# AMENDED FY 2007 BUDGET HIGHLIGHTS GOVERNOR'S RECOMMENDATIONS

## EDUCATED GEORGIA

This budget continues Governor Perdue's commitment to placing needed resources into education from Pre-K to higher education. Georgia's strong economy continues to encourage thousands of people to move here each year placing more and more demands on the state's education system. This budget continues to fully fund these enrollment increases and provide quality educational opportunities for all Georgians.

### EARLY CARE AND LEARNING

- \$6,428,932 in lottery funds for 1,586 additional Pre-K slots to fund enrollment growth for a total of 76,586 slots.

### K-12 PUBLIC SCHOOLS

- \$164,000,802 to recognize a 2.65 percent increase in enrollment growth for the QBE mid-term adjustment for a total of 1,607,836 students in grades K-12.
- \$5,215,684 in increased funding to provide a mid-term adjustment for school systems that increased their millage rates.
- \$630,875 to develop instructional video clips for online Georgia Performance Standards (GPS) training. The videos will ensure that a consistent message is being communicated to all teachers regarding the new curriculum standards. These clips will be accessible 24 hours a day, 7 days a week for all teachers to use at their convenience.
- \$1,076,980 for Advanced Placement (AP) exams to recognize an increase in the number of students tested. The Governor also recommends an increase in PSAT funding of \$88,529 with additional funds in FY08. It is anticipated that students will take 55,000 AP exams and 99,000 PSAT exams in FY 2007.

### TECHNICAL AND ADULT EDUCATION

- \$1,800,000 to provide funding for the Adult Literacy program.

## HEALTHY GEORGIA

Health care costs have become a growing component of state government spending. This budget allocates resources to preserve the security of health care coverage through the Medicaid and PeachCare programs. It is based on continuing efforts by the state in cost containment in both areas. These changes, which have saved over \$4.2 billion over five years, have allowed Georgia to continue adequate levels of service to children and those with low incomes.

During the last year there have been almost 200 deaths worldwide from avian flu. The medical community is concerned that this flu may mutate in the future and become easily transmitted between humans. In preparation for any possible pandemic flu outbreak additional funds are allocated to purchase necessary antiviral medications. Georgians should expect their government to be pro-active in meeting possible dangers to the public health.

**Impact of Policy Changes to Medicaid Expenditures**

## HUMAN RESOURCES

- \$15,714,198 to purchase antiviral medications that can be used to treat a pandemic flu.
- \$830,500 to add funding for newborn screening activities.
- \$9,000,000 to provide additional funds needed to meet operating expenses at state hospitals.

## COMMUNITY HEALTH

- \$166,598,082 to replace the loss of one-time Upper Payment Limit funds.
- \$68,442,958 to pre-fund projected FY 2008 Medicaid benefits expenditures.
- \$10,000,000 to provide state funds to be matched with federal Disproportionate Share Hospital (DSH) funds to fund private hospitals providing access to Georgia's uninsured.
- \$10,817,691 to increase the nursing home provider fee from \$9.15 to \$12.21 effective January 1, 2007 (Total funds: \$28,193,096).
- The Governor's PeachCare budget assumes full federal funding to ensure continuation of health benefits through FY 2008.

## VETERANS SERVICE

- \$718,419 to increase funding to the Augusta Nursing Home to aid in offsetting rising healthcare costs.

## GROWING GEORGIA

Georgia continues to be one of the fastest growing states in the nation with an increase of 2.5 percent between July 2005 and July 2006, the fastest growth in the South. This budget provides a continued investment in transportation to improve highways around our rapidly growing cities and to spur economic development around the state. Support for local road construction will remain at record levels.

# AMENDED FY 2007 BUDGET HIGHLIGHTS

## GOVERNOR'S RECOMMENDATIONS

Growth demands that we continue to protect our environment and expand access to natural areas throughout the state. We will protect our state's heritage through a major program of Land Conservation Grants. The grants will allow communities to conserve our precious natural resources.

These actions continue the investments of the past four years to improve and expand Georgia's infrastructure, a crucial component needed for long term economic growth and development.

### **KIA**

- \$882,342 to fund temporary training center and offices needed for support of the KIA automobile development project in West Central Georgia.
- \$40,500,000 for the West Point Development Authority for the KIA project infrastructure grant.
- \$6,050,000 for a rail spur to complete site development for KIA Motors.

### **GEORGIA ENVIRONMENTAL FACILITIES AUTHORITY**

- \$50,000,000 to establish grant funds for acquiring land for the preservation and protection of Georgia's critical and essential watersheds and wildlife habitats.
- \$1,000,000 to establish an incentive grant program for local communities to encourage water conservation through the reuse of treated wastewater to enable continued growth and economic development.

### **TRANSPORTATION**

- \$5,100,000 in motor fuel funds to replace facilities that have exceeded their useful life and for which the cost of renovation exceeds the cost or replacement structures. The funding includes \$500,000 each for five routine maintenance building in the following locations: Nahunta, Eatonton, Louisville, Richmond Hill and Woodbine. Also included is \$750,000 for the area office in LaGrange and \$650,000 for the area office in Milledgeville. Finally, \$1,200,000 is recommended for the special forces building in Sparta which houses regional quick response crews.
- \$124,900,000 in total motor fuel funds for local roads (Local Assistance Road Program, State Fund Construction – Off System, and Stat Fund Construction – Most Needed). This is the highest level of funding since FY 1999.
- \$53,538,176 in motor fuel funds for State Fund Construction – On System to help advance construction projects in the state transportation improvement program (STIP).

### **COMMUNITY AFFAIRS**

- \$1,311,000 to assist the Department in coordinating the decennial Local Update of Census Addresses (LUCA) program for the U.S. Census Bureau in order to ensure that Georgia's citizens are accurately counted in the 2010 Census.

### **ECONOMIC DEVELOPMENT**

- \$5,000,000 for Civil War commemoration preparation and development of the Resaca battlefield as a means of enhancing cultural tourism and economic development.

### **SAFE GEORGIA**

Ensuring the public's safety remains a high priority of this administration. Strong enforcement of the law requires the continued expansion of prison beds to deal with the increased number of criminals sent to prison.

### **CORRECTIONS**

- \$3,138,310 to provide funding for a 4 percent CPI increase for the state's three private prisons.
- \$3,867,409 to provide funds for the Health Services Purchases contract for physical health due to increased catastrophic healthcare claims.
- \$926,269 to provide start-up and operating funds for the Pelham Pre-Release Center (160 beds).

### **JUVENILE JUSTICE**

- \$2,062,706 to continue funding for the Savannah River Challenge YDC facility and isolate lesser offenders sentenced to the Short-Term program from more serious offenders in other YDC facilities.

### **BEST MANAGED STATE**

From the beginning of this administration one of the prime motivating forces has been the desire to place Georgia on a more efficient and effective foundation. This would ensure the proper use and management of the state's resources to the benefit of all Georgians.

To build on the state's tourism potential, funds are also included to develop the "Go Fish Georgia" initiative to improve boating and fishing tourism in the state.

### **DRIVER SERVICES**

- \$322,588 to partner with local governments to increase the number of Customer Service Centers around the state to be located in Loganville and Clayton.
- \$600,000 to provide funds to conduct a feasibility study for a new license issuance system.

### **NATURAL RESOURCES**

- \$6,301,864 to increase funding for the Hazardous Waste Trust Fund from \$7,600,000 to \$13,901,864 for local government and abandoned site clean-up.

# AMENDED FY 2007 BUDGET HIGHLIGHTS GOVERNOR'S RECOMMENDATIONS

---

- \$13,000,000 to develop the "Go Fish Georgia" education center, state park, bass trail, and fishing and recreation access to promote and improve boating and fishing tourism as a means of enhancing economic development in communities around our state. (Additional funding in FY 2008).

## **JUDICIAL BRANCH**

- \$17,495,636 to fund a request for a 10 percent increase in appropriation over the current budget.

## **OFFICE OF THE GOVERNOR**

- \$2,150,000 to create Governor's Litigation Fund to cover known legal expenses of executive branch agencies.

## **STATE PROPERTIES COMMISSION**

- \$5,734,000 to demolish the Archives building and enable continued redevelopment around the Capitol.

# COMMISSION FOR A NEW GEORGIA: SAVINGS OVERVIEW

## AMENDED FY 2007

---

### Background

In 2003, Governor Sonny Perdue created the Commission for a New Georgia as an independent, privately-funded business-sector advisory council, working in partnership with state agencies to streamline government operations. The public-private initiative is aligned with Governor Perdue's goal to make Georgia the best-managed state in America.

The Commission brings an outside perspective and enterprise thinking to the workings of state government and recommends business-tested tools and best practices to increase efficiency and effectiveness. Commission objectives are directed at best value for the tax dollar, operational cost savings that will free up funds for higher priorities, increased accountability and transparency in managing state assets, streamlined management capabilities through enterprise-wide systems, and customer-centered services.

### Initiative

Since 2003, the Commission has launched 17 short-term task forces of private-sector experts and pro bono consultants to analyze administrative processes and modernize business systems and strategies. Particular interests have included asset management (fleet, space, and property), procurement spending and sourcing, IT architecture and tech support, public finance options, and accounts receivable. The Governor's Office of Implementation was established in 2004 to lead inter-agency efforts to put the initiatives into action.

### Results

Of more than 70 Commission recommendations to date, 65 have been acted upon by the Governor's Office through Executive Orders and administrative directives. Cross-functional teams of agency administrators and staff have worked with the Office of Implementation to engineer operational innovations within departments and across the state.

As of December 2006, Commission initiatives implemented in government have generated \$13 million in estimated savings. (This does not include cost avoidance and proceeds from property sales used to renovate state office buildings.) Estimated savings are verified by an Internal Validation Committee established to substantiate dollar figures, methodologies and results. Members of the committee include the Governor's Chief Financial Officer, the State Accounting Officer, the Director of the Office of Planning and Budget, the Director of Implementation, and a private sector representative.

The largest single source of savings is the Procurement Transformation Initiative, which is replacing piecemeal purchasing of

billions of dollars in goods and services with a system of strategic sourcing that leverages the government's buying power to drive down pricing. An estimated \$135 million in targeted savings is expected over the next four years. The main focus of the work is establishing new purchasing agreements in selected spending categories, phased in three waves. The initial wave of contracts, awarded in FY 2007 in five major categories, will yield approximately \$15 million in first-year savings.

Governor Perdue appointed Georgia's first State Property Officer and ordered the first statewide inventory of government-owned and -leased properties: more than 19,000 buildings and 1,000 leases. Surplus properties have been identified for sale, and leases have been consolidated and renegotiated. The first-year savings on renegotiated leases totals \$1.04 million.

### Available Savings

Total savings resulting from Commission initiatives were distributed across agencies, and adjustments were made to break out the amount that represented state general funds only. Of the total \$21.9 million savings, \$6.7 million was identified in the Amended FY 2007 budget to redirect to other high priorities within agencies' budgets and \$368,000 was eliminated entirely.

As part of the budget process, each agency had the opportunity to propose plans for redirecting the savings to other priorities within their budget. As a result, agencies were allowed to retain savings within programs to fund projects that they identified as high priority. Some of these projects include: telecommunications and on-going technology needs; computer charges and software purchases; replacement of outdated computers, and increased real estate rentals.

A portion of the savings was redirected to new initiatives and innovative projects. Examples include the Methamphetamine-force project in the Georgia Bureau of Investigation, wireless broadband internet access for the Department of Juvenile Justice caseworkers, and the Clemency Online Navigation System for Pardons and Paroles.

Details of the savings and redirections are shown by agency on the following chart. Agencies that were authorized to redirect all or a portion of their savings within programs are denoted by an asterisk. These savings are not reflected in the department budget summary pages. It should be noted that agencies that do not receive state general funds redirected their savings internally. Savings attributed to the legislative and judicial branches are available but are not redirected in these recommendations.
