for FY 2018 and beyond.

REQUESTING PBCS ACCESS

Those needing access to PBCS should complete a user access request form on OPB's website. OPB must also have a "Request for Access" on file for each individual agency user.

To add a user, agencies should:

- 1. Go to the OPB website at opb.georgia.gov.
- 2. Under the Apps and Resources menu, click on OPB Applications.
- 3. Under the header **OPB Applications**, there is a link for the user access request form. Click the link to download the form.
- 4. Print and complete the form for new users and user updates.
- 5. Fax form(s) to 404-656-7916.
- 6. Users will receive an email from Oracle when their login information has been established.

SYSTEM OVERVIEW

PBCS is designed to work at the lowest point of entry. All budget data must be entered in the fund source and object class schedules at the subprogram level. All data entry will be at the subprogram level, including allotment requests.

In order to minimize data entry and reduce potential errors in the AOB, in future years, financial data for the AOB will be populated in the system automatically from the As Signed version of the appropriations act. Agencies will then need to provide an object class only spread of those appropriated funds. For FY 2018 only, agencies will enter all AOB information in BudgetNet from a selected starting data set. AOB data for both fund sources and object classes will be imported into PBCS. Agencies will need to validate that all information loaded properly. No data entry is necessary in the FY 2018 AOB in PBCS.

Logging In

- 1. Go to **opb.georgia.gov.**
- 2. Click on PBCS link under Applications on the right side of the screen.
- 3. On the page titled Sign In to Oracle Cloud, enter a419537 in the box under Enter your Identity Domain.
- 4. Click on **Go** below the entry box. You may click on the box next to **Remember my choice** to automatically fill in the Identity Domain for future log-ins.
- 5. Enter your "User ID" and password. Users should have received a User ID from Oracle and should have already updated the temporary password initially included from Oracle.
- 6. Click on Sign In or press ENTER on keyboard.

PBCS Navigation to AOB

After log-in, the PBCS homepage appears. This screen provides access to budget tasks and reports.

To work on the FY 2018 AOB:

1. Click on the green Tasks button.

- 2. The main task list screen will appear. Click the drop down triangle to the right of Tasks: All Task Lists.
- 3. Click on AOB 1) Agency Request on the menu that appears under All Task Lists.

- 4. To reconcile the data in PBCS to BudgetNet, agencies will need to compare fund source and object class data to the corresponding entry in BudgetNet.
- 5. Click task 1. AOB Dataset Funds Distribution

6. Click on the pencil icon on the far right hand side of the screen to select the fiscal year, agency, and program in which you wish to work.

7. Click the drop down arrow next to the field for Years and select FY 2018 from the drop down list. Click Apply.

| | | Apply | Cancel |

| _ | * | | | | | 1,492,00 |

Note: As shown above, PBCS will NOT load lines entered as \$0 amounts in BudgetNet. Only those fund sources for which there is an associated amount will be imported. Additional fund sources may be amended in at a later date as needed.

- 30. If the schedule in PBCS does NOT match the data as entered in BudgetNet, agencies should submit a ticket through ITS notifying OPB of the agency, program, and subprogram where the error occurred along with the fund source and information that did not load properly. If Purpose/Description is missing because source data was entered in Name of Other Fund in BudgetNet, this detail can be added in by the agency in a subsequent amendment.
 - Note: If in reviewing the data load, you are noticing numerous errors and issues in the data load, please notify your OPB analyst so that we may determine if we need to reimport the data to correct the issues.
- 31. After you have compared the Schedule of Other Funds for each subprogram in BudgetNet and validated the data shown in PBCS, click the **Schedule of Fed Recovery Funds** tab in PBCS. If no subprograms for your selected program contain Federal Recovery Funds, no information will be populated on the schedule as shown below:

| 1. AOB [| | und | ls Distril | outio | n O | | | | |
|-------------------------|-------------------------|----------|----------------|--------------------|---------------------|----------------------|------|----------------------------|-----------------------|

- 33. As on the previous schedules, any subprograms for which federal recovery funds were entered in BudgetNet will be displayed in the first column. Subprograms that do NOT contain federal recovery funds will not be shown but can be amended in at a later date.
- 34. The second column will reflect the CFDA number and name of the federal recovery fund. As a reminder, all federal recovery funds must be listed with a specific CFDA number. No federal recovery funds are permitted to be entered as federal funds not specifically identified.
- 35. The third column will again default to showing the total entered for that federal recovery fund for that subprogram. Clicking on the plus sign to the left of Total _FundCode will display the corresponding detail information for that fund source.

| | | | Annual Oper | | Annual Operating |
|-------------------------|--|----------------|-----------------|---------------------|------------------|
| | | | FundCode_Number | Purpose/Description | No_Account |

38. After you have compared the Schedule of Fed Recovery Funds for each subprogram in BudgetNet and validated the data shown in PBCS, click the **Schedule of SPY Funds** tab in PBCS. This tab shows any Prior Year State Funds for the selected program. This schedule should be blank for all agencies and programs as no Prior Year State Funds were included in the appropriations act as shown below.

| ▼ AOB Data Set | | | | | |

- 40. Repeat steps 10 40 for each program within the agency until fund source information for all programs and subprograms has been validated against data entered in BudgetNet.
- 41. After validating fund source information, agencies will need to validate that all object class data loaded correctly for each subprogram. To do so, from the 1. AOB Dataset Funds Distribution task,

click the orange **Next** button on the top right of the task screen.

| No. | Save | Refresh | Actions - | Complete | | <u>N</u> ext | Close |
|-----|------|---------|-----------|----------|---|--------------|-------|
| | | | | | 4 | | alla |
| | | | | | | - | Q |

At any point, if you wish to exit the system and return to the object class validation tasks at a later point, you may select **2. Perform Object Class Classification** from the AOB - 1) Agency Request task menu directly without having to go back through the **1. AOB Dataset Funds Distribution Task**.

| · · |

- 51. Repeat steps 45-50 to review each program for the agency to compare with each subprogram shown in BudgetNet. Any discrepancies between information entered in BudgetNet and information shown in PBCS should be addressed through submission of an ITS ticket detailing the discrepancy.
- 52. After validating that all fund source and object class information matches the data entered in BudgetNet, click the Next button on the upper right hand side of the task screen.

Alternatively, if you have left this screen and returned the system at a later point, you can also select **3. AOB Submission** directly from the **Tasks: AOB – 1**) **Agency Request** menu.

53. The AOB Submission screen shows the total amounts by fund source group in PBCS for the selected agency along with the total entered for object classes. These amounts should match the totals for the agency in BudgetNet and as reflected in the appropriations act. Additionally, the totals for fund sources and object classes should be balanced.

| | | | | | | |

If your fund sources and object classes did not balance, you will receive an error message. Click OK, and then return to the previous steps to determine where your fund sources and object classes are out of balance.

71. You have completed submission of your AOB. Click Close in the upper right corner of the task window to exit.

- 72. Upon submission, all data entered in the Agency Request version of the AOB will be copied forward to an OPB Review version for your analyst's review. Data entered in the Agency Request version is then deleted to prevent any further changes to the dataset. Therefore, if you return to either the 1. AOB Dataset Funds Distribution or 2. Perform Object Class Classification tasks after submission, you will not be able to view any AOB data.
- 73. To view data after submission, please run the 329 report from the reports menu. You will need to know the current version or stage of your AOB's review. This information is available at any time by clicking on task 4. AOB Submission Status InProgress. This form will show you the current point of review for your data. You will need to select that version when running Report 329 in order to view your data. You may also view this task to track the progress of your AOB's review.

Issues Tracking System (ITS)

OPB ISSUES TRACKING SYSTEM

The Issues Tracking System (ITS) allows all users to create tickets to file trouble reports, ask questions, submit comments or raise issues about the PBCS System.

1. To generate a support ticket, click the home icon at the top of the screen to take you to the main PBCS home page from your current location in the system.

2. On the left hand side of the screen is a gray box for announcements. Under the header **Report An Issue**, scroll down until you see a highlighted link that says "Right click Here."

3. Right click the highlighted blue link and select "Open link in new tab" on the popup menu.

| window". | | * |

| Right click <u>He</u> Activity Re | Open link in new tab Open link in new window Open link in incognito window | |
| 1 Anr | Save link as Copy link address | |
| | Inspect | Ctrl+Shift+ |

4. A new tab will appear at the top of your browser. Click on the new tab to view the ticket submission screen.

| SUBMIT A NEW TICKET | • | C |
|---|-------------------------------|-----------------|
| YOU ARE REPORTING AN ISSUE WI OPB - PBCS | TH THE FOLLOWING APPLICATION: | *Mandatory fiel |
| REPORTED BY: | SUBJECT: | |
| YOUR EMAIL: " | DESCRIPTION OF ISSUE: - | |
| PHONE NUMBER: | | |
| | | |

5. Complete the form as described below:

| Field Name | Explanation |
|---------------------------|--|
| Reported By | Please enter your name, if not already populated, so that you can be contacted regarding this ticket if necessary. |
| Your email: | Enter your email address. It is a required field. |
| Subject (mandatory field) | Enter the subject of the ticket. For example – "Object Class Missing" |
| Description of Use | Type in your question, suggestion, or issue. Please provide the necessary information and explain the issue giving as many details as possible. If an error message appeared, please be sure to include it in its entirety. Required details include: agency name, budget year, and dataset. |

6. Click the disk icon to submit the ticket. Click the slash icon to cancel the ticket.

- 7. As soon as the disk icon is clicked, a ticket number is assigned and an email is generated. The email will reference your ticket number and include a link that you can click on to see the current status of your ticket. You can also contact the Help Desk via email at (Helpdesk@opb.state.ga.us). Be sure to include your ticket number in the email. Please submit a separate ticket for each issue, question, or suggestion you may have.
- 8. You may now click the tab in your browser header to return to PBCS.
