STATE OF GEORGIA  
OFFICE OF THE GOVERNOR  
ATLANTA 30334-0900

**Nathan Deal**  
Governor

TO THE MEMBERS OF THE GENERAL ASSEMBLY

In every corner of Georgia, we face a great need for job creation and economic development. As Governor, I will seek to make Georgia the most attractive destination in the Southeast for industry, small businesses and entrepreneurs to locate or expand. In putting together this budget, I have sought to protect and promote the jobs of today by preventing tax increases; I have sought to protect and promote the jobs of tomorrow by assuring that we devote our limited resources to meet our critical education, public safety, health care and infrastructure needs.

The last two years have been difficult ones for both Georgia and its citizens. We have witnessed the longest period of economic contraction since the Great Depression. Thousands of hard-working Georgians have found themselves without a job for the first time in their lives, while many others have seen significant reductions in their incomes. The state has felt the impact of these economic conditions greatly. The decline in revenue has been sharp and deep. From a high of almost \$18.8 billion in FY 2007, General Fund revenues contracted to \$15.2 billion in FY 2010. This is a decline of almost 20 percent.

During this time Georgia government has worked hard to manage this decline through a careful process of budget review and the prioritization of available resources to the most critical budget areas. My budget recommendations for AFY 2011 and for FY 2012 follow this standard. While all levels of government have needed to retrench, special efforts have been made to protect educational funding, health services and necessary infrastructure development. When possible, flexibility has been given to local authorities so that they can maximize the return on available resources.

Economic conditions have stabilized over the last year and continued improvement is expected in calendar 2011. However, revenue growth will continue to be modest compared to that of prior economic recovery periods. My budget recommendations are based on a prudent and conservative analysis of current conditions. While we hope for a stronger uptick in the economy, it cannot be assured. Also, the last two years of budget shortfalls have left our reserves very low. Unlike the federal government, Georgia must have a budget that balances expenses and revenues. If revenues decline, our only recourse would be a further cut in budgets.

Thanks to your responsible leadership and steadfast conservative principles, Georgians can be proud of their state's handling of the fiscal challenges of the last three years. Prudent financial decisions helped us maintain our AAA bond rating, which reduces the cost of necessary infrastructure projects for education, economic development and transportation.

I will work closely with the General Assembly to make the most effective use of our resources and to protect needed service levels in a time of fiscal constraints. Our future depends on strong education levels to fuel economic growth and job creation. My administration is committed to fostering this environment.

With a population of 9.7 million in Census 2010, an increase of 18 percent in a decade, Georgia government must find the way to educate tens of thousands of additional children each year. My FY 2012 budget includes \$231 million in bonds for K-12 capital outlay, vocational equipment, buses and repairs for state schools. It also includes \$15 million in bonds for Science, Technology, Engineering and Mathematics charter schools. These schools will prepare our students for future careers based on backgrounds in these critically important hi-tech areas. To compete in a global economy, we must also have universities and technical colleges that give our people the education they need for the economy of a new century. Furthermore, my budget recommendation recognizes the need to preserve HOPE for our children and our children's children.

One of the leading cost drivers in the state budget is the continuing growth in healthcare costs, including Medicaid and PeachCare. I know these programs are essential to almost one in four Georgians. However, we must work harder to control costs through better management and the elimination of waste and abuse. Appropriate changes now can ensure that the long-term viability of these programs is maintained and that it is done in a way that is fiscally prudent to the state and its taxpayers.

We are also continuing to fund necessary infrastructure developments. My FY 2012 budget recommendations include \$46 million in bonds for reservoir development and \$35 million for GEFA's water and sewer programs. In addition, \$32 million in bonds will continue the deepening project for the Savannah harbor, meaning that it will be ready to handle the larger ships that will traverse the larger Panama Canal in the next few years. It is also important that we are good stewards of our state's capital infrastructure. I am recommending \$50 million in bonds for facility repairs and renovations in the University System and \$28 million for facility maintenance and equipment upgrades at our technical colleges.

Economic growth in rural areas is important to all of us. The OneGeorgia Authority has the ability to make this growth happen through needed infrastructure development, business relocation assistance, and entrepreneur support. We will continue to provide the necessary funds for this critical program. Another important program is REBA, the Regional Economic Business Assistance Program. REBA provides funds to "close the deal" when companies are considering Georgia or another place for their expansion. We will continue to work with local development authorities to finance the fixed-asset needs of these companies.

I am humbled by the great trust the people of Georgia have given me, and I pledge to work with you to successfully meet the needs of our state. This state has faced harder challenges in its history and has always overcome them. An earlier generation hardened by depression and war created the world's strongest nation. I know we are up to the challenge.

Sincerely,

A handwritten signature in cursive script that reads "Nathan Deal".

Nathan Deal

Note:

Program and fund source expenditure data for FY 2009 and FY 2010 included in this budget document were obtained from the Budgetary Compliance Report issued by the State Accounting Office and are for comparison purposes only. Funds classified as State Funds - Prior Year Carry-Over in the Budgetary Compliance Report are included as Other Funds in the Department Financial Summaries in this document. The Department of Audits and Accounts performed certain procedures, which are enumerated in the "Independent Accountant's Report on Applying Agreed-Upon Procedures," for the purpose of assessing the accuracy of the financial information contained within the Budgetary Compliance Report. Expenditure data should not be construed to present the financial position or results of the operations of the State of Georgia as a whole. Such information is presented in the State of Georgia Comprehensive Annual Financial Report and the State of Georgia Single Audit Report.

Note: The State General Funds Surplus for Fiscal Year 2009 includes a book lapse of unallotted funds totaling \$324,835,981. For Fiscal Year 2010, this book lapse was \$71,407,810. These funds were never transmitted to agencies as part of the cost restraints put in place to cover a revenue shortfall after the budgets for both years were enacted. The agency surplus that was returned to the State Treasury for deposit into the Revenue Shortfall Reserve was \$54,111,947.29 in Fiscal Year 2009 and \$75,425,850.18 in Fiscal Year 2010. Surplus Lottery funds and Tobacco funds are deposited into separate reserves.

## State Debt Service as a Percentage of Prior Year Net Treasury Receipts

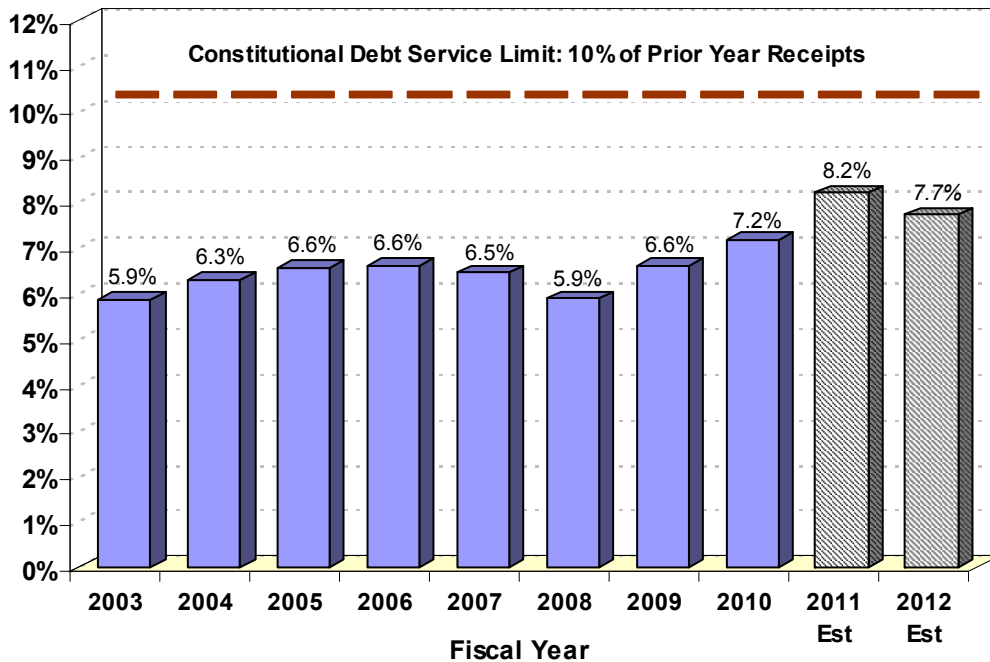

The following sets forth the highest aggregate annual debt service (including recommended debt) as a percentage of the net treasury receipts for the prior fiscal year. Prior to FY 1984 the maximum percentage allowed by the Constitution was 15 percent.

Fiscal Year	Highest Annual Debt Service	Prior Year Net Treasury Receipts	Percentage
2012 (Est.)	\$1,395,589,194	\$18,052,709,014	7.73%

## Revenue Shortfall Reserve

The 1976 session of the General Assembly created the Revenue Shortfall Reserve in lieu of the Working Reserve. This reserve acts as a savings account or "rainy day" fund for the state should revenue collections decline unexpectedly or uncontrollably. Current law provides that the reserve cannot exceed 15% of the previous fiscal year's net revenue. For each fiscal year, the General Assembly may appropriate an amount up to 1% of the net revenue collections of the preceding fiscal year for funding increased K-12 needs. In addition, the Governor has the authority to release funds from the reserve in excess of 4% of the net revenue of the preceding fiscal year. The chart for FY 2010 includes agency surplus collected after June 30, 2010 and does not include funds used for mid-year K-12 adjustment.

### Lottery Reserves

Georgia's lottery laws require the establishment of two reserves that are funded as a percentage of lottery collections to avoid disruption in programs should collections fall short of annual appropriations.

The Shortfall Reserve Subaccount was included in the original law and requires that an amount be set aside each year equal to 10% of the prior year's total lottery proceeds deposited into the Lottery for Education Account. If net funds in the account are not sufficient to meet appropriations, funds shall be drawn from the reserve to make up the shortage.

Funds have been set aside for the Shortfall Reserve (10% reserve) each year and totaled \$87,208,200 on June 30, 2010.

The lottery law was amended during the 1994 legislative session to require that a second reserve account within the Lottery for Education Account be established called the Scholarship Shortfall Reserve Subaccount.

The Scholarship Shortfall Reserve requires a reserve equal to 50% of the amount of scholarship proceeds disbursed during the preceding year be maintained. The subaccount balance on June 30, 2010 totaled \$272,993,887.

The two lottery reserves as of June 30, 2010 total as follows:

Shortfall Reserve Subaccount	\$87,208,200
Scholarship Shortfall Reserve Subaccount	<u>272,993,887</u>

The adjustments above for Georgia Enterprise Technology Services represent a budget neutral interagency transfer of funds to offset expenses associated with Georgia's enterprise technology transformation. This adjustment includes the investments made by the Georgia Technology Authority for improvements to the state's technology infrastructure. These expenses are offset by payments made by the Georgia Technology Authority to the State Treasury.

(1) Authorized position counts for FY 2012 were revised to more accurately reflect current staffing and funding levels at state departments and agencies. These revised authorized positions will be used to establish the FY 2012 Annual Operating Budget for all state agencies. Any adjustments to authorized position counts must be approved by the Office of Planning and Budget.

(2) Governor's recommendation includes agencies attached for administrative purposes, but does not reflect state authorities.

(3) Positions funded through grants-to-counties for the Department of Human Services are not included in the position count.

### Department of Justice (DOJ) Settlement Agreement Funding

The Settlement Agreement signed October 19, 2010 between the United States of America and the State of Georgia requires funding for community services directed towards developmental disabilities and mental health consumers of the Department of Behavioral Health and Developmental Disabilities (DBHDD). The agreement also calls for DBHDD to partner with other state agencies such as the Department of Community Health and the Department of Community Affairs in order to support the needs of its consumers.

The Settlement Agreement establishes yearly targets from FY 2011 to FY 2015 for developmental disabilities, mental health and quality management. State compliance with the targets established in the agreement will be verified by an Independent Reviewer.

1) All other Medicaid benefit expenditures do not include inpatient hospital services.

The U.S. Supreme Court decision, *Olmstead v. L.C.* (1999) declared that unnecessary segregation of individuals in institutions might constitute discrimination based on disability and be a violation of the Americans with Disabilities Act. The decision affects qualified individuals with a physical, mental, or age-related disability who are receiving state-supported long-term care in a state hospital or nursing home that could also benefit from community placement and are not opposed to the move. It also affects people with disabilities who need state-supported community-based services to avoid going to state hospitals or nursing homes. Since the *Olmstead* decision, Georgia has taken steps to comply with the ruling by making more community services available and accessible to Georgians with disabilities.

# Georgia Tax Expenditure Report

## Summary Review

Preparation of a tax expenditure report is required by Title 45, Chapter 12, Article 4 of the Official Code of Georgia. This report has been prepared by the Fiscal Research Center at the Andrew Young School of Policy Studies at Georgia State University. The purpose of the report is to list all expenditures and their value.

## Date Sources and Reliability of Estimates

To the extent possible, data from the Georgia Department of Revenue is used to estimate the expenditures included in this report. When appropriate information was not available from the department, other sources, such as the United States Census Bureau, Bureau of Economic Analysis, or Bureau of Labor Statistics are used. Because of the time line in processing tax returns, the most recent data used from the Department of Revenue is 2008.

The reliability of each estimate is categorized into three classes, A, B, and C. Class A estimates are the most reliable and are based off of the Department of Revenue data of actual Georgia returns. Class B estimates are based on information from a national dataset, such as the Internal Revenue Service Statistics of Income, the Consumer Expenditure Survey from the Bureau of Labor Statistics, or the American Community Survey from the United States Census Bureau. Class C estimates are based on information found from the internet or proprietary data that may not fully represent the tax consequences in Georgia. Although B and C estimates are less reliable than A, they are still considered useful estimates of the value of an expenditure.

In addition to state estimates, this report also attempts where possible, to estimate the effects on local revenues as well. There are numerous state exemptions that have important consequences on local governments.

## Presentation of the Data

The report provides a detailed list of tax expenditures by each tax component. This includes the personal income tax, corporate income tax, corporate net worth tax, sales and use tax, insurance premium tax, motor fuel tax, alcohol beverages tax, cigar and cigarette excise tax, and financial institutions business license tax. For each type of expenditure item, a cost has been calculated for FY 2010, FY 2011 and FY 2012.

The full report includes a summary table of all expenditure items under each tax category. This is followed by an overview of each type of tax, followed by a detailed review of each specific exemption. Included in the review is the statutory basis of the exemption, the effective date of implementation, if known, estimated reliability class, and a description of the exemption. Also incorporated is a summary table that lists expenditure cost estimates for FY 2010, FY 2011 and FY 2012.

A copy of the full report may be accessed on the web site of the Office of Planning and Budget at [opb.georgia.gov](http://opb.georgia.gov).

# State Accounting Office

## Roles, Responsibilities, and Organization

The State Accounting Office (SAO) was established on October 6, 2004 with an Executive Order signed by Governor Sonny Perdue. Governor Perdue signed House Bill 293, which codified the realignment of the state's financial reporting and financial systems responsibilities under a single State Accounting Officer. Within the O.C.G.A 50-5B-3, the State Accounting Office: prescribes state-wide accounting policies, procedures, and practices; prepares the state's annual audited financial statements, Comprehensive Annual Financial Report (CAFR), Budgetary Compliance Report (BCR), and other statewide financial information; manages the state's accounting, payroll, and human capital systems; Develops processes and systems to improve accountability and enhance efficiency for disbursement of funds and management of accounts payable including the manner in which disbursements shall be made; Develops systems to improve collection of accounts receivable.

### EXECUTIVE ADMINISTRATION

The Executive Administration Division provides executive leadership, budgeting, vision, management accountability, accuracy, and program coordination in support of the agency.

### STATEWIDE ACCOUNTING AND REPORTING

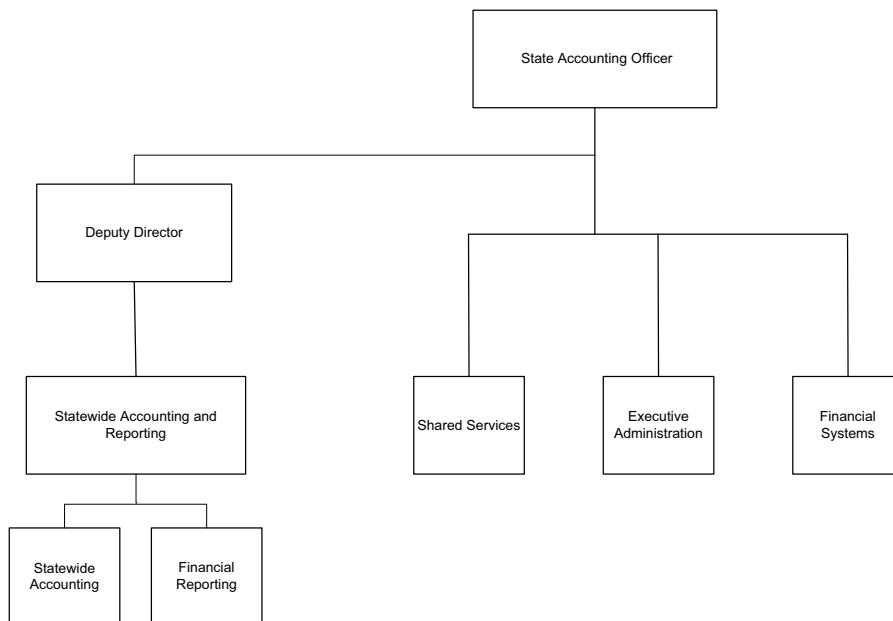

The Statewide Accounting and Reporting Division provides statewide leadership with respect to accounting and financial reporting, accounting policy, business process improvement, and ensures statewide compliance with state and federal fiscal reporting requirements. The Division

provides professional assistance to agencies through policy guidance, training, and consultation services. The Financial Reporting Section prepares and distributes the CAFR, BCR and other statewide regulatory reports coordinating with the state auditor and other auditors, as appropriate, for review and certification of financial reports.

The Statewide Accounting Section is responsible for statewide development and coordination of accounting, financial reporting, and fiscal management policies and procedures. In addition, this section provides oversight and guidance to state agencies over the American Recovery and Reinvestment Act (ARRA), and establishes the internal control framework for agency internal control assessments in order to more effectively manage risk and maintain accountability.

### FINANCIAL SYSTEMS

The Financial Systems Division provides quality customer service and operates, supports, monitors, and continually improves the State's enterprise financial accounting, payroll, and human capital management systems (Enterprise Systems) which are available for use by all State organizations in Georgia. Enterprise system improvements are periodically required in response to legislative mandates or other external requirements, to enhance user efficiency, or to address the related business needs of the organizations regarding financial, payroll or human capital matters.

# State Accounting Office

## Roles, Responsibilities, and Organization

### **SHARED CLIENT SERVICES**

The Shared Services Division executes financial transactions for client agencies while skillfully balancing efficiency and customer service to add value through lower cost and improved effectiveness. The Shared Services activities include establishing and linking account structures to support financial information needs, processing payroll

and financial transactions for multiple client agencies, reporting of financial information to agency management and meeting statewide financial information reporting requirements.

# Department of Administrative Services

## Roles, Responsibilities, and Organization

The Department of Administrative Services (DOAS) provides business solutions for state and local governments. DOAS' product and service offerings encompass a broad spectrum that includes purchasing, risk management, fleet support services, surplus property, and mail and courier.

DOAS strives to meet the business needs of its customers while providing the highest level of customer service in a rapidly changing state government.

### DOAS SERVICES

State Purchasing is responsible for procuring a wide range of commodities and services for state government. Purchasing negotiates statewide contracts for the benefit of state and local governments and offers technical assistance in conducting and assessing competitive bids. Purchasing provides cost reduction through aggregation of purchasing demand, competitive procurement, efficient purchasing systems, standards, specifications, and practices. Furthermore, Purchasing promotes fair and equitable business opportunities among vendors and strives to ensure the availability of high quality goods and services to state and local governments at the lowest possible price.

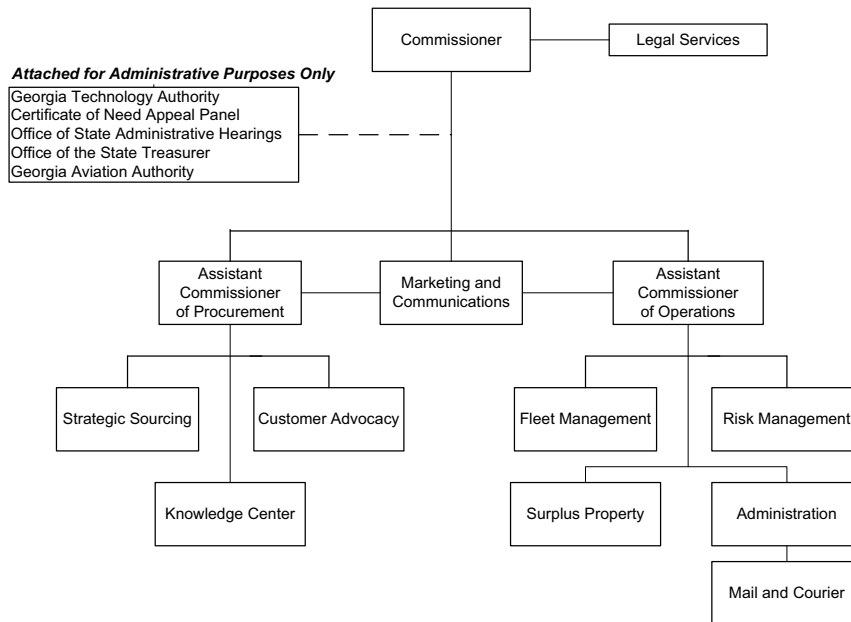

Risk Management directs the State's internal workers' compensation, liability, property, and unemployment insurance programs and also manages the Georgia State Indemnification, Teacher's Indemnification, and Educator's Professional Liability programs. Risk Management oversees

the claims administration process and assists state entities in identifying unique loss exposures and developing strategies to reduce the cost of risk associated with individual business operations. Through these efforts, Risk Management Services assures responsive stewardship of state funds and the protection of state assets.

The Office of Fleet Management (OFM), in conjunction with the Office of Planning and Budget, regulates the motor vehicle fleet management functions to ensure efficient and cost-effective fleet operations and to minimize the life-cycle costs associated with vehicle ownership. The Office of Fleet Management provides guidance on vehicle purchases, assignment, usage, maintenance, operation, and disposal.

Surplus Property is responsible for state and federal surplus personal property to state and local governments, eligible non-profits, and to the public. Redistribution through sales to the public is accomplished through internet sales service providers. Surplus Property also provides assistance to state and local governments with the disposal of personal property.

Mail and Courier Services provides mail and courier to state government within Metro-Atlanta. An interoffice mail delivery network delivers mail to state entities. It provides convenient, efficient, and cost-effective services to customers in their day-to-day business activities.

## Roles, Responsibilities, and Organization

The Georgia Department of Agriculture administers a variety of programs which all share the goals of maintaining the state's viable farm industry and protecting the consuming public. These multifaceted programs affect all Georgians as well as countless others throughout the United States and the world, wherever Georgia agribusiness products are consumed.

### **ATHENS/TIFTON VETERINARY DIAGNOSTIC LABS**

The Athens and Tifton Veterinary Diagnostic Labs ensure the safety of the food supply and the health of animals and people within Georgia by providing diagnostic support, investigative resources and disease surveillance for naturally occurring animal diseases, foreign animal diseases and bioterrorism. The labs address the concerns of veterinarians, regulatory agencies, animal owners, and wildlife groups regarding livestock, equine, and companion animals as well as wildlife.

### **PLANT INDUSTRY DIVISION**

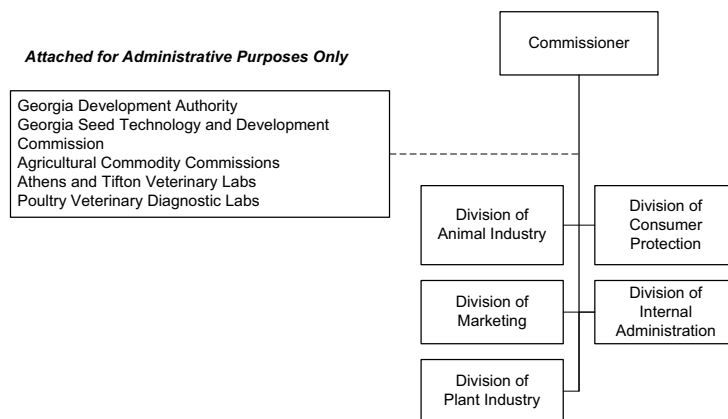

The role of the Plant Industry Division is to administer and enforce federal and state laws relating to fertilizers, feeds, grains, seeds, pesticides and pest control, nursery and plant certification, honeybees, organic agriculture, treated timber, boll weevil eradication and other related environmental protection programs. The division promotes Georgia's agricultural and horticultural interests and inspects and tests sufficient quantities of each commodity to

guarantee that those commodities reaching the consumer meet minimum standards and are correctly labeled.

### **ANIMAL INDUSTRY DIVISION**

Animal agriculture is the largest sector of agriculture, contributing over \$5.8 billion to Georgia's farm gate value. Assuring that the livestock and poultry sectors remain healthy and productive are the top priorities of the Animal Industry Division. The Animal Industry Division consists of veterinarians, field inspectors, laboratory technicians, program managers and support staff, all working to ensure the continued protection of animal and public health; the division works to guarantee food safety, animal welfare and successful livestock production. The Animal Industry Division is responsible for monitoring, detecting and controlling over 100 animal diseases that can have a significant impact on the agricultural economy and can be contagious to both animals and people. This division also ensures the humane treatment of equines and other animals and promotes dog and cat sterilization through its license plate program.

The Meat Inspection Section is the largest functional area of the Animal Industry Division. The section licenses 163 facilities in Georgia and protects consumers from food-borne diseases. Meat inspectors ensure that consumers receive wholesome, safe and truthfully labeled meat and poultry products by assuring compliance with food safety standards. The section also has a primary role in food security and would serve as a first responder to an intentional threat to Georgia's meat supply.

## Roles, Responsibilities, and Organization

### CONSUMER PROTECTION DIVISION

The primary function of the Food and Dairy Section is to prevent the sale and distribution of adulterated or misbranded foods to consumers. The Food Section conducts on-site inspections focusing on food safety risk factors and also protects consumers against fraud by checking scanners and scales to ensure the accuracy of pricing and weights. Included in these responsibilities is a dairy inspection program for farms and processing plants, so that Georgia dairy products can be marketed as "Grade A" throughout the United States.

The primary function of the Fuel and Measures Section is to ensure equity in the market place by verifying the accuracy of weighing and measuring devices. The Fuel and Measures Section inspects all measuring devices used for commerce by conducting on-site inspections and tests of commercial weighing devices including scales, liquefied petroleum gas meters, milk tanks, moisture meters, gasoline pumps, transport tank trucks, fuel oil terminals, and bulk plants. Included in these responsibilities is the operation of the state fuel oil laboratory and the state weights laboratory, both of which ensure that Georgia's regulated consumer products meet required quality standards.

### MARKETING DIVISION

The Marketing Division operates six regional farmers' markets and nine seasonal/local markets. This division collects and distributes market information on Georgia

agricultural products, and administers various marketing programs. The Marketing Division also provides supervision for the nine Georgia Agricultural Commodity Commissions. Additionally, the division enforces the requirements of the dealers in Agricultural Products Act to license and bond dealers who purchase from Georgia producers. The State Warehouse Section examines and audits licensed and bonded facilities that store Georgia agricultural products. The division registers and licenses Vidalia onion growers, licenses processors of Vidalia onion products, and enforces the requirements of the U.S. Certification Mark VIDALIA.

### POULTRY VETERINARY DIAGNOSTIC LABS

As the official state agency for the administration of the USDA's National Poultry Improvement Plan (NPIP) attached to the Department of Agriculture, the Georgia Poultry Lab Network carries out the national plan and provides diagnostic and monitoring services for Georgia poultry industry and private poultry owners in the state. The labs' primary mission is to certify that flocks are free from certain devastating poultry diseases including avian influenza; this ensures that Georgia has the healthiest flocks possible and can continue to produce and export more poultry products annually than any other state. The labs are headquartered in Oakwood with nine regional labs spread throughout Georgia.

# Department of Banking and Finance

## Roles, Responsibilities, and Organization

The Department of Banking and Finance enforces and administers all state laws, rules, and regulations governing the operation of state-chartered financial institutions in Georgia. The Department works to ensure the following banking conditions for Georgia customers:

- Safe and sound operation of financial institutions;
- Public confidence in financial institutions;
- Protection for the interests of the depositors, creditors, and shareholders of financial institutions;
- Service by financial institutions is responsive to the convenience and needs of the public; and,
- Appropriate competition among all financial institutions to promote economic growth.

The Department collects supervision, examination, and administrative fees from regulated entities to cover the expenses incurred in the operation of the department. All fees collected by the department are deposited into the State Treasury.

To accomplish its objectives, the Department has 4 principal functions:

- Supervise and regulate financial institutions;
- License mortgage brokers and lenders and money service businesses;
- Conduct examinations of financial institutions, mortgage brokers and lenders, and money service business as appropriate and as required by law; and,
- Protect and assist consumers.

### SUPERVISION AND REGULATION

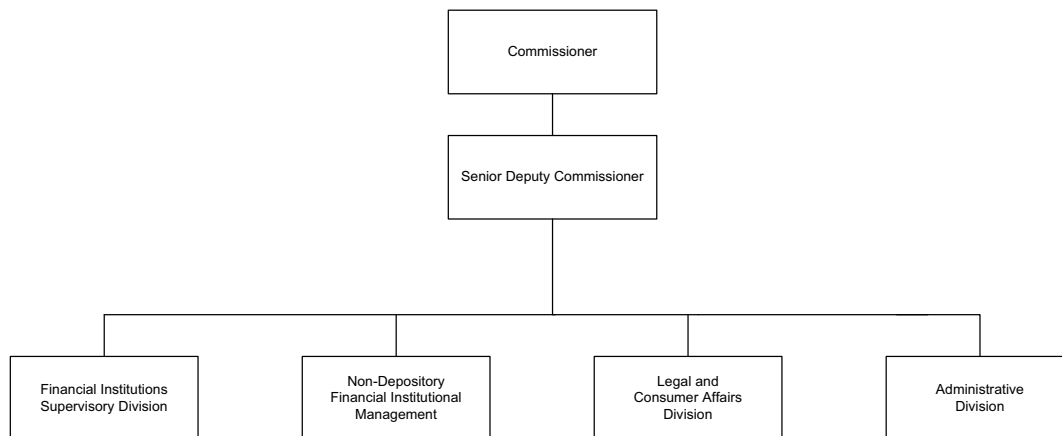

The Department has the authority to adopt rules and regulations regarding the operation of financial institutions, including the following:

- Allow state-chartered financial institutions to compete fairly with those chartered by the federal government, other states, or foreign governments;
- Protect Georgia financial institutions threatened by economic conditions or technological developments; and,
- Prevent unfair, misleading, or deceptive business practices by financial services providers.

The Department of Banking and Finance has responsibility for regulating and monitoring the condition of state-chartered banks, credit unions, Georgia holding companies, international bank agencies, mortgage brokers and lenders, check cashers, check sellers, and money transmitters.

### LICENSING AND REGISTRATION

Article 13 of Title 7 of the Official Code of Georgia Annotated requires mortgage lenders and mortgage brokers, as well as loan originators, to be licensed or registered with the Department in order to transact business in Georgia. The Department is responsible for licensing money service businesses (check sellers, check cashers, and money transmitters). The Department also conducts

# Department of Banking and Finance

## Roles, Responsibilities, and Organization

investigations and resolves consumer complaints regarding residential mortgage lending and money service businesses.

### **FINANCIAL EXAMINATIONS**

The Department is responsible for examining all financial institutions at least once each year. Mortgage lenders and brokers are to be examined at least once every 24 months. Exceptions to these examination frequencies are allowed under specific conditions as provided by law and/or policy. If necessary, the Department may require extra reports and conduct additional examinations to obtain essential information. The Department is authorized to issue and enforce orders requiring financial institutions to correct unacceptable conditions discovered through examinations.

### **OTHER RESPONSIBILITIES**

Other responsibilities of the Department include approval of all proposals to incorporate as a state-chartered financial institution, approval of requests to change existing articles of incorporation, and approval of mergers and consolidations of financial institutions. Also, the Department investigates possible violations of state interest and usury laws.

# Department of Behavioral Health and Developmental Disabilities

## Roles, Responsibilities, and Organization

The Department of Behavioral Health and Developmental Disabilities (DBHDD) provides treatment and support services to people with mental illnesses and addictive diseases, and support to people with developmental disabilities. DBHDD serves people of all ages with the most severe and likely to be long-term conditions, including forensic consumers.

DBHDD has three main divisions and two attached agencies.

### MENTAL HEALTH

The Division of Mental Health provides mental health services to child and adolescents and adult consumers at seven state hospitals and through community partners including Community Service Boards and other community providers. Services provided include community and inpatient services.

### ADDICTIVE DISEASES

The Division of Addictive Diseases provides services to child and adolescents and adults with substance abuse disorders and addictive disease issues. The division is focused on promoting and delivering effective, recovery-oriented services. Services are delivered through community based programs and residential settings. The division includes programs related to substance abuse

treatment and prevention and driving under the influence (DUI) intervention.

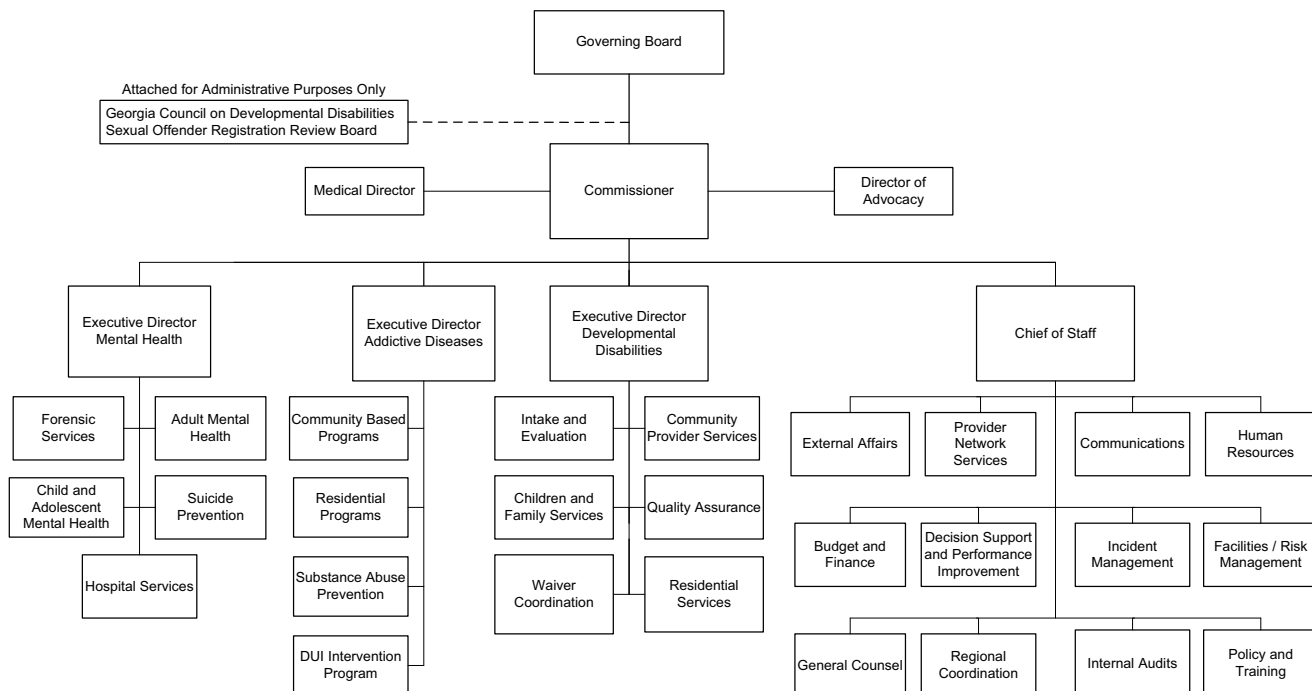

### DEVELOPMENTAL DISABILITIES

The Developmental Disabilities division provides services to consumers with developmental disabilities. People with developmental disabilities have chronic conditions that developed before age 22 and limit their ability to function mentally and/or physically. Georgia's state-supported services are geared to people with developmental disabilities and to people with other disabilities and are aimed at helping the family continue to care for a relative when possible, serving people who do not live with their families in a home setting, and promoting independence and self-determination.

### ATTACHED AGENCIES:

The Governor's Council on Developmental Disabilities is the state planning council created by a federal mandate through the Developmental Disabilities Act and is charged with creating systems change for people with developmental disabilities and their families to increase independence, inclusion, integration, and productivity for people with disabilities.

The Sexual Offender Registration Review Board helps protect Georgia's citizens by determining the likelihood that a sexual offender will reoffend.

# Department of Community Affairs

## Roles, Responsibilities, and Organization

The Department of Community Affairs (DCA) operates a host of state and federal grant programs; serves as the state's lead agency in housing finance and development; publishes building codes which are applicable to every structure built in Georgia; provides comprehensive planning, technical, and research assistance to local governments; and serves as the lead agency for the state's solid waste reduction efforts. DCA's three core businesses are safe and affordable housing, community and economic development, and local government assistance.

### SAFE AND AFFORDABLE HOUSING

DCA supports Georgia communities in addressing their housing needs by offering funding and expertise to communities, non-profit and for-profit organizations, and individuals. The agency provides financing for affordable housing development, mortgages, and down payment loans for moderate-income first-time homebuyers and financing for housing for people with special needs.

DCA's homeless and special needs housing programs support local programs that provide emergency shelter, transitional housing, essential services, and permanent supportive housing for persons who need community support in order to retain stable housing.

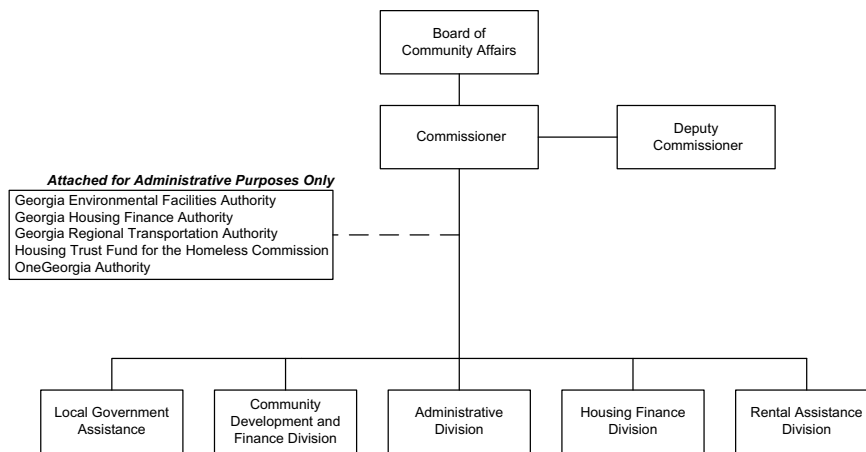

The Section 8 Rental Assistance program provides rent subsidies to landlords who agree to maintain their rental properties at the required Housing Quality Standards and to rent to qualified low-income families.

### COMMUNITY AND ECONOMIC DEVELOPMENT

DCA's community development programs help the state's communities realize their growth and development goals. The agency administers the federal Community Development Block Grant program, which provides grants annually to cities and counties outside major metropolitan areas in Georgia. DCA's community service programs deliver funding support to AmeriCorps programs located throughout the state. The Leadership Development team helps communities to design, develop, and execute leadership training programs, and coordinates the regional multi-day Georgia Academy for Economic Development in every region of Georgia.

DCA offers economic development and redevelopment incentives and tools designed to help promote growth and job creation throughout the state. Economic development programs deliver grants and loans to Georgia communities for infrastructure (for businesses creating or retaining jobs), brownfield redevelopment, site preparation, downtown redevelopment, and project funding for North Georgia Appalachian communities. Training, design, and technical assistance are also available specifically for downtown development programs.

Planning and quality growth assistance is aimed at helping communities address issues of growth, development, and quality of life through implementation of recognized best practices for planning and growth management. This assistance includes advisory clinics,

technical assistance, quality growth audits, on-site visits by resource teams, special issue workshops, and how-to toolkits.

### **LOCAL GOVERNMENT ASSISTANCE**

Regional Services staff maintains partnerships with local, regional, state and federal organizations and agencies, and facilitates community issue identification, goal development, and implementation of best practices. Regional field teams coordinate self-improvement initiatives such as the Main Street, Better Home Town, and Signature Community programs. The agency's Office of Environmental Management serves to integrate the importance of sound environmental management with the overall health and development of Georgia's communities through such programs as the Governor's Litter Initiative, Keep Georgia Beautiful, Solid Waste and Recycling, and WaterFirst. These resources enhance the capacity of local governments and communities to protect the health, safety, and welfare of their residents through the sustainable stewardship of the

environment and improvement in the quality of life for our citizens.

The department administers local government surveys related to topics including finance, solid waste, and wages and salaries. It also publishes and maintains information and data about local governments and prepares local government fiscal notes for the General Assembly.

### **ATTACHED AGENCIES**

The following agencies are administratively attached to DCA: Georgia Housing and Finance Authority, Georgia Regional Transportation Authority, Georgia Environmental Finance Authority, OneGeorgia Authority, and the State Housing Trust Fund for the Homeless Commission.

# Department of Community Health

## Roles, Responsibilities, and Organization

The Department of Community Health (DCH) was created in 1999 to serve as the lead agency for health care planning and purchasing issues in Georgia. The General Assembly created DCH by consolidating four agencies involved in purchasing, planning and regulating health care. In 2009, HB 228 restructured the state's health and human services agencies. The Division of Public Health, including the Emergency Preparedness function, transitioned to DCH. Additionally, the Division of Healthcare Facility Regulation was created out of SB 433 (2008) and HB 228 (2009). The division oversees the health- and long-term-care functions transferred from the Office of Regulatory Services. A nine-person board appointed by the Governor has policy-making authority for DCH.

The Department has five major divisions: Medicaid, State Health Benefit Plan, Healthcare Facility Regulation, Public Health, and Emergency Preparedness and Response.

### MEDICAID

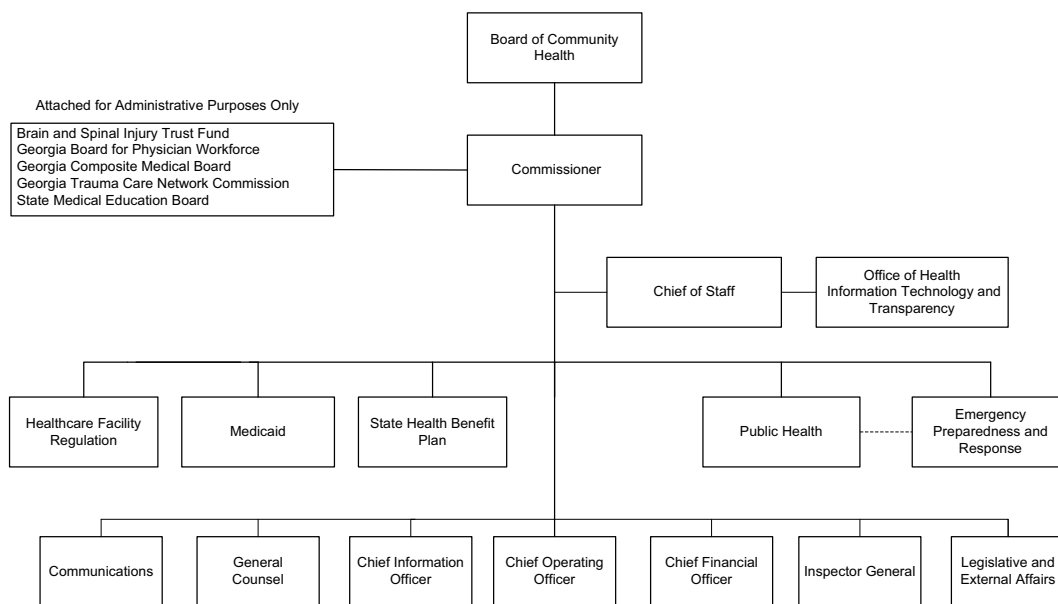

DCH is designated as the single state agency for Medicaid. The largest division in the department, the Medicaid Division purchases health care on behalf of 1.4 million persons who are aged, blind, disabled, or indigent. A broad array of health care services is available that address the needs of program participants; including hospital, physician, pharmacy, and nursing home services. Aged, blind, and disabled Medicaid members utilize a fee-for-

service delivery system. Low-income Medicaid members enroll in Care Management Organizations (CMOs) for the management of their health care services.

State and federal dollars fund Medicaid with the federal government traditionally paying for about 65% of health care costs. The American Recovery and Reinvestment Act of 2009 provide an enhanced federal participation rate for state Medicaid programs from October 1, 2008 to December 31, 2010. The Education Jobs and Medicaid Assistance Act of 2010 extended the enhanced rate through June 30, 2011.

The Division is also responsible for the PeachCare for Kids Program, Georgia's version of the federal Children's Health Insurance Program. PeachCare provides medical and dental coverage for over 200,000 children whose parents' income is too high to qualify for Medicaid, but who cannot afford private health insurance. Participants pay a monthly premium based on income and family size. Current eligibility allows children in families with incomes between 185% and 235% of the federal poverty level to participate. PeachCare members also enroll in CMOs.

The Division administers the state's Indigent Care Trust Fund (ICTF), which completed its 20th year of operation in 2010. Using intergovernmental transfers and federal matching funds, the ICTF reimburses hospitals serving a disproportionate share of medically indigent Georgians.

## Roles, Responsibilities, and Organization

### STATE HEALTH BENEFIT PLAN

The Division of State Health Benefit Plan (SHBP) manages the health plan which provides health insurance coverage to nearly 700,000 state employees, school system employees, retirees, and their dependents. The SHBP offers members several coverage options managed by two statewide vendors, including a health maintenance organization (HMO), Health Reimbursement Arrangement (HRA), High Deductible Health Plan (HDHP), and standard and premier Medicare Advantage Plans.

### PUBLIC HEALTH

The Division of Public Health is responsible for ensuring conditions that protect the health and well being of Georgia citizens, providing disease control and prevention, reducing the number of avoidable injury-related deaths and disabilities, and promoting healthy lifestyles. The three basic functions of public health include assessing the health of the community by diagnosing and investigating diseases, injuries, and health conditions and monitoring the health status and needs of individuals and the community; ensuring the health of individuals and the safety of the community through provision of health services; and establishing and implementing sound public health policy.

### FACILITY REGULATON

The Division of Healthcare Facility Regulation inspects, monitors, licenses, registers, and certifies a variety of health- and long-term care programs to ensure that facilities operate at acceptable levels, as mandated by state statutes and by rules and regulations adopted by the Board of Community Health.

### ADMINISTRATION

The Division includes the Office of General Counsel, which provides legal assistance to the department and

administers the Certificate of Need (CON) process; the Office of the Inspector General; Operations; Information Technology; Communications; and Financial Management.

### ATTACHED AGENCIES

DCH has five attached agencies. There are three Boards and two Commissions that are administratively attached to the Department.

The Georgia Composite Medical Board licenses physicians and other health care practitioners and enforces the Medical Practice Act.

The Georgia Board for Physician Workforce provides financial aid to medical schools and residency training programs.

The State Medical Education Board administers medical scholarships and loans to promote medical practice in rural areas.

The Brain and Spinal Injury Trust Fund Commission works to improve the quality of life of Georgians with traumatic brain and spinal cord injuries by distributing grant funds.

The Georgia Trauma Care Network Commission distributes funds appropriated for trauma system improvement, and works to stabilize and strengthen the state's trauma care system.

# Department of Corrections

## Roles, Responsibilities, and Organization

The Georgia Department of Corrections (DOC) administers the prison and probation sentences of offenders adjudicated by Georgia courts. More than 55,000 of these offenders are serving prison sentences. More than 150,000 offenders are on probation.

As part of its strategic plan, the department has developed the following priorities:

- Sound correctional practices are founded upon reliable and timely information.
- Citizens are safe from incarcerated and supervised offenders; correctional environments will be safe, secure, and disciplined for all staff and offenders.
- Communications are hallmarked by enhanced public awareness, collaborative partnerships, and effective departmental teamwork.
- A continuum of balanced sanctions is available to the criminal justice system.
- A highly trained and professional workforce is available to achieve the Department's mission, both today and in years to come.
- Offenders are prepared to accept responsibility for their acts, to restore harm done to the community, and to lead a productive, crime-free life.

### DEPARTMENT OPERATIONS

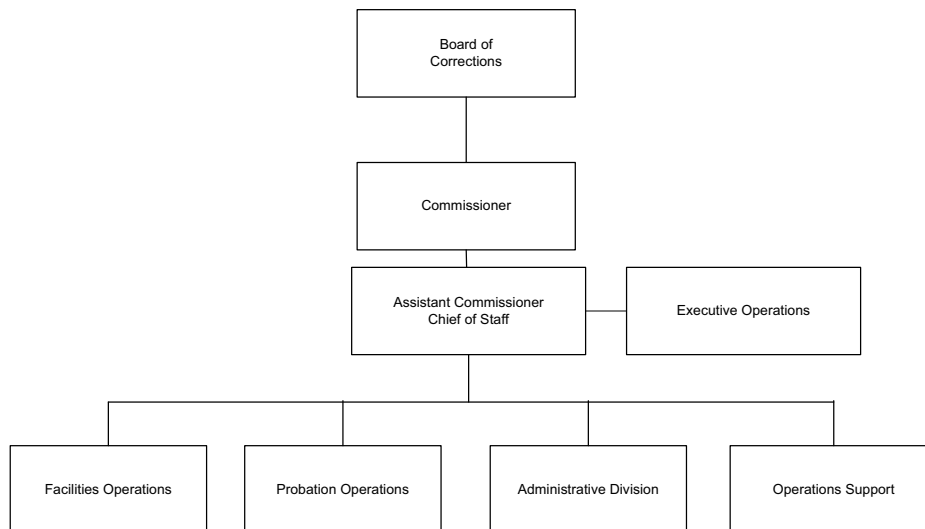

Incarceration offers a highly structured and secure environment, which removes from the community those offenders who pose a high risk. DOC provides legally

mandated services in the areas of physical and mental health, counseling, education, vocational training, chaplain services, and recreation.

DOC requires offenders in its facilities to work to support the system and the community. Inmates and probationers work on prison farms, food preparation, laundry, construction, facility and landscape maintenance, and perform factory work in Georgia Correctional Industries' manufacturing plants.

The types of DOC institutions include the following facilities:

- State Prisons (32): These institutions are typically reserved for felony offenders with more than one year of incarceration to serve.
- County Prisons (23): The state pays a subsidy to county institutions to house and supervise state inmates. Inmates assigned to the county prisons typically work on roadway or construction projects for the county in which they are housed.
- Inmate Boot Camps, Probation Boot Camps, Probation Detention Centers (14): These three programs offer a short-term, intensive incarceration period. The boot camp program enforces strict discipline and military protocol.
- Transition Centers (15): These community-based centers are designed to allow offenders nearing the end of their prison term to prepare for life in the

### Roles, Responsibilities, and Organization

community. DOC requires offenders to have jobs in the local community, pay room and board to the center, and support their families.

- Pre-Release Centers (6): These facilities are designed to give inmates additional work experience, cognitive skill, vocational, and AA/NA treatment programs prior to release. Participating inmates are selected within two years of their scheduled release.
- Day Reporting Centers (13): These non-custody, community-based resources offer treatment to offenders that are assessed to have a greater risk of re-offending without appropriate interventions. DRC interventions focus on substance abuse, criminal thinking, education, and employment issues.
- Private Prisons (2): Corrections Corporation of America owns and operates two prisons in Coffee and Wheeler Counties to house state-sentenced inmates. Like state prisons, these facilities are typically reserved for felony offenders with more than one year of incarceration to serve.

Probation is designed to enforce judicial sentences in the community. The Statewide Probation Act of 1956 laid the legal foundation for the Probation Division. The law provides for standardized supervision by sworn peace officers of those offenders sentenced to probation, either directly from court on a straight probation sentence, or after completing a specified term of imprisonment on a split sentence.

Probationers are required to be employed and to pay restitution, fees, fines, and court costs. Many probationers are also required to perform community service, defined as unpaid labor for the local community. Probationers are supervised with increasing levels of intensity in accordance with the risk they pose to the community. Requirements at these varied supervision levels may include adherence to a curfew, wearing an electronic device to monitor movements, drug testing, and home and job visits by the probation officer.

## FY 2012 Program Budgets

### State Prisons

*Purpose:* The purpose of this appropriation is to provide housing, academic education, religious support, vocational training, counseling, and substance abuse treatment for violent and/or repeat offenders, or nonviolent offenders who have exhausted all other forms of punishment in a secure, well supervised setting; to assist in the reentry of these offenders back into society through the use of Pre-Release Centers; and to provide fire services and work details to the Department, state agencies, and local communities.

#### Recommended Change:

1. Reflect an adjustment in the Workers' Compensation premium.	\$94,701
2. Reflect an adjustment in telecommunications expenses.	(605,051)
3. Increase funds to reflect an adjustment in the employer share of the Employees' Retirement System.	3,141,575
4. Annualize operating funds for fast track units at Augusta State Medical Prison (ASMP), Georgia Diagnostic and Classification Prison (GDCP), Telfair State Prison, and Central State Prison.	3,213,817
5. Redistribute operating funds to the Food and Farm Operations program based on a reduction in payments to Central State Hospital for meals for offenders absorbed into the system after facility closures in the Milledgeville area.	(1,385,533)
6. Annualize closure of Metro State Prison.	(15,243,399)
7. Annualize closure of 3 Pre-Release Centers and close 3 additional Pre-Release Centers in January (6 months).	(9,361,933)
8. Annualize closure of Men's State Prison.	(3,379,134)
9. Eliminate start-up funds for fast-track expansion at Augusta State Medical Prison (ASMP), Georgia Diagnostic and Classification Prison (GDCP), Telfair State Prison, and Central State Prison.	(3,717,830)
10. Replace the loss of American Recovery and Reinvestment Act of 2009 funds.	84,877,989
<b>Total Change</b>	<b>\$57,635,202</b>

### Transition Centers

*Purpose:* The purpose of this appropriation is to provide "work release," allowing inmates to obtain and maintain a paying job in the community, while still receiving housing, academic education, counseling, and substance abuse treatment in a structured center.

#### Recommended Change:

1. Reflect an adjustment in the Workers' Compensation premium.	\$4,963
2. Reflect an adjustment in telecommunications expenses.	(40,666)
3. Increase funds to reflect an adjustment in the employer share of the Employees' Retirement System.	186,943

## Roles, Responsibilities, and Organization

The Department of Defense serves the nation and the State of Georgia by organizing and maintaining National Guard forces, which the President of the United States can call to active duty to augment the nation's regular armed services, or which the Governor, as Commander-in-Chief of the State Militia, can order deployed in instances of disaster, riot, violence, or other dangers threatening the state and its citizens. The department achieves these objectives through its four components: Office of the Adjutant General, Air National Guard, Army National Guard, and the State Defense Force. Using these components, the department operates and manages approximately 1,200 training, maintenance, and logistics army facilities statewide.

Another responsibility of the Department of Defense is the operation of Youth Challenge Academies for at-risk youth in the State of Georgia. This program is a preventative rather than a remedial program, that targets at-risk youth participants who are unemployed, drug-free and law-free high-school dropouts, 16 to 18 years of age.

### GEORGIA AIR NATIONAL GUARD

The role of the Georgia Air National Guard is to provide fully equipped, fully trained combat units which are prepared to respond to state or national emergencies. The activation and deactivation, organization, administration,

training, equipping, and housing of its units, as well as the evaluation of its wartime capability are mandated responsibilities.

### GEORGIA ARMY NATIONAL GUARD

The Georgia Army National Guard is responsible for maintaining a level of operational readiness, which allows for immediate and effective response to state or national emergencies, civil disturbances, and natural disasters.

### OFFICE OF THE ADJUTANT GENERAL

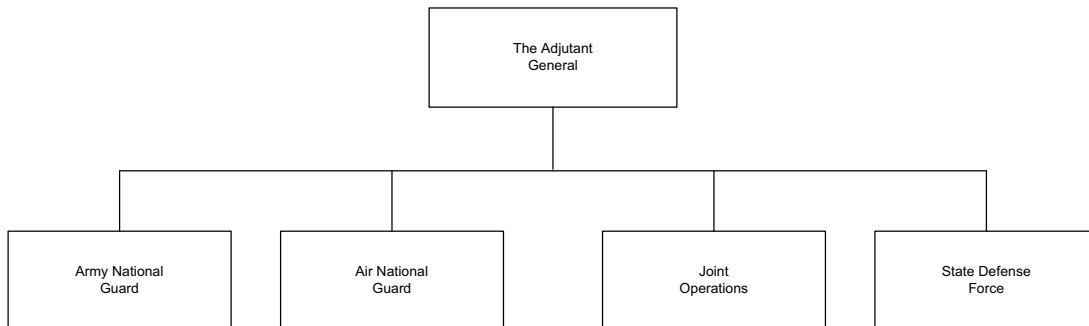

The role of the Office of the Adjutant General is to provide command and control of the entire organization, as well as centralized administrative support for the department. The Adjutant General also serves as the state's director of the Selective Service System.

### STATE DEFENSE FORCE

The role of the State Defense Force is to serve as a caretaker administration in the event of a full mobilization, and to provide assistance during emergencies and natural disasters, as well as support for the staging of special events.

### AUTHORITY

Title 38, Official Code of Georgia Annotated.

# Department of Driver Services

## Roles, Responsibilities, and Organization

The Department of Driver Services (DDS) was established by Executive Order on July 1, 2005, in accordance with HB 501.

### CUSTOMER SERVICE SUPPORT

The Customer Service Support program is responsible for the assistance and policy direction of the Department of Driver Services. The function of the program is to provide administrative support for the License Issuance and Regulatory Compliance programs. The program includes administrative, financial, public information, legal, business analysis, and information technology services.

### LICENSE ISSUANCE

The License Issuance program carries out the issuance of driver's licenses and permits, as well as public identification cards, the suspension and reinstatement of driver's licenses,

and the administration of the commercial driver's license program.

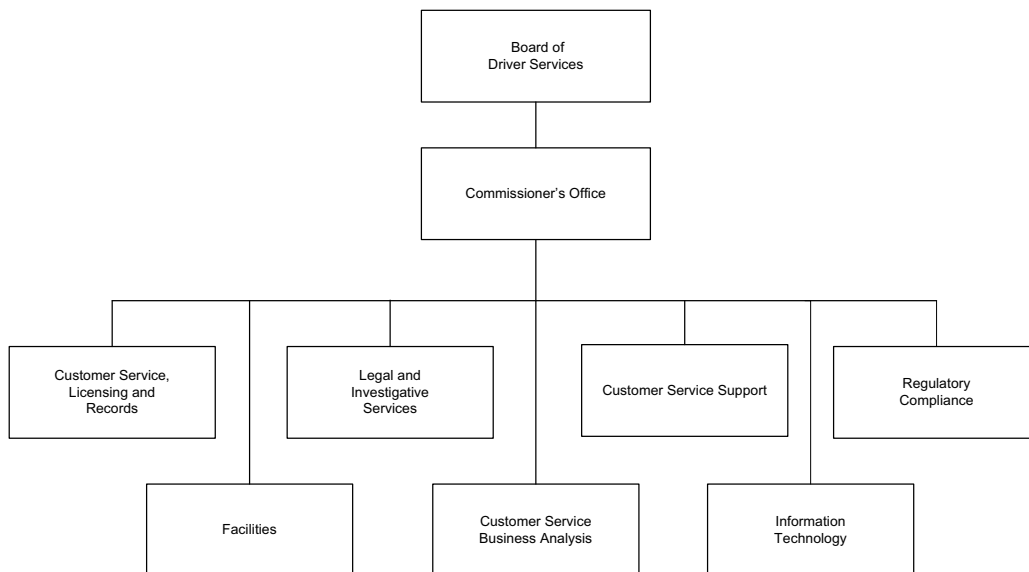

The Department utilizes 57 full-time testing customer service centers, and 7 part-time testing customer service centers which are situated strategically throughout the state.

### REGULATORY COMPLIANCE DIVISION

The Regulatory Compliance program is responsible for licensing driver training schools and instructors, licensing driver improvement clinics and instructors, certifying ignition interlock devices and provider centers, and monitoring and providing Alcohol and Drug Awareness Program (ADAP) classes.

# Bright from the Start: Georgia Department of Early Care and Learning

## Roles, Responsibilities, and Organization

Bright from the Start: Georgia Department of Early Care and Learning is responsible for meeting the child care and early education needs of Georgia's children ages birth through school age and their families. It administers the nationally recognized Pre-Kindergarten Program, licenses and registers child care centers and home-based child care, administers federal nutrition programs and the Even Start program, and houses the Head Start Collaboration Office. Bright from the Start also works to enhance the quality and availability of early care and education by managing the quality earmarks for federal funding and working collaboratively with Georgia child care resource and referral agencies and other organizations throughout the state.

### PRE-KINDERGARTEN PROGRAM

Georgia's lottery-funded voluntary universal Pre-Kindergarten Program currently serves approximately 84,000 students in 4,200 classes. Georgia's Pre-K Program is one of the largest and most comprehensive Pre-K programs in the nation and continues to be a model for other states.

Pre-K is offered in public school systems as well as through private providers. Children four years of age on September 1st of the current school year whose parents are Georgia residents are eligible to attend Georgia's Pre-K Program.

Training and professional development are integral parts of all programs administered by Bright from the Start. The program coordinates training and technical assistance

for approximately 15,000 child care workers, early education providers, and program sponsors annually.

### CHILD CARE SERVICES

Child Care Services is responsible for licensing and registering approximately 3,200 child care learning centers, over 4,000 family child care homes, 2,000 informal care providers, and 250 group day care homes.

Child Care Services supports child care programs through monitoring, technical assistance and training to assure safe and healthy environments and to improve the quality of education services to children. Licensing staff provide information to parents about Georgia child care programs and provide consumer education by making child development and early childhood education information available to parents and providers.

Child Care Services also provides regular customer-focused licensing orientation sessions for prospective child care programs and processes criminal record checks on all child care facility administrators.

### NUTRITION SERVICES

The Nutrition Services program is responsible for administering the United States Department of Agriculture's Child and Adult Care Food Program (CACFP) and the Summer Food Service Program (SFSP) for Georgia. The goal of these programs is to ensure that low-income children and adults

throughout Georgia have access to nutritious meals while they are in a day care setting and during the summer when school is not in session. Through these programs, over 86 million meals are served annually to eligible children. Nutrition service provides healthy eating and physical training and resources for parents and providers through the Child Care Resource and Referral System and the website [www.healthyeatingforlife.org](http://www.healthyeatingforlife.org).

### **QUALITY INITIATIVES**

Bright from the Start works in a number of ways to enhance the quality of early child care and education experiences in Georgia. In partnership with internal and external resources, the Quality Initiatives program

implements innovative strategies that focus on improving the quality of early education, child care, and nutrition for Georgia's children and families. The division oversees the statewide Parent Referral System, the Child Care Resource and Referral System, the Even Start Family Literacy Program, the Scholarships and Incentives Program.

The Quality Initiatives program distributes the federal Child Care Development Fund quality dollars to improve the quality, affordability, and accessibility of child care for children and families.

# Department of Economic Development

## Roles, Responsibilities, and Organization

The Department of Economic Development (DEcD) administers programs that promote and encourage the development of tourism and business in the state.

### RECRUITMENT, EXPANSION, AND RETENTION

The Global Commerce Division promotes Georgia as a location for domestic and international businesses by: providing accurate information on such topics as wages, labor availability, and taxes; accompanying industry officials on tours of communities for prospective industrial development; and supporting local communities' business development programs. The division also encourages the continued prosperity of existing Georgia companies in partnership with local and state officials. It assists companies with business expansions to advance the creation of new jobs and investment.

The Department provides staff support to the Georgia Allies, a public-private marketing partnership targeting industries that build on Georgia's competitive strengths and positions the state well in the economy of the 21st century.

### INTERNATIONAL RELATIONS AND TRADE

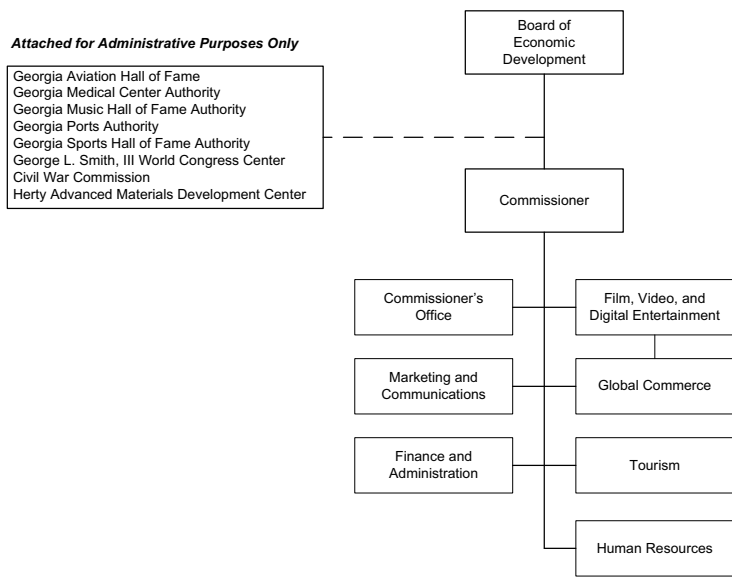

The Global Commerce Division promotes the sale of Georgia products and services to customers abroad and coordinates all facets of international trade and export in the state. Through the U.S. Export Assistance Center, staff assists small and medium-sized businesses involved in exporting with trade leads, market analysis, trade shows and

identification of financial assistance options. Trade assistance is furthered through contracts with international representatives in key markets for Georgia businesses. The division also coordinates the operations of the overseas offices in Europe and Asia, which are primarily responsible for business recruitment.

### ENTREPRENEUR AND SMALL BUSINESS DEVELOPMENT

Through a three-pronged effort, the Global Commerce Division provides strategies and services that target: 1) entrepreneurs and small businesses, 2) communities, and 3) other state agencies with the goal of encouraging entrepreneurship and small business development around the state.

Procurement assistance, outreach, and the Governor's Mentor Protégé Program are available directly to entrepreneurs and small businesses. To help communities develop an entrepreneur and small business strategy, staff have developed a five-step program that upon successful completion leads to a community's designation as "entrepreneur friendly." The division also leads the Georgia Entrepreneur and Small Business Coordinating Network, created to promote interagency collaboration as well as awareness among state service providers of the full spectrum of state resources available to entrepreneurs and small businesses.

## Roles, Responsibilities, and Organization

### INNOVATION AND TECHNOLOGY

The Innovation and Technology Office (ITO) is aimed at attracting high technology, biotech companies and industries to locate and grow in Georgia. The office works with communities, companies, and institutions all over the state to identify and cultivate exceptional talent critical to keeping Georgia on the leading edge of research, product development, and groundbreaking advances in science and technology.

ITO and DEcD support Georgia's Centers of Innovation program. This program is charged with providing the resources and services needed to foster growth in the areas of aerospace, agriculture, life sciences, maritime logistics, manufacturing, and information technology; areas of strategic focus as designated by Governor Perdue in 2003.

The office broadened its focus to concentrate on business development for strategic industries by working with the Centers of Innovation, technology industry business associations, by attending strategic industry shows, and trade missions.

### FILM, MUSIC and DIGITAL ENTERTAINMENT

The Film, Music and Digital Entertainment Office develops and promotes the state's film, television, commercial and music video production, video game development and other interactive productions, and music recording industries. The office actively pursues entertainment industry prospects through direct mail, prospect visits, advertising, and trade show participation.

Staff provides location scouting and on-location assistance to production companies, television networks and Hollywood studios, and coordinates the filming needs of companies with other state agencies and local governments. The office introduces prospects and customers to Georgia's diverse filming locations, production resources, workforce, suppliers and available incentives. The office also promotes Georgia as a recording destination to music producers and

artists and provides assistance to recording companies, recording studios, publishers, artists, and artist management.

The office works to attract and develop new entertainment company locations, relocations and expansions of indigenous entertainment companies in Georgia. Growing Georgia's entertainment workforce through job creation and driving new dollars into the state's economy are the division's number one priorities.

### TOURISM

Through marketing, sales outreach and information services, the Tourism Division works to increase the number of people who choose Georgia as a vacation destination. Through its network of regional representatives, it also assists the state's communities and attractions in reaching potential travelers to their areas. The Division works in partnership with local and regional tourism organizations in the development of tourism products and promotions. Through the state's 11 visitor information centers, the Division works to sell extended and return visits to our current visitors. The Department plays a leadership role in and provides staff support to the Georgia Tourism Foundation, a public-private partnership charged with coordinating Georgia's tourism marketing programs and establishing initiatives that support the growth of tourism statewide.

### ATTACHED AGENCIES

The following agencies are administratively attached to DEcD: Georgia Aviation Hall of Fame, Georgia Medical Center Authority, Georgia Music Hall of Fame, Georgia Ports Authority, Georgia Sports Hall of Fame, Georgia World Congress Center, Herty Advanced Materials Development Center, and the Civil War Commission.

# Department of Education

## Roles, Responsibilities, and Organization

The State Board of Education establishes policies that the Georgia Department of Education administers under the direction of the State Superintendent of Schools. The Department disburses state education funds, provides technical assistance and support services to local school systems, operates three state schools for hearing- and visually-impaired students, and provides intensive assistance to local schools identified by the Office of Student Achievement.

There are 193 school systems in the state operating more than 2,292 schools. These schools are primarily funded through the Quality Basic Education (QBE) formula - a partnership between the state and local school systems that provides over \$8 billion in funding for education.

### STUDENT LEARNING AND ACHIEVEMENT

The Department of Education provides leadership in developing and implementing the state's core curriculum, the Georgia Performance Standards (GPS) for elementary, middle and secondary students. The state began phasing in the GPS in FY 2005. Currently, the curriculum has been implemented in all grades for English/Language Arts and Science, grades K-9 in Mathematics and grades K-5 and 8-12 in Social Studies.

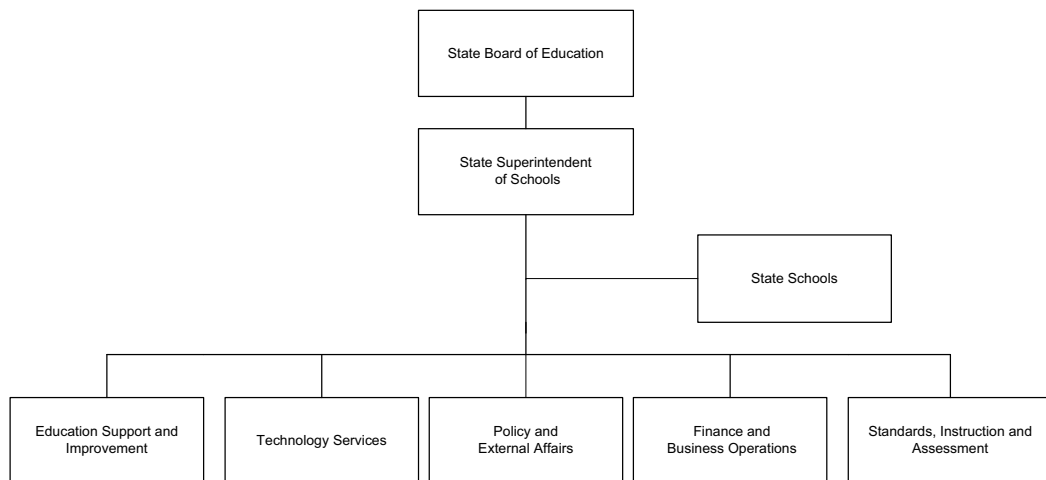

The State Board of Education has adopted new graduation requirements which will be in effect for current 9th graders, the Class of 2012. The new Graduation Rule eliminates Georgia's "tiered" diploma. All students will be

required to have 23 credits to include 4 credits each in Mathematics, Science, and English/Language Arts. All students are expected to take the same core classes and to use their electives to personalize their education, depending on their post-secondary plans.

In an effort to expand educational opportunities for all students in Georgia, the Department opened the Georgia Virtual School in FY 2006. The Georgia Virtual School provides core curriculum, foreign language, business electives and Advanced Placement (AP) courses online for public, private and home school students. Students from 134 school systems currently participate. State funds supported over 9,000 course enrollments for the 2009-2010 school year.

### SUPPORTING LOCAL SCHOOL SYSTEMS

The Department also administers funds and provides technical assistance for school improvement. School Improvement Teams serve five statewide regions and provide intensive, targeted support and additional resources for schools and school systems not meeting Adequate Yearly Progress (AYP) under the federal No Child Left Behind (NCLB) Act - particularly schools that have not made AYP for two or more years and are in Needs Improvement status. The school improvement program offers a wide array of services ranging from professional development, analysis and planning, and implementation strategies for schools not meeting the standards. Since the Department began its school improvement efforts in FY 2004, the number of

# Department of Education

## Roles, Responsibilities, and Organization

schools in needs improvement status has declined from 533 to 278.

The Department of Education also provides funding and support for many state and federal grant programs including: Title I - Improving Basic Programs, Title II-A Improving Teacher Quality, Reading First, Migrant Education,

Pupil Transportation, Equalization, and Career, Technical and Agricultural Education.

# Employees' Retirement System of Georgia

## Roles, Responsibilities, and Organization

By statute, the staff of the Employees' Retirement System (ERS) administers nine separate retirement systems and programs: ERS, the Legislative Retirement System (LRS), the Georgia Defined Contribution Plan (GDGP), the Georgia Judicial Retirement System (GJRS), the Public School Employees Retirement System (PSERS), the State Employees' Assurance Department (SEAD), the Georgia Military Pension Fund (GMPF), PeachState Reserves and the Social Security contracts between the state and its political subdivisions.

In general, ERS is a vehicle for collecting employee and employer contributions, investing accumulated funds, and disbursing retirement benefits to members and beneficiaries. As required by Georgia law, the system is examined on an annual basis by an independent actuarial firm that specializes in pension and retirement plans. The firm prepares a yearly valuation on the contingent assets and liabilities of the system, thus revealing its ability to meet the future obligations of each retirement plan. An independent accounting firm also audits the system each year.

### EMPLOYEES' RETIREMENT SYSTEM

Since 1950, the staff of ERS has administered retirement benefits for state employees in accordance with the Official Code of Georgia. Full-time employees of participating departments are required to become members of ERS as a condition of employment, with the exception of employees who first become eligible after age 60.

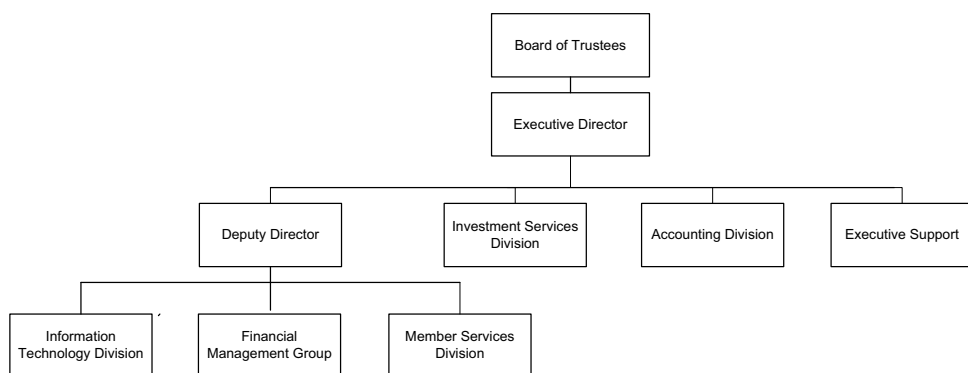

The ERS Board of Trustees is ultimately responsible for administration of the system, while the executive director – who is appointed by the board and serves at the pleasure of its members – is responsible for daily management of ERS operations. The board consists of seven members as follows:

- Three ex officio members (State Auditor, State Personnel Administration Commissioner, and Office of Treasury and Fiscal Services Director).
- One member appointed by the Governor
- Two members – appointed by the first four members – with five or more years of creditable service with ERS and
- One member – appointed by the first six members – who must not hold public office, not be an ERS member, and have at least 10 years of experience in the investment of money.

The members who are not ex officio members serve four-year terms.

### LEGISLATIVE RETIREMENT SYSTEM (LRS) AND GEORGIA DEFINED CONTRIBUTION PLAN (GDGP)

LRS is a retirement plan for members of the General Assembly, while GDGP is a plan for temporary, seasonal, and part-time employees of the state not covered by ERS or the Teachers Retirement System (TRS). Both plans are placed under the administration of the ERS Board of Trustees.

# Employees' Retirement System of Georgia

## Roles, Responsibilities, and Organization

### **GEORGIA JUDICIAL RETIREMENT SYSTEM (GJRS)**

This system is for members and retirees of the Superior Court Judges Retirement System, the District Attorneys' Retirement System, and the Trial Judges and Solicitors Retirement Fund, as well as, certain employees of the Attorney General and Legislative Counsel. The GJRS Board of Trustees consists of the seven ERS trustees plus three additional members appointed by the Governor who serve in one of the following positions: state court judge, superior court judge, state court solicitor-general, juvenile court judge, or district attorney. These appointments are for four-year terms.

### **PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS)**

PSERS offers a supplemental retirement plan to certain public school employees not covered by TRS. These employees include bus drivers, cafeteria workers, and custodians. The PSERS Board of Trustees consists of the

seven ERS trustees plus two additional members appointed by the Governor for four-year terms.

### **GEORGIA MILITARY PENSION FUND (GMPF)**

GMPF provides retirement allowances and other benefits for the Georgia National Guard. A member becomes eligible for benefits upon attainment of age 60 with 20 or more years of credible service (including at least 15 years of service as a member of the National Guard), having served at least 10 consecutive years as a member of the National Guard immediately prior to discharge, and having received an honorable discharge.

### **PEACHSTATE RESERVES**

PeachState Reserves is the deferred compensation retirement plan for the State of Georgia. Through this program, employee contributions and investments in 401K and 457 plans are administered by ING.

# Georgia Forestry Commission

## Roles, Responsibilities, and Organization

The Georgia Forestry Commission is responsible for the conservation of Georgia's public and private forest resources. The commission carries out this mission by protecting the forest from fire, insects, and diseases, working with forest industry and landowners to manage and utilize forest resources, providing educational programs about the danger of wildfire and best management practices, and supplying high-quality tree seedlings to Georgia landowners for reforestation.

The Georgia Forestry Commission protects and manages Georgia's 24 million acres of forestland, which represents 75% of all land in the State. The commission has four main programs: Administration, Forest Protection, Forest Management, and the Tree Seedling Nursery. Through these programs, the Forestry Commission provides a wide variety of services to rural forest landowners, offers technical assistance to municipalities and urban landowners, provides seedlings to the citizens of Georgia at a reasonable price, and protects the forest resources of the state through fire prevention and suppression.

### FOREST PROTECTION

Forest Protection, the primary function of the Georgia Forestry Commission, is carried out through the Fire Business Activities, which includes the prevention and suppression of Georgia's forest fires. The basic fire suppression function includes the prompt detection and reporting of fires, followed by a powerful initial response from trained firefighters operating crawler tractor-plow units and water

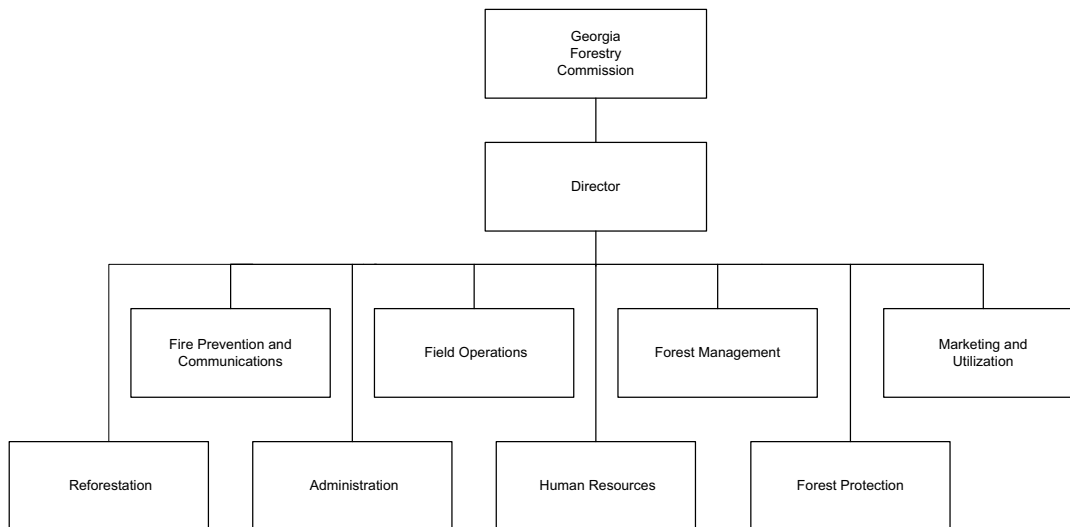

trucks. The effectiveness of the Forest Protection program is a direct result of properly maintained equipment that can be quickly mobilized in the early phases of a forest fire. In addition, forest rangers carry out prescribed forest fires and limit the damage they may cause.

Under state code, the Georgia Forestry Commission is responsible for all wildfires outside the unincorporated areas of our state and therefore manages the Rural Fire Defense subprogram. This program ensures state coordination and cooperation with rural fire departments across the state and is the most valuable forest protection community outreach program offered by the commission. Rural Fire Defense provides low cost fire equipment, as well as, assistance with training and operations for local, mostly rural, fire departments statewide.

Through the Fire Prevention and Education Program, the commission provides information about the dangers of wildfires and their prevention and has established prevention measures such as burn permitting to encourage responsible debris burning.

### FOREST MANAGEMENT

In the area of forest management, the commission provides technical assistance and service to private and industrial landowners. The responsibility of the Urban and Community Forestry Assistance subprogram is to provide leadership and technical assistance in establishing and maintaining sustainable urban and community forests and

# Georgia Forestry Commission

## Roles, Responsibilities, and Organization

to provide professional expertise to resolve conflicts between development and forest resources.

Multiple forest resource management techniques for both public and private lands are encouraged and promoted through the Stewardship Management subprogram, which also conducts forest health monitoring (including periodic insect and disease evaluations, surveys and eradication), promotion of forest water quality and monitoring of best management practices, and cost-share technical assistance to the forest landowner in establishing sound forestry practices. Additionally, the department conducts the management of four state-owned and two non-state owned forests through State Managed Forests.

The Commission also works to enhance the value of forests and their contribution to the economy of Georgia through Utilization and Marketing. This promotes Georgia's forest resources and products both nationally and internationally, including traditional wood products from existing mills and new bioenergy products. The commission is educating Georgian's on recovering value from carbon

credit forestry offsets and is implementing the Georgia Carbon Registry.

Finally, the commission collects forestry data used to inform Georgia residents and policy makers through its Forestry Inventory and Analysis subprogram.

### **REFORESTATION**

The role of the Reforestation Division is to provide high quality, genetically superior forest tree seedlings to the residents of Georgia at a reasonable price without cost to the taxpayer. The Reforestation Division at the Georgia Forestry Commission is comprised of two programs, Tree Improvement and Tree Seedling Nursery. Through these programs, the commission develops genetically superior tree seedlings at the state's Flint River Nursery, and then sells them to the public, ensuring the regeneration and sustainability of Georgia's forested lands.

# Office of the Governor

## Roles, Responsibilities, and Organization

The Governor is the Chief Executive Officer of state government. Constitutionally, he is charged with executing the laws of the state and conserving the peace as Commander-in-Chief of the Georgia National Guard. The Governor is also charged statutorily with a number of responsibilities, including the economic and fiscal management of state government. To accomplish these duties, the Governor must meet and work with citizens of Georgia, officials of local governments, members of the General Assembly, state agency heads, and federal officials. These activities will move us toward a better managed and more educated, healthy, safe, and growing state.

The Office of Planning and Budget (OPB) assists the Governor in the development of a policy driven state budget, develops and annually updates a State Strategic Plan, assists all state agencies in the development of their own strategic plans and ensures compatibility with the state plan, and, performs financial and personnel functions for the Office of the Governor and attached agencies. OPB also conducts management studies and other evaluations of state government operations. The Governor's Program Budgeting initiative dictates that budgets will be predicated on programs that support departmental business plans and a more effective and efficient, results-oriented, and customer-focused budget process.

### ATTACHED AGENCIES

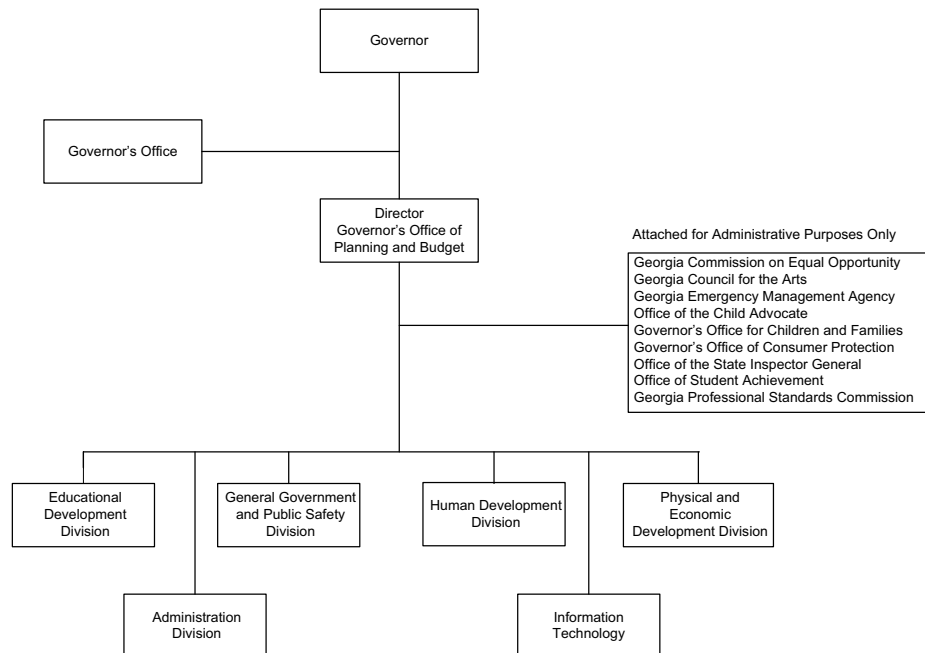

Several agencies are attached to the Office of the Governor for administrative purposes. This reduces

administrative costs through consolidation of the administrative support functions. These agencies operate autonomously; however, their funding is received through the larger agency.

The Georgia Council for the Arts contributes to an educated and growing Georgia. The Council for the Arts advises the Governor regarding the study and development of the arts in Georgia and provides grants and technical assistance to local governments and art groups.

The Professional Standards Commission and the Office of Student Achievement are two administratively attached agencies that work toward the goal of an educated Georgia. The Professional Standards Commission creates and implements standards and procedures for certification of educational personnel in the public schools; reviews and analyzes requests for certification; and, develops and enforces the code of ethics and performance standards for teachers in local school systems. The Office of Student Achievement establishes educational accountability policies and standards for the state to establish the "official" education report card which is reported to stakeholders and used to provide education policy support to the Governor.

The Office of the Child Advocate provides for the protection of children and assists the Office of the Governor with oversight of healthy and safe services for some of Georgia's most important resources – our children. The Child Advocate provides independent oversight of persons,

# Office of the Governor

## Roles, Responsibilities, and Organization

organizations, and agencies responsible for providing services to and/or caring for children who are victims of child abuse and neglect or whose domestic situation requires intervention by the state.

The Governor's Office for Children and Families (GOCF) seeks to enhance coordination and communication among providers and stakeholders of services to families. Through a community-based system of care, GOCF offers grants for prevention and intervention activities for children, youth and families to ensure they are educated, healthy, safe and growing. GOCF works to build capacity in communities to enable sustainability of such activities and services. Interagency coordination assistance in establishing statewide goals and standards is also a cornerstone of GOCF's community development work.

The attached agencies focusing on a safe Georgia are the Office of Consumer Protection and the Georgia Emergency Management Agency. The Office of Consumer Protection protects consumers and legitimate business enterprises from unfair and deceptive activities through enforcement of the Fair Business Practices Act and other

related consumer protection statutes. The Georgia Emergency Management Agency works with state and local agencies to protect the state from man-made and natural disasters and to carry out a comprehensive emergency and disaster readiness program.

The Commission on Equal Opportunity's mission is to protect any individual in public employment from discrimination in the workplace. In addition, the commission ensures that the sale, purchase or rental of housing within the state is free from any discrimination based on race, color, religion, sex, national origin, handicap, or age.

The Office of the State Inspector General was created by Executive Order to prevent and investigate fraud, waste and abuse in state government. Their goal is to produce a more efficient, cost-effective, and trustworthy government.

# Department of Human Services

## Roles, Responsibilities, and Organization

The Georgia Department of Human Services (DHS) is responsible for the delivery social services. DHS serves all Georgia citizens through regulatory inspection, direct service and financial assistance programs.

DHS has four major divisions: Family and Children Services, Aging Services, Child Support Services, and Residential Child Care.

### AGING SERVICES

The Division of Aging Services administers programs for older Georgians and adults with disabilities. These programs provide in-home services to maintain independence, provide public education and outreach services, health promotion, senior employment, investigative and protective services for vulnerable adults, and an ombudsman program for Georgians in long-term care.

### FAMILY AND CHILDREN SERVICES

The Division of Family and Children Services (DFCS) provides child welfare, economic assistance, and family violence services. Services are provided through a network of offices in all 159 counties, community partners, and contract agencies. Organizationally, DFCS is made up of two units: Family Outcome and Practice Standards and Business Services and Support.

### CHILD SUPPORT SERVICES

The Division of Child Support Services (DCSS) helps children by enforcing parental obligation to pay financial support. Services include locating non-custodial parents, confirming paternity, establishing and enforcing child support and medical support orders, and collecting and distributing payments.

### RESIDENTIAL CHILD CARE

The Office of Residential Child Care (RCC) inspects, monitors, licenses, registers, and certifies a variety of health and childcare programs to ensure that facilities operate at acceptable levels, as mandated by state statutes and by rules and regulations adopted by the Board of Human Services.

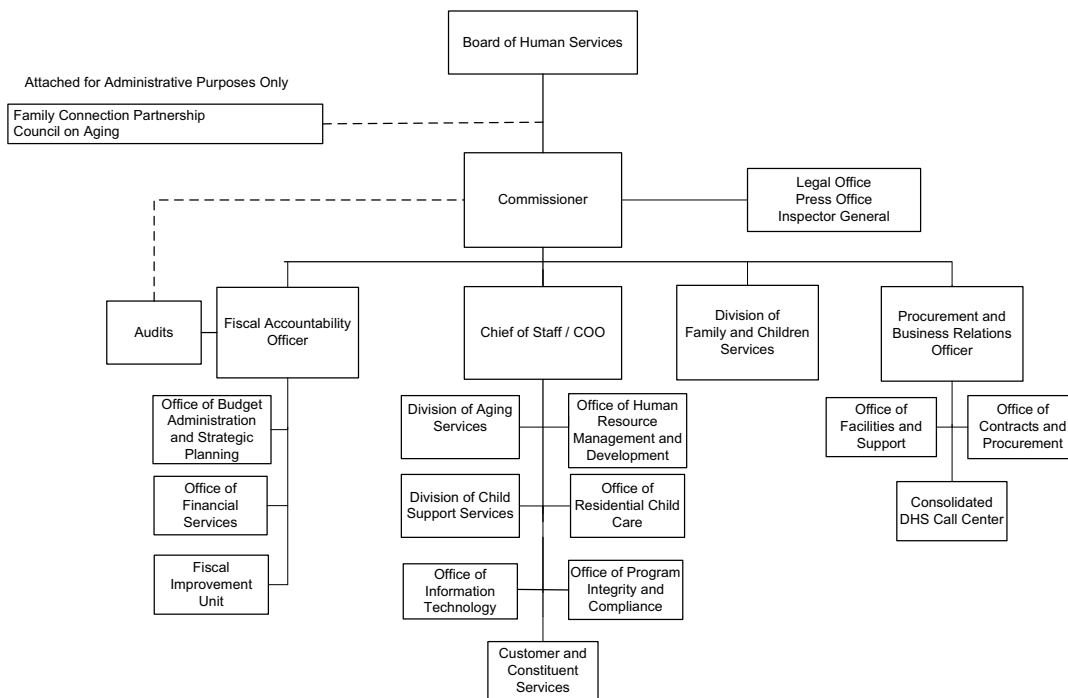

### ADMINISTRATION

DHR has administrative offices that provide executive and policy direction to all divisions of DHR, as well as technical and administrative support to all of DHR.

### ATTACHED AGENCIES:

The Council on Aging provides leadership to the Coalition of Advocates for Georgia's Elderly, researches aging issues, publishes fact sheets and other educational materials to increase public awareness and understanding of issues of concern to Georgia's older adult population.

The Family Connection Partnership is a public/private partnership that serves as a resource to state agencies across

# Commissioner of Insurance

## Roles, Responsibilities, and Organization

The Office of the Commissioner of Insurance is accountable for upholding state laws regulating insurance, small loans, fire safety, and manufactured housing. The department organizes its efforts in fulfilling these responsibilities around five divisions.

### PROGRAM ADMINISTRATION

The Program Administration Division provides management, policy direction, enforcement, and administrative support for the department's programs which regulate companies and protect consumers in the areas of insurance, industrial loans, fire safety, manufactured housing, arson investigations, building inspections, and hazardous materials handling and storage. The division's activities include accounting, budgetary, personnel, and purchasing duties for all agency divisions. Additionally, the division oversees the establishment and implementation of department policies and procedures.

### INSURANCE REGULATION

The Insurance Regulation Division is responsible for administering Georgia insurance laws and regulations. Staff members process applications for insurance companies to conduct business in the state and insurance agent license applications. The division is also responsible for oversight of insurance companies (including approving rates, as well as life, health, property, and casualty policy forms), and regulating group self-insurance funds.

### ENFORCEMENT

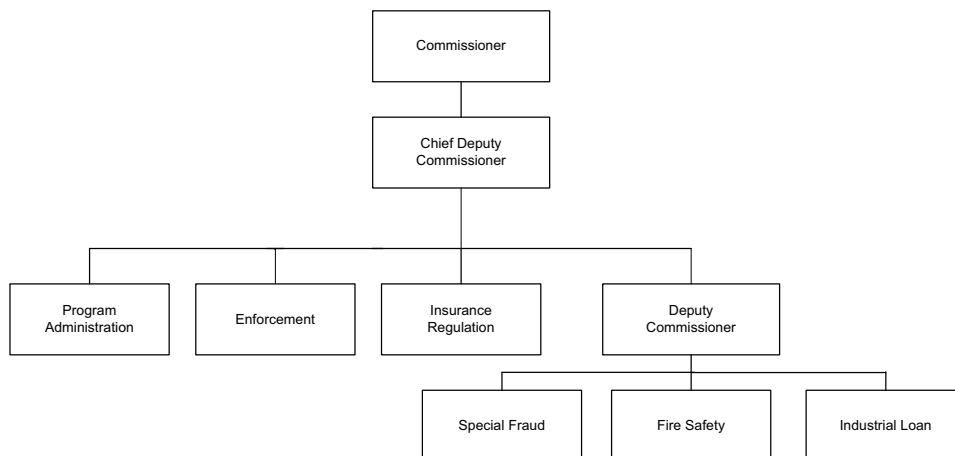

The Enforcement Division is responsible for advising the Department on legal issues related to Georgia's insurance, safety, fire, and industrial loan laws and regulations. The legal section makes recommendations and drafts orders for proposed administrative actions against licensees and unauthorized entities which are believed to be in violation of the Georgia Insurance Code, the Fire Safety Code, or the Industrial Loan Code.

### INDUSTRIAL LOAN REGULATION

The Industrial Loan Regulation Division administers the Georgia Industrial Loan Act by performing examinations of all accounts held by industrial loan companies (small loan companies making loans of \$3,000 or less) licensed to do business in Georgia and accounting for all fees and taxes payable by such companies. Additionally, division staff members process applications for new industrial loan company licenses and investigate consumer complaints.

### FIRE SAFETY AND MANUFACTURED HOUSING REGULATION

The Fire Safety and Manufactured Housing Regulation Division administers and enforces compliance with state and federal laws regarding fire safety and manufactured housing. The division is charged with reviewing construction plans for public buildings and manufactured houses, and ensuring that the plans meet fire prevention and protection standards. In addition, division staff members process

applications for licenses and permits to use and store hazardous or physically unstable substances and materials. The division is also responsible for investigating suspicious fires in the state.

### **SPECIAL FRAUD UNIT**

The Special Fraud Unit investigates claims of insurance fraud. This unit was established through enactment of HB

616 by the 1995 General Assembly with the goal of reducing the occurrence of insurance fraud and the resulting financial burden it places on businesses and consumers.

# Georgia Bureau of Investigation

## Roles, Responsibilities, and Organization

The Georgia Bureau of Investigation (GBI) serves as the primary state-level investigative and enforcement agency in Georgia's fight against crime and corruption. Upon request, the GBI provides investigative and enforcement support services to local, state, and federal law enforcement agencies throughout Georgia. In addition to conducting general and specialized investigations, the GBI provides forensic laboratory examinations, and collects data on crime and criminals. The GBI uses its numerous programs and the latest technological advancements in crime fighting to combat drug trafficking and other crimes.

### GENERAL INVESTIGATION

The Investigative Division, under the direction of the Deputy Director for Investigations, is the largest division of the GBI. Operations are based out of regional offices, regional drug enforcement offices, and other work units that provide specialized services in criminal investigations.

Special agents from the Investigative Division respond to requests for assistance from criminal justice officials to investigate major crimes such as homicide, rape, child abuse, armed robbery, fraud, corruption, and other felonies. Investigations of crimes occurring on state property and drug investigations can be initiated without request.

The majority of the manpower resources of the Investigative Division are distributed among the 15 regional field offices and the four regional drug enforcement offices. The regional field offices conduct general investigations of

all crimes. The regional drug enforcement offices investigate all levels of drug trafficking with an emphasis on major violators.

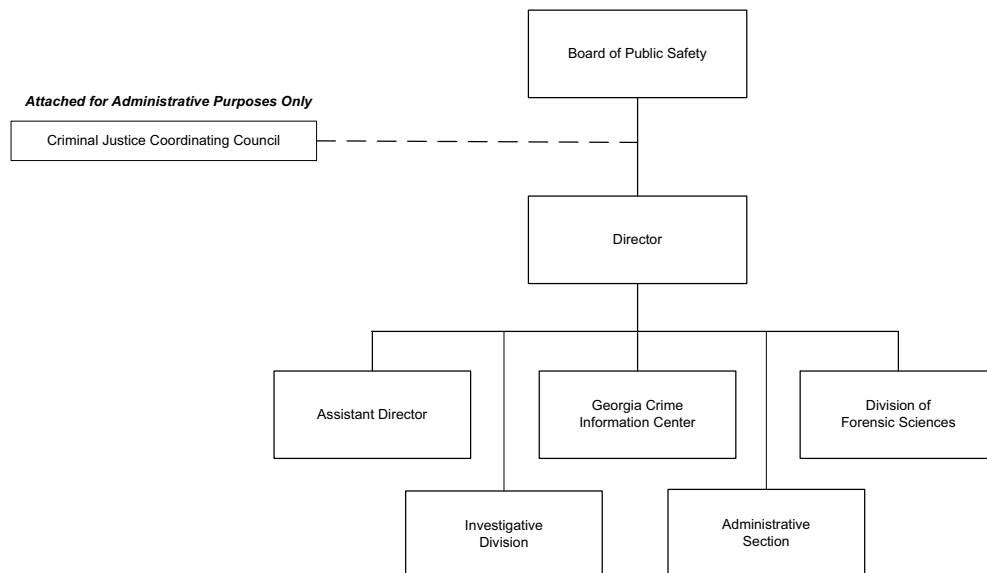

There are numerous specialized areas of operations within the agency:

- Financial Investigations Unit
- Intelligence Unit
- Multi-Jurisdictional Drug Task Forces
- Polygraph Unit
- Georgia Information Sharing and Analysis Center
- Special Operations Unit/Bomb Disposal Unit
- Major Theft Unit

### FORENSIC SERVICES

The Division of Forensic Sciences operates the headquarters laboratory in Atlanta, and six regional laboratories in Savannah, Augusta, Macon, Columbus, Moultrie, and Cleveland. The laboratories examine submitted evidence, report scientific conclusions about submitted evidence, and testify in court about results. These services must be timely and as up-to-date as possible to satisfy the needs of the courts and law enforcement agencies. The Headquarters Laboratory consists of the following programs:

- Implied Consent
- Criminalistics
- Photography

## Roles, Responsibilities, and Organization

- DNA Database
- Toxicology
- Drug Identification
- Latent Prints
- Serology/DNA
- Firearms ID
- Questioned Documents
- Medical Examiner Services

### **GEORGIA CRIME INFORMATION CENTER**

The role of the Georgia Crime Information Center (GCIC) includes the operation of a statewide Criminal Justice Information System (CJIS) Network that links criminal justice agencies to automated state and national information databases. GCIC is responsible for auditing all Georgia criminal justice agencies that are part of the CJIS network. GCIC also operates and maintains the central repository of criminal records for the state of Georgia, utilizing an Automated Fingerprint Identification System and linking with local law enforcement agencies and courts for real time updates of information. GCIC collects and maintains statistical data describing the extent and nature of reported crime and participates in the national uniform crime

reporting system operated by the Federal Bureau of Investigation. GCIC's other services include the maintenance of the Georgia Sex Offender Registry established in 1997.

### **ATTACHED AGENCY**

The Criminal Justice Coordinating Council enhances the effectiveness of Georgia's criminal justice system by building knowledge and partnerships among state and local government agencies and non-governmental organizations to develop and sustain results-driven programs, services, and activities. It serves as the state administrative agency for numerous federal grant programs and manages state grant programs funded by the Georgia General Assembly. The council conducts planning, research, and evaluation activities to improve criminal justice system operations and coordination. It operates Georgia's Crime Victims Compensation Program, which utilizes federal funds and fee and fine proceeds to provide financial assistance to victims of violent crime.

# Department of Juvenile Justice

## Roles, Responsibilities, and Organization

The Department of Juvenile Justice (DJJ) was created by the General Assembly in its 1992 session. The Department's role is twofold:

- Provide for the supervision, detention, and rehabilitation of juvenile delinquents committed to the state's custody or supervision, and
- Provide necessary public safety services by appropriately separating youth offenders from the community.

The Department accomplishes its mission through the operation of its five programs: Community Non-Secure Services, Community Supervision, Secure Detention, Secure Commitment, and Administration. DJJ provides its services to nearly 60,000 youth every year and maintains a daily population of about 22,200. Youth who enter into the Department's care include those sentenced to probation, short-term incarceration, or committed to the state's custody as part of a long-term secure confinement plan.

Based on a needs assessment, youth placed in the Department's care receive a variety of rehabilitative services as well as required educational programming. The Department operates as a separate state school district and has received full Southern Association of Colleges and Schools (SACS) accreditation for both its regular and vocational education components. Juvenile offenders participate in many therapeutic and counseling programs that support their transition back into their communities and reduce the risk of future delinquent activity. One of the

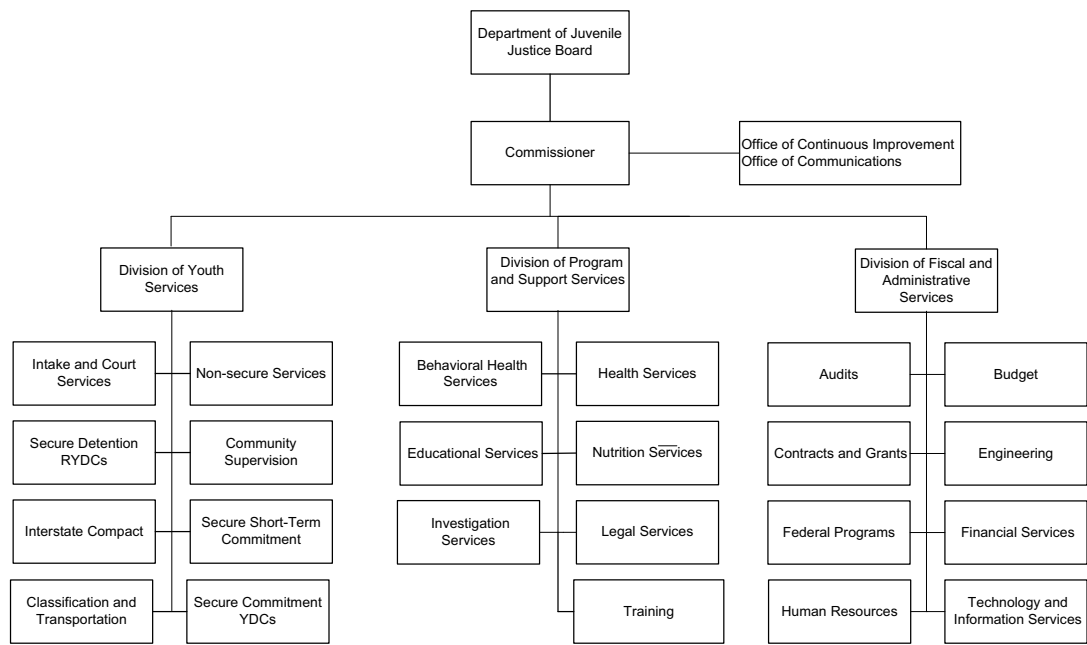

Department's foremost principles is that of Balanced and Restorative Justice, a set of values that asks that the primary stakeholders in a crime be involved in repairing the harm caused and work to ensure that the community is a stronger place following the incident.

DJJ operates under the guidance of a 15-member board appointed by the Governor.

### COMMUNITY NON-SECURE SERVICES AND COMMUNITY SUPERVISION

These programs house the services provided to youth offenders placed in community settings as a result of directives issued by the Juvenile Court system. A broad continuum of specific programs delivering supervisory and rehabilitative services are provided to these youthful offenders, including residential therapeutic treatment, wilderness programs, group homes, multi-systemic therapy services, intensive supervision programs, and electronic monitoring. Some 20,000 youth reside in community-based settings on any given day while in the Department's care.

The Community Supervision program contains all employees responsible for administering those programs housed within the Community Non-Secure Services program. Over 850 of the department's 4,200 staff members are part of the Community Supervision program. Most of these are Juvenile Probation and Parole Specialists, whose

primary task is to supervise and maintain continuous interaction with youths placed in their charge.

#### **SECURE DETENTION**

All of the state's 22 Regional Youth Detention Centers (RYDCs) are included in the Secure Detention program. RYDC facilities are designed to provide a secure placement for youth awaiting formal adjudication for an offense. Nearly 1,700 staff work in these facilities, located across the state and housing an average daily population of approximately 1,200 youth.

#### **SECURE COMMITMENT**

The state currently operates six Youth Detention Campus (YDC) facilities, which house juvenile offenders

committed to the state for a maximum of two years, and those youth sentenced to a short-term incarceration program for a maximum of 60 days. These facilities employ approximately 1,400 staff who provide services to an average daily population of nearly 1,000 youth.

Both RYDC and YDC facilities provide the youths housed therein with a variety of services, including academic, recreational, vocational, medical, counseling, and other therapeutic programs.

# Department of Labor

## Roles, Responsibilities, and Organization

The Department of Labor is empowered to administer federal labor and vocational rehabilitation programs and to enforce various state laws pertaining to labor, with an overall mission to promote the economic well-being of the state. The Department's core businesses are: economic stability; employment, employability, and training assistance; medical and occupational rehabilitation; and workplace safety.

### ECONOMIC STABILITY

The Department reduces the adverse impact of unemployment by providing monetary payments to eligible individuals for a limited period and by assisting employers in minimizing their unemployment insurance tax liability.

Disability Adjudication Services determines eligibility for various entitlement programs administered by the Social Security Administration including Supplemental Security Income and Social Security Disability Income for Georgia citizens. They also function to help ensure that individuals who are no longer eligible to receive these services discontinue receiving benefits.

The Department also administers Georgia laws regulating the employment of children.

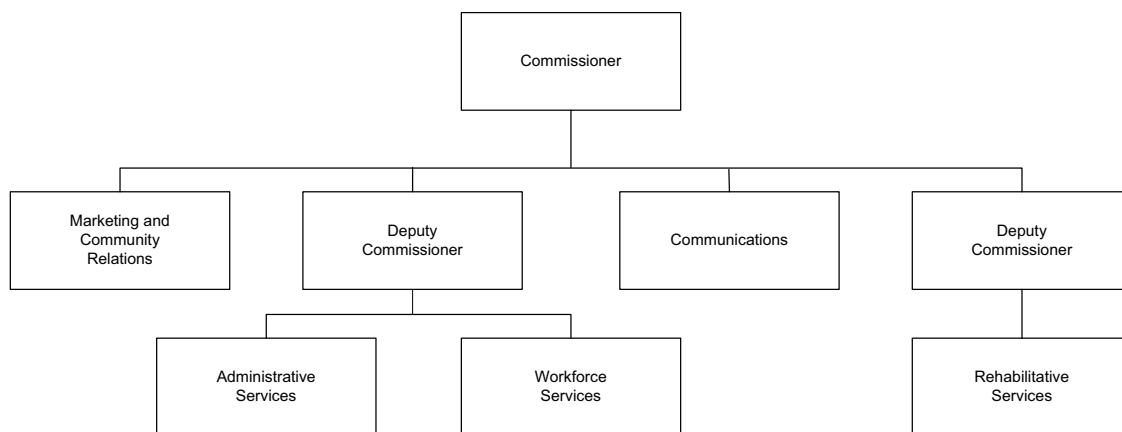

### EMPLOYMENT, EMPLOYABILITY, AND TRAINING ASSISTANCE

In partnership with businesses and other community leaders, the Department provides job training to

economically disadvantaged individuals, non-traditional employees, and dislocated workers to increase employment opportunities and improve the quality of the labor force in Georgia. The one-stop system delivers these comprehensive workforce development services to customers. For employers, the Department provides "no cost" labor exchange services that include the maintenance of interstate and intrastate job banks, employment screening, on-the-job training programs, and tax credits through the Worker Opportunities Tax Credit Act.

One of the Department's primary responsibilities is the administration of the public employment service through a statewide network of offices. The Department provides an array of services, including: the referral of qualified applicants to employers; counseling and other services to help evaluate workers' job skills and better prepare them for available jobs; and the referral to services provided by other agencies in the community, such as job training, adult education, vocational rehabilitation, veterans' programs, medical care, and supportive services.

The Division of Rehabilitation Services provides opportunities for work and personal independence for Georgians with disabilities. In pursuit of this goal, the division administers several programs: the Business Enterprise Program, which assists severely visually impaired individuals in becoming private vendors; Georgia Industries for the Blind, which provides employment for severely visually impaired and disabled individuals; Vocational

Rehabilitation, which assists people with disabilities to go to work; and the Roosevelt Warm Springs Institute for Rehabilitation.

Additionally, the Department serves at-risk youth through its Jobs for Georgia Graduates program, which offers career exploration, leadership skill development, and mentoring services to assist high school students in completing their secondary education and to prepare them for higher education, military service, or employment.

Compiling and disseminating labor market information is another responsibility of the Department. Available information includes data on employment, worker availability, wages, and historic projected trends. Several of the statistical series published by the Department, such as Georgia Labor Market Trends and Area Labor Profiles, serve as key indicators of the state's economic health.

### **ROOSEVELT WARM SPRINGS INSTITUTE**

The Institute, also a part of the Division of Rehabilitation Services, is a statewide comprehensive rehabilitation facility serving people with severe disabilities. The goal of the institute is to increase the self-sufficiency of people with disabilities so they can better manage their disabilities, live independently, and maintain employment.

### **WORKPLACE SAFETY**

The Department has regulatory responsibility for equipment such as elevators, escalators, safety glass, amusement and carnival rides, high voltage apparatus, boilers, and pressure vessels.

### **AUTHORITY**

Titles 8, 30-2, 34, 39 and 46 of the Official Code of Georgia Annotated. The U.S. Vocational Rehabilitation Act of 1973, as amended; Georgia Rehabilitation Act. Public Laws 93-112, 93-516, 94-230, 95-602, 98-221, 99-506, 100-230 and the Social Security Act, as amended.

# Department of Law

## Roles, Responsibilities, and Organization

The Department of Law, headed by the Attorney General, provides legal representation and advice to the departments, officials, and employees of the executive branch of state government. The Attorney General is a constitutional officer elected to a four-year term in the same general election as the Governor.

The Department of Law represents the state in any civil and criminal case to which the state is a party, in all capital felony actions before the Georgia Supreme Court, and in all actions before the Supreme Court of the United States.

As the chief legal officer of the state and the legal advisor to the executive branch of state government, it is the duty of the Attorney General to provide opinions on any question of law involving the interests of the state or duties of any department. It is also the responsibility of the Attorney General to prepare and review contracts and other legal documents in which the state is interested and to draft proposed legislation or rules and regulations for state departments.

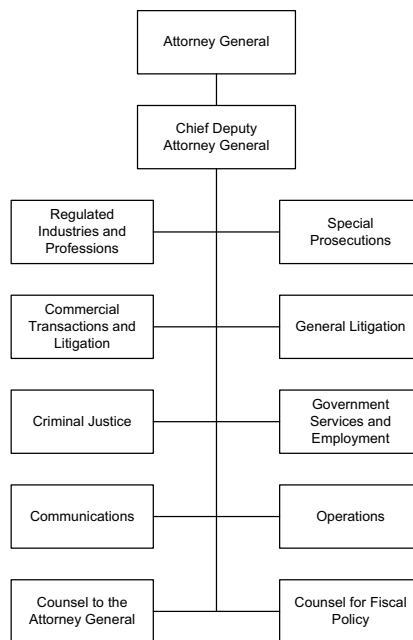

The Attorney General, as head of the Department of Law and chief legal officer of the state, is authorized to institute and conduct investigations at any time into the affairs of the state and its departments and agencies or the official

conduct of any state official or employee, as well as the affairs of any person, firm, or corporation for violations in their dealings with the state. The Attorney General is also vested with complete and exclusive authority and jurisdiction in all matters of law relating to state authorities.

The Department of Law is organized into five legal divisions and an operations division, all of which are headed by the Attorney General. The specialized legal divisions – Regulated Industries and Professions, Commercial Transactions and Litigation, Criminal Justice, General Litigation, and Government Services and Employment – provide a full range of legal services to state departments, agencies, authorities, boards, bureaus, commissions, and institutions. These Executive Branch entities reimburse the department for the litigation expenses incurred, such as court costs, witness fees, filing costs, and reporting costs. In addition, the Special Prosecutions Unit carries out the prosecutorial functions vested in the Department of Law and the Medicaid Fraud Control Unit investigates and prosecutes Medicaid fraud.

# Department of Natural Resources

## Roles, Responsibilities, and Organization

The Department of Natural Resources provides natural resource development, management, and protection services to Georgia's citizens and local governments. These services include the operation of state parks and historic sites; management and protection of wildlife and coastal resources; enforcement of wildlife, boating safety, and environmental laws; promotion of and assistance with pollution prevention; and protection and management of the state's water, air, and land resources in accordance with various state and federal laws.

### COASTAL RESOURCES

The primary objectives of this program are to ensure the optimum commercial and recreational utilization of Georgia's marine fisheries resources over the long term for the benefit of all Georgians. This program protects Georgia's vast tidal marshes and sand sharing systems. These objectives are accomplished through research, surveys, and habitat enhancement.

### ENVIRONMENTAL PROTECTION

This program is largely a regulatory body whose main objective is to enforce state and federal laws, rules and regulations regarding water quality, water supply, air quality, solid waste, and hazardous waste. These objectives are accomplished through a permitting process coupled with monitoring, inspection, investigation and enforcement activities. The program also manages the Hazardous Waste Trust Fund and the Solid Waste Trust Fund.

### HISTORIC PRESERVATION

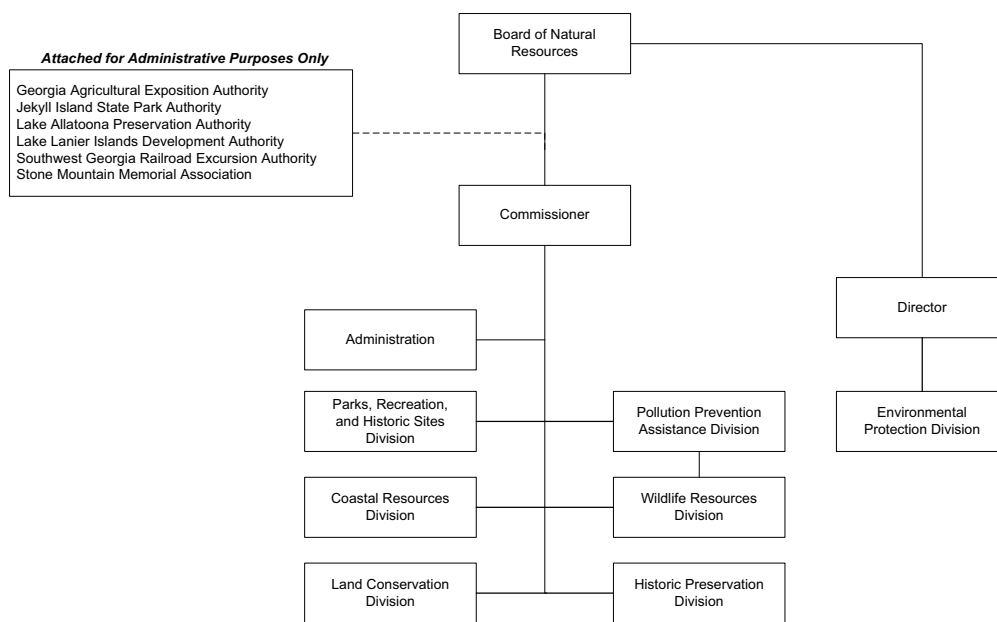

This program provides historic preservation services and assistance to governmental agencies, private organizations and individuals. Duties include proposing properties for nomination to both the National and the Georgia Register of Historic Places; providing grants to support state and local preservation projects; and offering technical assistance and information on tax incentives, archaeological matters and other preservation programs.

### PARKS, RECREATION AND HISTORIC SITES

This program provides recreational opportunities to the citizens of Georgia through the development and operation of 48 parks and 15 historic sites. These parks and historic sites attract over 10 million visitors per year. The program manages over 86,000 acres with such amenities as campgrounds, cottages, lodges, swimming pools, group camps and golf courses.

### POLLUTION PREVENTION

This program is a non-regulatory organization designed to serve as a one-stop source for Georgia businesses interested in sustainable management. Sustainable practices include conserving natural resources through efficient operations, using renewable material and energy sources, reusing and recycling materials into new products, substituting less harmful chemicals in manufacturing processes, and using closed-loop systems that eliminate chemical discharges to the environment.

# Department of Natural Resources

## Roles, Responsibilities, and Organization

### **WILDLIFE RESOURCES**

Lands and freshwater habitats are managed by Wildlife Resources for public hunting, fishing, other wildlife-based recreation and for educational purposes. This program also promotes the conservation and wise use of game and non-game wildlife resources. All state laws and departmental regulations regarding wildlife, fishery resources, wild animals, boating safety and hunter safety are enforced by the law enforcement section. The program manages public fishing areas, wildlife management areas and produces fish in state hatcheries.

### **ATTACHED AGENCIES**

The Georgia Agricultural Exposition Authority promotes, develops and serves agriculture and agricultural business interests of the state; produces and operates the Georgia National Fair; and encourages the agricultural accomplishments of Georgia's youth.

The Jekyll Island State Park Authority is responsible for the development and operation of tourist, convention and recreational areas and facilities on the island.

The Lake Allatoona Preservation Authority provides stewardship of the Greater Lake Allatoona Watershed in order to restore, preserve and protect water quality and uses beneficial for present and future generations.

The Lake Lanier Islands Development Authority is responsible for managing through contract the development and operation of tourist, convention and recreational areas and facilities on the islands.

The Southwest Georgia Railroad Excursion Authority is an economic development initiative that seeks to bring tourists through historic middle Georgia.

The Stone Mountain Memorial Association is responsible for managing through contract the operation of tourist, convention and recreational areas and facilities at the mountain.

# State Board of Pardons and Paroles

## Roles, Responsibilities, and Organization

The State Board of Pardons and Paroles is comprised of five members appointed by the Governor and empowered to grant, deny, condition, and revoke executive clemency. The board reviews the sentences of all inmates to determine what degree of executive clemency may be warranted, directs the clemency action, and supervises the offenders who have been paroled or conditionally released from prison until the completion of their sentences.

### AGENCY OPERATIONS

In order to accomplish its mission, the agency has identified two core businesses:

- Making informed parole decisions (Clemency), and
- Transitioning offenders back into the community (Field Supervision).

The agency has re-engineered its entire organization to ensure that business processes, strategic objectives, performance measures, programs, and budget are all aligned with the core mission. The organizational structure of the agency also reflects the core businesses and mission of the agency.

The Clemency Division gathers information and prepares cases for the Board Members to make informed parole decisions. They also manage requests for restoration of rights and pardons.

The Field Operations Division assists the Board by completing important investigations that are used in the

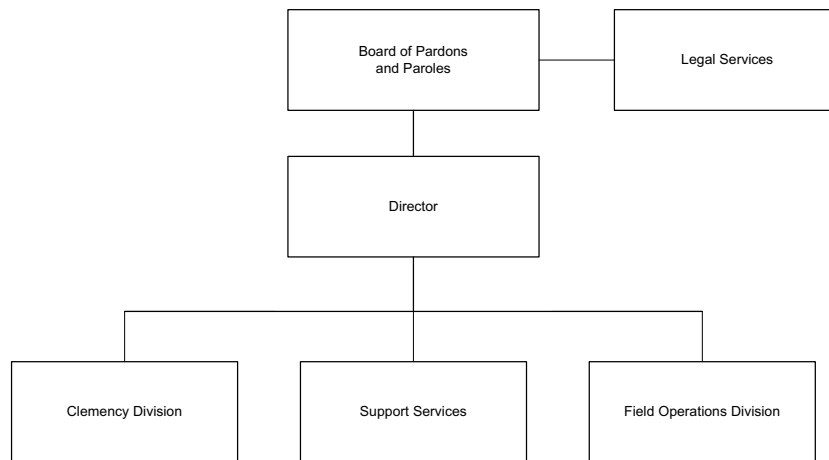

clemency decision process. Inmates who are granted the privilege of parole to community supervision are supervised by this division's parole officers, who work in 53 offices throughout the state. Field parole officers provide offender supervision through a balanced strategy which blends both surveillance and enforcement along with referrals to treatment and self help programs.

Parole officers spend a majority of their time in the community intervening with parolees and their families, talking to employers, networking with police officials, and staying in touch with treatment providers to ensure parolee compliance with the conditions of parole. As certified peace officers, parole officers also execute board warrants and provide backup to local law enforcement as needed.

Support Services units conduct the internal operations of the agency including budget, staff training, personnel, quality assurance audits, research, evaluation and technology, legislative liaison, internal affairs, victim, and public information services. The Board is dedicated to using innovative technology to reduce costs and improve service delivery to all agency staff. The agency leads the state in automated business processes, and leads the nation with an automated field case management system.

# State Personnel Administration

## Roles, Responsibilities, and Organization

The State Personnel Administration (SPA) is the state's central agency for assisting state agencies in recruiting qualified individuals for positions within the executive branch of state government. The agency is also the state's central record-keeping agency for state employee data and the central means of monitoring state personnel practices. SB 635, which the General Assembly approved during the 1996 session, decentralized the state's personnel administration system. The legislation transferred responsibility for a variety of personnel recruitment and administration duties from the State Personnel Administration to state agencies.

### COMMISSIONER'S OFFICE

The Commissioner's Office provides overall direction, leadership, and management of the agency. Functions covered by the office include: legal services; customer service; workforce planning; HR strategic planning; marketing and public relations; HR policy analysis and development; personnel administration; budget and systems administration; workforce development; recruitment and testing services; benefits administration; and compensation.

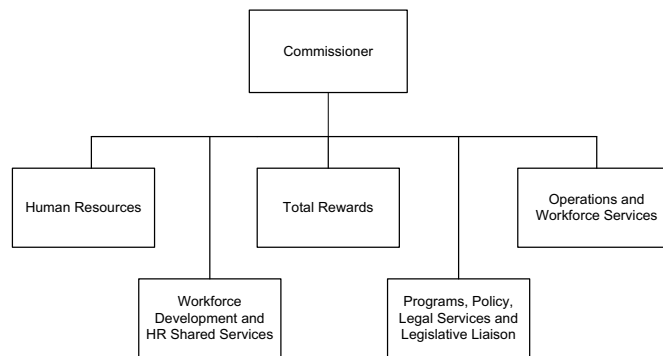

### TOTAL REWARDS

The Employee Benefits Administration Division, the Compensation Division and the Talent Management Unit make up the area of Total Rewards. The Compensation Division provides professional human resource management services that are based on best practices. The Compensation

Division also performs job market research and analysis, develops and implements equitable pay and rewards processes, and conducts evaluations of state agencies' personnel practices. The Employee Benefits Administration Division provides an array of cost-effective flexible benefits to state employees and their dependents. This includes benefit design and education, maintenance of employee eligibility records, interaction with agency benefit coordinators, monitoring of contractors that provide insured benefit products, and review of benefit plans and products. The Talent Management Unit partners with agencies in the development and implementation of enterprise-wide change efforts, with a primary focus on performance management, competency management and executive succession planning.

### PROGRAMS, POLICY AND LEGISLATIVE AFFAIRS

The Legal Services Division, Policy and Legislative Affairs Unit and Work-Life Programs Unit make up the area of Programs, Policy and Legislative Affairs. The Policy and Legislative Affairs Unit develops enterprise HR policy and manages statewide drug testing, employee assistance, immigration compliance and legislative affairs services. The Legal Services Division provides research, counseling, mediation, and education in equal employment opportunity and management/employee relations, interprets personnel rules to state agencies, coordinates requests for proposal processes for statewide benefit plans, and manages contract negotiations. The Programs Unit manages the state's Work

### **OPERATIONS AND WORKFORCE SERVICES**

The Administrative Services Unit, Project Management Unit, Financial Services Division, Technology Solutions Division, Strategy, Marketing, and Communications Division, and Workforce Services Division make up the area of Operations and Workforce Services. The Administrative Services Unit includes procurement, facilities management, records management, and mailroom services. The Financial Services Division provides administrative support to the agency in the areas of budget development and management and accounting services. The Technology Solutions Division provides technical and technological support for SPA products and services, long-range information planning, application management, IT procurement, network and telecommunications services, design and maintenance of the benefits administration system that supports the flexible benefits program, and workforce analytics.

The Strategy, Marketing and Communications Division informs and educates state agencies, the public, and the media about SPA programs, products and services, provides administration of agency internet and intranet sites and the statewide PeopleSoft and Team Georgia Connection portals, leads strategic planning efforts for the agency, and manages agency constituent services. The Project Management Unit is responsible for the overall coordination and implementation of the agency's HR strategic initiatives and PeopleSoft HCM projects. The Workforce Services Division manages

enterprise-wide talent acquisition and employee retention initiatives. This team designs and administers competency-based applicant testing and screening procedures, provides consultation in a variety of areas related to workforce planning, maintains model workforce planning processes which are designed to increase workforce productivity, and provides hands-on assistance to help agencies attract the right people with the right mix of skills, abilities, interests and job match to meet specific workforce needs.

### **HR SHARED SERVICES AND WORKFORCE DEVELOPMENT**

The Enterprise Learning Unit plays a vital role in assisting agencies in the development of their employees into a skilled and competent workforce. SPA partners with the UGA Carl Vinson Institute of Government and Franklin Covey to deliver enterprise-wide training opportunities and assessments of job-related skills needed to develop principle-centered, customer-focused, and results-driven competencies in all levels and career phases of state government. Leadership development programs are delivered through the Georgia Leadership Institute. The HR Shared Services team partners with agencies to deliver human resource transactional functions within organizations, resulting in improved efficiencies and decreased cost, and enables agencies to focus their resources on meeting their strategic business needs and the strategic goals of the state.

# State Properties Commission

## Roles, Responsibilities, and Organization

The State Properties Commission (SPC) is responsible for the acquisition and disposition of all state-owned real property or real property interests with the exception of the Board of Regents and Department of Transportation. In addition, the State Properties Commission provides leasing assistance to state entities and is responsible for the inventory of all state-owned and leased real property. The Building, Land, and Lease Inventory of Property (BLIPP) database currently reflects 15,000 state owned buildings, 2,000 state leases, and one million acres of state owned land. The BLIPP database is available at [www.realpropertiesgeorgia.org](http://www.realpropertiesgeorgia.org).

SPC assists state entities in the location of cost efficient and effective work space in state-owned facilities or commercially leased space in accordance with State

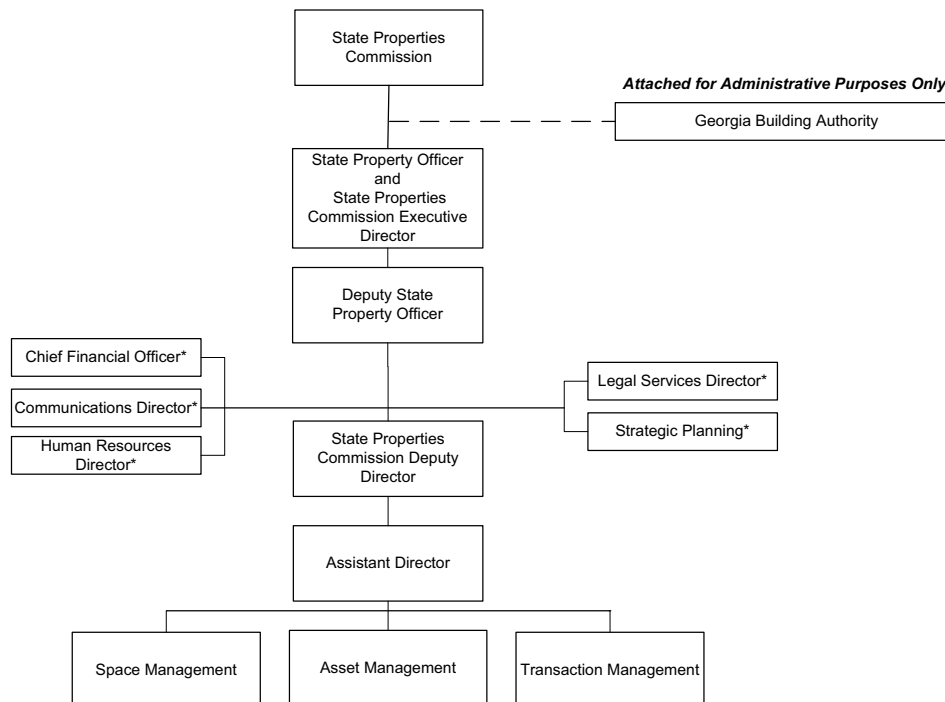

Properties Commission space standards adopted by the Commission in July 2008.

### ATTACHED AGENCIES

The Georgia Building Authority (GBA) owns and operates buildings and various facilities located in the Capitol Hill Complex, including the Georgia State Capitol and the Governor’s Mansion. The Georgia Building Authority has a portfolio of 36 buildings, 20 parking facilities, four parks and plazas, and two warehouse complexes. Services provided by GBA include maintenance, renovations, landscaping, housekeeping, event scheduling, food service, parking, and building access services.

# Public Defender Standards Council

## Roles, Responsibilities, and Organization

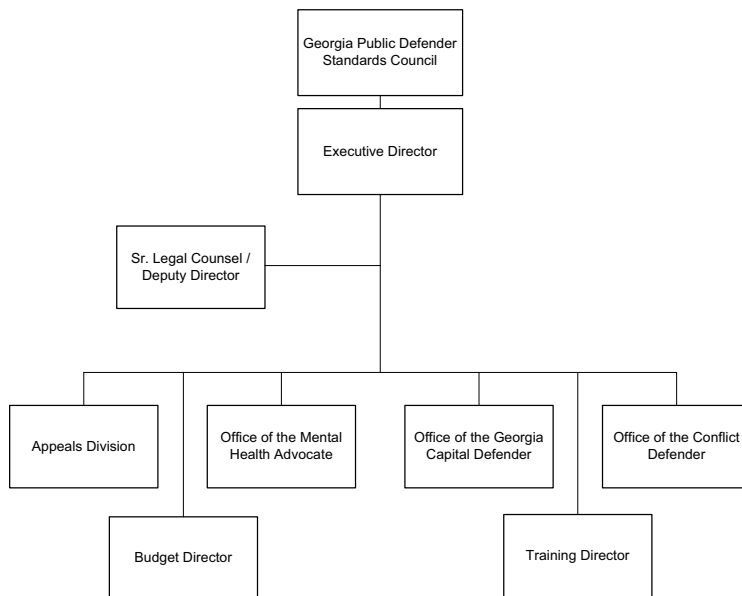

The Georgia Public Defender Standards Council (PDSC) is responsible for assuring that adequate and effective legal representation is provided, independently of political consideration or private interests, to indigent persons who are entitled to representation. The legal representation is consistent with the guarantees of the Constitution of the State of Georgia, the constitution of the United States, and the mandates of the Georgia Indigent Defense Act of 2003. The PDSC provides such legal services in a cost-efficient manner, and conducts that representation in such a way that the criminal justice system operates effectively to achieve justice.

The PDSC serves as administrative support for the 49 circuit public defender offices throughout the State through two programs – Public Defender Standards Council and Public Defenders. The Council assists the circuit defender offices by providing training and professional development

for the attorneys and other staff involved in defending indigent citizens, representing the interests of defense attorneys throughout the State, and providing administrative assistance to circuit public defenders as needed. In addition, the Council program includes the Office of the Georgia Capital Defender, which provides direct and co-counsel representation, assistance, and resources in death penalty cases and appeals, and the Office of the Mental Health Advocate, which provides services to attorneys representing criminal defendants with mental health challenges. The Office of the Conflict Defender is responsible for assuring that legal representation is provided where a conflict of interest exists with the local circuit public defender office.

# Department of Public Safety

## Roles, Responsibilities, and Organization

The Georgia Department of Public Safety (DPS) is the parent agency of the Georgia State Patrol (GSP). Its responsibilities include patrolling public roads and highways and investigating traffic accidents within the state of Georgia, thereby safeguarding the lives and property of the public. The department's troopers work to reduce accidents and injuries by enforcing traffic laws, encouraging seat belt use, and targeting drivers under the influence of drugs and alcohol. In addition, the department provides law enforcement assistance to other local and state agencies of the criminal justice community in areas such as specialty units, fugitive apprehension, and Homeland Security.

The department's other responsibilities include providing for the personal security of the Governor and First Lady, Lieutenant Governor, Speaker of the House, and the Chief Justice of the Georgia Supreme Court, as well as the overall safety of employees, visitors, and facilities present on the Capitol Hill Area. DPS also houses the Motor Carrier Compliance Division which is responsible for enforcing Georgia's commercial vehicle safety and size and weight regulations, High Occupancy Vehicles (HOV) Lane restrictions, and conducting school bus safety inspections.

In an effort to provide the services to the state and public as directed by the Governor, the Department of Public Safety has several unique units that contribute to the overall mission. These units include the following:

- Field Operations

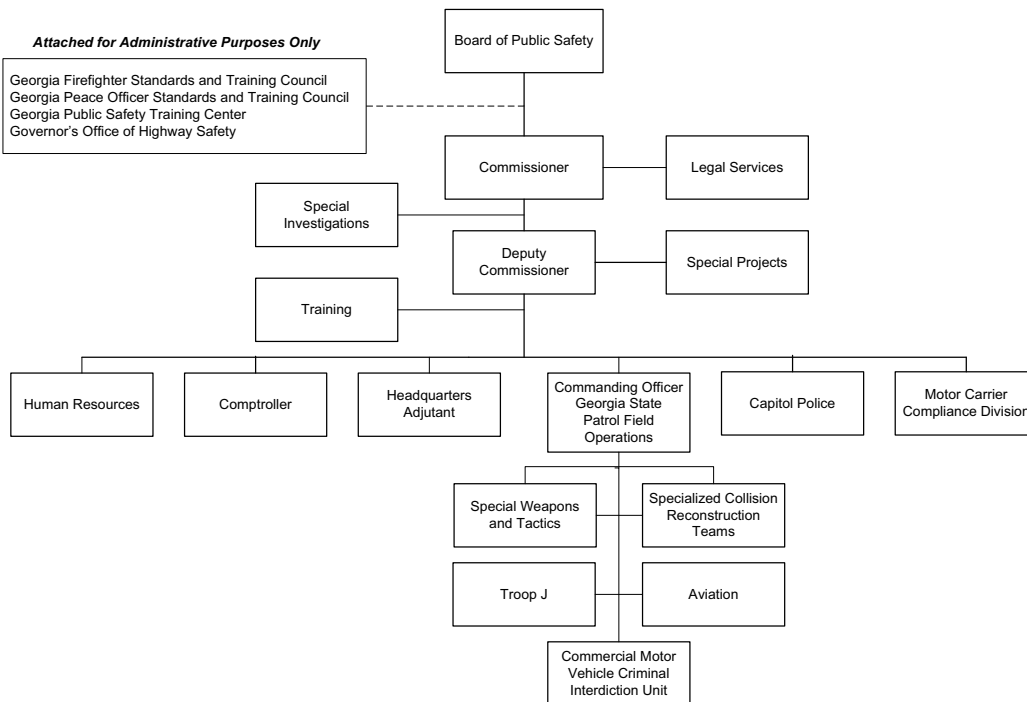

- Implied Consent
- Executive Security
- Specialized Collision Reconstruction Team
- Investigative Services
- Safety Education
- Aviation
- Criminal Interdiction Unit
- SWAT
- Capitol Police
- Motor Carrier Compliance
- Administration

The department, for administrative purposes only, maintains four additional program units:

The Georgia Public Safety Training Center provides instruction and support services for the training of state and local law enforcement officers, firefighters, correctional officers, and emergency personnel.

The Georgia Firefighter Standards and Training Council is responsible for establishing uniform standards for the employment and training of firefighters. Additionally, the council establishes curriculum requirements and approves schools and facilities for the purpose of fire training.

The Georgia Peace Officer Standards and Training Council is responsible for improving law enforcement in the state by enforcing legislatively established standards for the employment and training of peace officers. The citizens of Georgia can be assured the adequate protection of persons

# Public Service Commission

## Roles, Responsibilities, and Organization

The Public Service Commission (PSC) is responsible for regulating public utility companies under its jurisdiction. In carrying out its responsibilities, the Commission promulgates and enforces rules governing regulated companies, assists consumers of regulated companies with questions and problems and educates the public on consumer rights and responsibilities in the evolving regulatory environment. Above all, the Commission aims to ensure that the best value in electric, natural gas, transportation and telecommunications service is delivered to Georgia consumers and that the level of pipeline safety and utility facility protection practiced in the state remains high.

The PSC is a quasi-legislative, quasi-judicial agency directed by a five-member board of Commissioners. Commissioners are elected through statewide general elections and serve six-year terms. The agency's staff includes accountants, analysts, engineers, information systems specialists, inspectors, and various administrative personnel who assist the Commissioners in fulfilling their duties. The Commission has two programs: Facilities Protection and Utilities Regulation.

### FACILITIES PROTECTION

Through its safety program, the Georgia Public Service Commission protects people, property and the environment from physical harm from a release of natural gas or other liquid, and averts interruptions of utility service resulting from damage to utility facilities caused by blasting or

excavating. The Commission fulfills its responsibilities by enforcing industry compliance with safety rules and regulations and by educating the system operators. By training operators, the Commission ensures that industry personnel understand proper procedures for locating and marking utility facilities before blasting or excavating. The combination of enforcement and education is highly effective and contributes to the health and security of Georgia.

### UTILITIES REGULATION

The goal of utilities regulation is to ensure that electric, natural gas, transportation and telecommunication providers serve the state with affordable rates and quality service.

Even though the segments of natural gas, telecommunications and transportation industries have been opened to competition, the PSC remains responsible for monitoring the rates and service standards of electric, transportation, telecommunications, and natural gas companies. Additionally, it is the role of the Commission to approve supply plans for electric and natural gas companies, monitor utility system and telecommunications network planning, arbitrate complaints among competitors, provide consumer protection and education, certify competitive transportation, natural gas and telecommunications providers, and ensure that household goods, movers, luxury limousines, buses and non-consensual towers are properly

## **Public Service Commission**

### Roles, Responsibilities, and Organization

licensed, insured and able to comply with all safety regulations.

The PSC recognizes that its responsibility to ensure that utility services are reliable and reasonably priced has not changed even as utility markets become more competitive. The Public Service Commission believes that Georgians should continue to have access to high quality utility

services, whether those services are priced in a competitive market or through economic regulation.

## Roles, Responsibilities, and Organization

The University System of Georgia (USG), through its 35 public colleges and universities, is charged with providing higher education to Georgia residents. USG works to create a more educated Georgia through its core missions of instruction, research, and public service.

### INSTRUCTION

Access to higher education is critical to the economic development of the state. Currently, 90% of Georgia citizens are within commuting distance of one of the 35 USG institutions. USG is comprised of four research universities, two regional universities, 13 state universities, eight state colleges, and eight two-year colleges.

USG institutions offer doctorate, first professional, masters, baccalaureate, and associate degree programs. USG institutions also offer various one-year and advanced certificate programs. In 2010, USG enrolled 311,442 students and granted 54,088 degrees.

### RESEARCH

Research is concentrated at four research universities: the University of Georgia, Georgia Institute of Technology, Georgia State University, and the Medical College of Georgia. Funding for research is derived from the funding formula, federal and private sponsored research, and special state programs, such as the the Georgia Tech Research Institute.

Georgia Tech Research Institute (GTRI) is a research component of the Georgia Institute of Technology. GTRI

uses science and engineering expertise to solve some of the toughest problems facing government and industry across the nation and around the globe.

### PUBLIC SERVICE

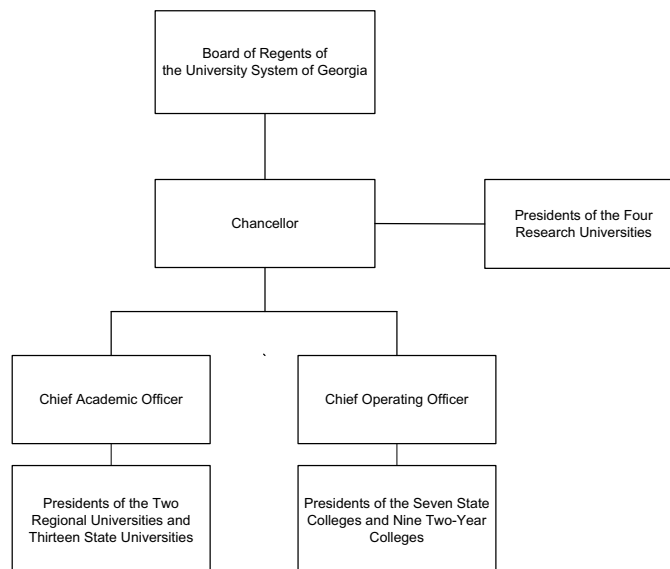

The University System of Georgia offers direct service to farmers, businesses, industry, and communities through continuing education, public service institutes, and special services and organizations, such as the Enterprise Innovation Institute and Cooperative Extension Service.

The Enterprise Innovation Institute (EII) encourages industrial and economic development by providing an extension service that meets the technical and informational needs of industry and local development groups. EII also provides support for new technology companies.

Cooperative Extension Service (CES) assists Georgia farmers through a network of county extension agents who share information and research developed through the Agricultural Experiment Stations. CES also offers useful and practical information to the people of Georgia on subjects related to natural resources, home economics, youth development, rural development, and family support.

### OTHER ACTIVITIES

The Board of Regents also oversees the Georgia Public Library Service (GPLS) which provides assistance, information, and materials to meet the needs of local

# Board of Regents

## Roles, Responsibilities, and Organization

communities throughout the state. There are 61 public library systems that operate 385 public libraries statewide. In addition, PLS operates the state's library for the blind and physically handicapped.

### **ATTACHED AGENCY**

Attached to the University System is the Georgia Public Telecommunications Commission (GPTC). GPTC provides a nine-station television and 17-station radio network

designed to meet the educational, cultural and informational needs of Georgia residents. Additionally, GPTC provides electronically delivered classroom support for all Georgia learners.

### **AUTHORITY**

Titles 12, 20, 49, and 50 of the Official Code of Georgia Annotated.

# Department of Revenue

## Roles, Responsibilities, and Organization

Since 1938, the Department of Revenue has been responsible for administering the state's tax laws, and collecting and processing state revenue. Additionally, the department is charged with enforcing laws and regulations pertaining to the control of alcoholic beverages and tobacco products, overseeing county property tax systems, and managing unclaimed property. Auditors, accountants, collectors, field representatives, and various specialists and administrative personnel work as authorized agents of the department's commissioner to carry out the Department of Revenue's responsibilities. In a typical year, these agents maintain and update millions of taxpayer accounts, and enforce compliance with numerous laws and regulations.

### ORGANIZATION

To accomplish its duties, the department is comprised of the following eight divisions that report to the Commissioner:

- Administrative Division
- Taxpayer Services Division
- Compliance and Policy Division
- Alcohol and Tobacco Division
- Local Government Services Division
- Information Technology Division
- Processing Center
- Motor Vehicle Division

Each division plays a strategic role in meeting department goals and objectives.

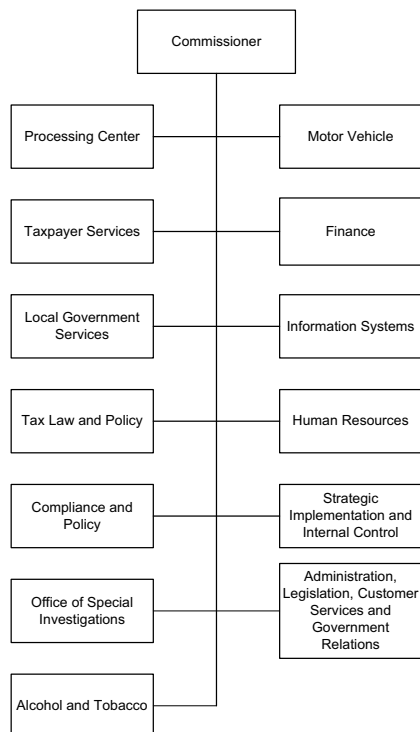

### TAX ADMINISTRATION AND COLLECTION

The major taxes and fees collected by the department include Personal Income Taxes, General Sales and Use Taxes, Corporation Income and License Taxes, Selective Sales Taxes (Motor Fuels, Liquor, etc.), Estate Taxes, and Property Taxes.

In addition to collecting and processing state revenue, each year the department also collects taxes designated for local counties, schools, and municipalities. This includes a 1% sales tax in Fulton and DeKalb Counties that is used as dedicated revenue for the construction and operation of the Metropolitan Atlanta Rapid Transit Authority (MARTA). Other 1% sales taxes designated for local entities are the Local Option Sales Tax, the Special Purpose Local Option Sales Tax, the Homestead Local Option Sales Tax, and the Education Local Option Sales Tax.

### ALCOHOL AND TOBACCO REGULATION

The department enforces all laws and regulations pertaining to the manufacture, possession, transportation, and sale of alcoholic beverages, and the possession, transportation, and sale of tobacco products within the state, as well as the operation of coin-operated amusement machines. The department's Alcohol and Tobacco Division is comprised of a criminal investigative unit and an audit and operations unit. Agents assigned to the investigative unit carry out specialized investigations that focus on licensing and enforcement, and lend assistance to outside parties. The audit and operations staff conducts audits of manufacturers,

shippers, and distributors of alcoholic beverages and tobacco products. In addition, they promote voluntary compliance with the state's alcoholic beverage and tobacco excise tax laws.

#### **STATE BOARD OF EQUALIZATION**

The State Board of Equalization is attached to the Department of Revenue for administrative purposes only.

The board appoints hearing officers that evaluate appeals by local governing authorities on issues relating to the Revenue Commissioner's disapproval of county tax digests.

# Secretary of State

## Roles, Responsibilities, and Organization

The Secretary of State is the keeper of the Great Seal of Georgia and custodian of the state flag. The Office of the Secretary of State provides many services for the public, businesses, state agencies, and city and county governments. These services include the following:

- Licensing the practice of over 66 professions, and registration of other activities,
- Election and voter registration,
- Business activity monitoring and enforcement of many financial regulations,
- Management and preservation of public records, and
- Museum and tour programs in the Capitol.

The office is comprised of Internal Administration, Archives and History, Elections, Corporations, Securities and Business Regulation, and State Professional Licensing Boards.

### REGULATORY RESPONSIBILITIES

As a regulatory agency, the office offers education and examinations, issues licenses, collects fees for licenses, investigates complaints or violations of the law, and orders reprimands. The Securities Division is responsible for regulating securities, and has the authority to adopt necessary rules to monitor the securities industry, including registration of securities brokers, dealers, and firms. The division registers cemeteries, and regulates perpetual care cemeteries, charitable organizations, and paid solicitors.

The Corporations Division serves as custodian of filings for foreign and domestic charters, nonprofit organizations, and other types of corporate entity activities. In addition, the division registers and renews trademarks and servicemarks.

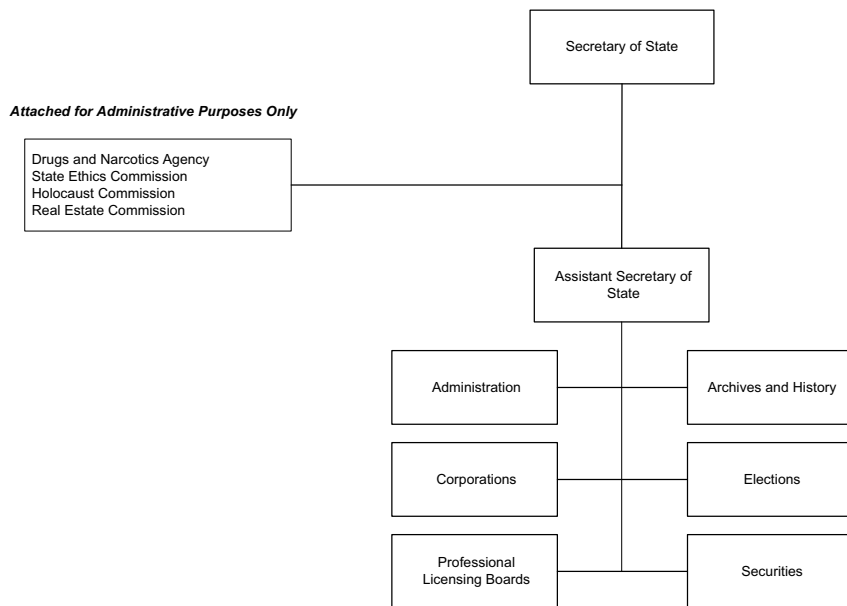

The Professional Licensing Boards Division manages 36 occupational and professional regulatory boards. The duties include reviewing and approving applications to practice, scheduling examinations, issuing licenses, maintaining records, investigating violations, and resolution of complaints.

### STATE ELECTIONS ACTIVITY

The Office of the Secretary of State supervises and monitors all activities related to officials and elections. These activities include overseeing voter registration and maintaining voter roles; training all local election officials in proper elections procedures; coordinating and monitoring all municipal, state, county and federal elections within the state of Georgia; certifying the qualifications of all candidates; and the preparation of all ballots and elections forms and materials. The office is also responsible for the certification and authorization of all election results within Georgia.

### MANAGEMENT OF PUBLIC RECORDS

The Division of Archives and History collects, manages, and preserves official records of Georgia from 1732 to the present. The division administers the state records

management program under the direction of the State Records Committee, chaired by the Secretary of State, and a record center for the storage and maintenance of non-permanent records of state agencies.

### **CAPITOL MUSEUM AND TOURS**

The Capitol Museum and Tours program provides tours of the Capitol.

### **INTERNAL ADMINISTRATION**

The Internal Administration Division contains the general administrative support functions of accounting, purchasing, budgeting, human resources, and information technology. The Administrative Procedures Section is responsible for administering the rules promulgation process pursuant to the Administrative Procedures Act for the State.

### **ATTACHED AGENCIES**

The department, for administrative purposes only, maintains four additional program units. The additional programs are as follows:

The Georgia Commission on the Holocaust takes lesson from the history of the Holocaust and uses them to help lead new generations of Georgians beyond racism and bigotry. Through a variety of programs, the Commission fosters

tolerance, good citizenship, and character development among the young people of the state.

The Georgia Drugs and Narcotics Agency was created to ensure and protect the health, safety and welfare of Georgia citizens by enforcing Georgia laws and rules pertaining to manufactured or compounded drugs, and to ensure only licensed facilities or persons dispensed or distributed pharmaceuticals.

The Georgia Real Estate Commission ensures professional competency among real estate licensees and appraisers, and promotes a fair and honest market environment for practitioners and their customers and clients in real estate transactions in Georgia.

The State Ethics Commission protects the integrity of the democratic process, and ensures fair elections with the public disclosure of campaign financing and significant private interests of public officers and candidates for public office.

### **AUTHORITY**

Titles 10, 14, 21, 28, 43-45, Official Code of Georgia Annotated; Public Law 93-443, 1993; Resolution Act 11, Georgia Laws 1993.

# State Soil and Water Conservation Commission

## Roles, Responsibilities, and Organization

The State Soil and Water Conservation Commission (SSWCC) was formed to protect, conserve, and improve the soil and water resources of the State of Georgia. The commission's primary goal is to make Georgia a better place for its citizens through the wise use and protection of basic soil and water resources, and to achieve practical water quality goals through agricultural and urban best practices.

There are 40 Soil and Water Conservation Districts in Georgia, composed of one or several counties each; every county has at least two supervisor representatives on the District Board of Supervisors. Serving as the coordinator of the 370 District Supervisors is a commission appointed by the Governor, comprised of five supervisors from different state regions and appointed by the Governor to serve five-year terms. There are five commission members in all, one of whom is designated Chairman. The commission is headquartered in Athens with six regional offices, and has a professional staff whose primary duty is to serve and advance the goals of the Soil and Water Conservation Districts. The regional offices are located in Rome, Athens, Conyers, Milledgeville, Dawson, and Statesboro.

### CONSERVATION OF AGRICULTURAL WATER SUPPLIES

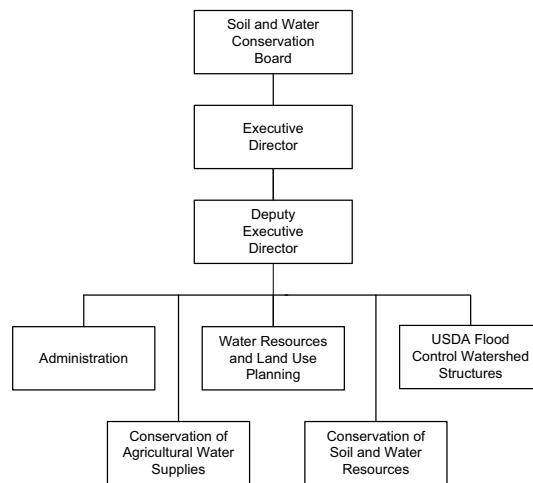

The Conservation of Agricultural Water Supplies program exists to assist agricultural water users in quantifying water use, conserving existing water supplies through irrigation audits, and reducing dependence on ground water and surface water supplies through

agricultural catchments. The Soil and Water Conservation Commission accomplishes these goals through agricultural water metering by installing water meters on farmers' irrigation systems to track and document water usage. This allows the commission to accurately determine state water use and obtain data to be used by policy makers and individual farmers alike in developing water conservation strategies. In addition, the commission administers farmer incentive programs designed to increase the uniformity and efficiency of agricultural irrigation systems and develop agricultural water catchments for irrigation of cropland in South Georgia.

### CONSERVATION OF SOIL AND WATER RESOURCES

The Conservation of Soil and Water Resources program is intended to support landowners in protecting soil and water resources through the use of voluntary best management practices intended to meet water quality standards. Best management practices implemented by the commission and individual farmers prevent erosion and pollution on both agricultural and urban lands.

Three subprograms in the Conservation of Soil and Water Resources program address different types of land and conservation issues. The Agricultural Lands subprogram helps to reduce soil erosion and non-point source pollutants on agricultural lands; Urban Lands addresses erosion on development sites by educating developers, local

governments, and erosion and sediment control professionals on best management practices; and Conservation District Education and Outreach promotes increased awareness of the importance of soil and water conservation by supplying Georgia citizens with research data, mapping systems, and soil and water resource information.

### **WATERSHED FLOOD CONTROL DAMS**

There are 357 USDA-constructed flood control watershed dams in the State of Georgia, most of them located in the northern part of the state. This program provides for proper operation and maintenance of these dams by working with federal, local, and Soil and Water District officials. Through the program, the commission helps to ensure that dams meet the Georgia Safe Dams Act standards for structural integrity, operate efficiently to

provide multi-purpose use, and ensure flood protection for nearby communities.

### **WATER RESOURCES AND LAND USE PLANNING**

The Water Resources and Land Use Planning program exists to conduct planning activities that further the understanding of water use and to improve water management throughout the state. Through wetted acreage maps, reservoir planning, and statewide water plan efforts, the commission provides resource information to stakeholders and policy makers in the statewide water planning process.

# Georgia Student Finance Commission

## Roles, Responsibilities, and Organization

The Georgia Student Finance Commission is responsible for administering student financial aid programs. The programs, which include the Helping Outstanding Pupils Educationally (HOPE) Scholarship Program, GACollege411, service-cancelable loans, financial aid consultation, and other educational scholarships and grants, are supported by lottery proceeds and state general fund appropriations.

### GEORGIA HIGHER EDUCATION ASSISTANCE CORPORATION

The Georgia Higher Education Assistance Corporation, a nonprofit public corporation of the state, is responsible for administering a program of guaranteed educational loans to eligible students and parents in accordance with state law and the requirements of the Federal Higher Educational Loan Act. In FY 2010, the Corporation guaranteed over \$259 million in new loans for eligible students and parents.

### GEORGIA STUDENT FINANCE AUTHORITY

The Georgia Student Finance Authority, a nonprofit public corporation of the state, is responsible for providing student financial aid to eligible Georgians through loan, scholarship, and grant assistance programs as prescribed by the General Assembly. In FY 2010, the Authority disbursed over \$32 million in state general funds and agency revenues to more than 40,000 students. In addition, over \$664 million in HOPE Scholarship and other lottery funded grant and

scholarship programs were disbursed to more than 260,000 students.

The Authority is also authorized to be a lender under the Georgia Higher Educational Loan Program. In FY 2010, the Authority originated over \$94 million in student loans, and the total value of loans serviced exceeded \$192 million.

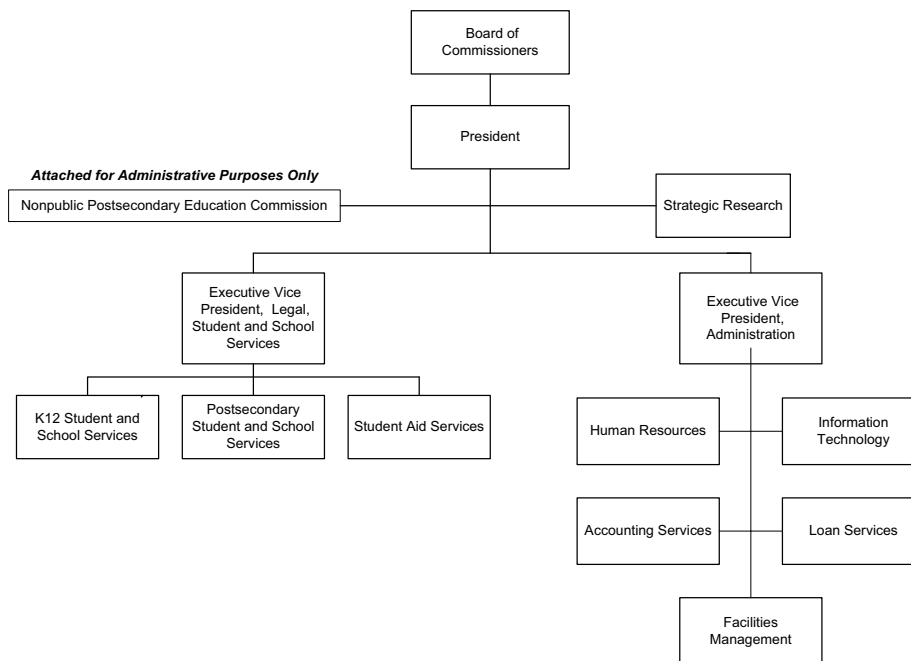

The Authority has the responsibility of performing all management, supervisory, clerical and administrative functions required by the corporation and the commission. The authority also provides administrative and operational support services at no cost to the state for the Georgia Nonpublic Postsecondary Education Commission (NPEC), which is attached for administrative purposes.

### ATTACHED AGENCY

The Georgia Nonpublic Postsecondary Education Commission is responsible for regulating private postsecondary schools in this state in order to protect the financial investment of Georgians participating in their programs.

# Teachers Retirement System

## Roles, Responsibilities, and Organization

The Teachers Retirement System (TRS) is a vehicle for collecting employee and employer contributions, investing accumulated funds, and disbursing retirement benefits to members and beneficiaries. As required by Georgia law, the system is examined on an annual basis by an independent actuarial firm that specializes in pension and retirement plans. The firm prepares a yearly valuation on the contingent assets and liabilities of the system, thus revealing its ability to meet future obligations. In addition, an independent accounting firm audits the system annually.

Administration of the system is ultimately the responsibility of the TRS Board of Trustees, while daily management of system operations is the responsibility of the executive director. The executive director is appointed by the board and serves at the pleasure of its members. The board consists of 10 members as follows:

- State Auditor, ex officio
- State Treasurer, ex officio
- Two classroom teachers (both active members of TRS) appointed by the Governor
- One school administrator (an active member of TRS) appointed by the Governor
- One Board of Regents employee (an active member of TRS) appointed by the Board of Regents
- One trustee appointed by the Governor who must be an active member of TRS
- One trustee appointed by the Governor
- One retired member of TRS elected by the trustees

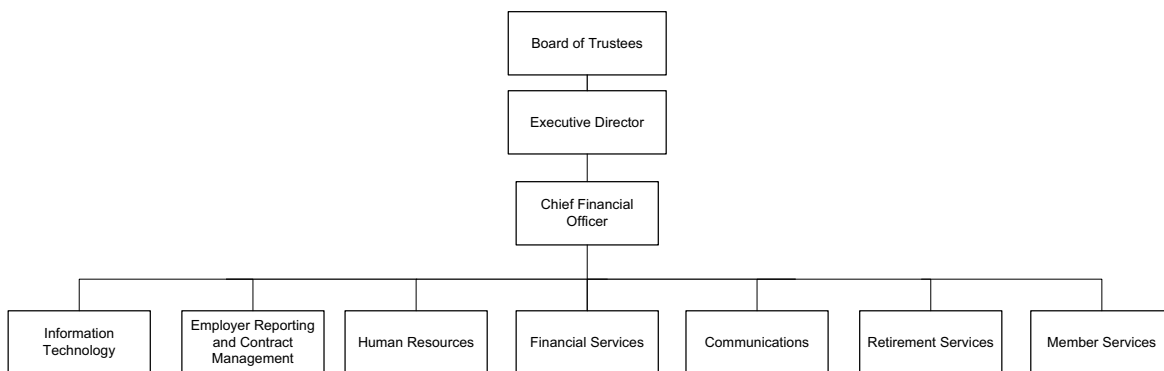

- One citizen (not a TRS member) experienced in the investment of money elected by the trustees

### MEMBERSHIP

All individuals employed half-time or more in covered positions of the state's public school systems, regional libraries, county libraries, and regional educational service agencies are required to be TRS members as a condition of employment. Similarly, employees in covered positions of the University System of Georgia are required to be TRS members unless eligible for participation in an optional retirement plan administered by the University System's Board of Regents. Covered positions include teachers, administrators, supervisors, clerks, teacher aides, secretaries, public school nurses, and paraprofessionals. Also eligible for TRS membership are certain employees of the State Department of Education and the Technical College System of Georgia, along with public school lunchroom, maintenance, warehouse, and transportation managers and supervisors.

### INVESTMENTS

TRS has its own "in-house" Investment Services Division which handles day-to-day investment transactions. Securities lending and portfolio officers, securities and investment analysts, and investment assistants are all part of the TRS investment team. Six members of the TRS Board of Trustees, along with the executive director, comprise the Investment Committee. Committee members convene with the Chief Investment Officer of the Investment Services

## **Teachers Retirement System**

### Roles, Responsibilities, and Organization

Division and hear recommendations from outside investment advisors at monthly meetings. Investment recommendations made by the committee require approval by the entire board.

#### **COLA FUNDS FOR LOCAL SYSTEM RETIREES**

Teachers who retired prior to July 1, 1978 from a local retirement system (Atlanta City Schools, Chatham County Schools, Fulton County Schools, and Rome City Schools) receive a post-retirement cost of living adjustment (COLA) to their monthly benefit whenever such adjustment is granted to teachers who retire under TRS. These funds are appropriated to TRS annually.

#### **FLOOR FUNDS FOR LOCAL SYSTEM RETIREES**

Any teacher who has retired from a local retirement system (Atlanta City Schools, Chatham County Schools, Fulton County Schools, and Rome City Schools) prior to July 1, 1978 shall receive a minimum allowance upon retirement of not less than \$17.00 per month for each year of creditable service, not to exceed 40 years of service. These funds are appropriated to TRS annually.

# Technical College System of Georgia

## Roles, Responsibilities, and Organization

The Quality Basic Education Act (QBE) of 1985 created a separate State Board of Postsecondary Vocational Education within the Department of Education to promote the economic growth and development of Georgia by providing leadership, direction, and state-level management of public postsecondary technical schools, programs, and services. In 1987, the new board was created as an agency separate from the Department of Education to provide guidance to public technical institutes operated by the state or by local boards of education. The board was renamed the State Board of Technical and Adult Education in 1988 to govern the newly created Department of Technical and Adult Education (DTAE). In 2008 the agency was renamed the Technical College System of Georgia (TCSG).

The Department is divided into four programs: Technical Education, Adult Literacy, Economic Development, and Administration.

### TECHNICAL EDUCATION

TCSG oversees 26 technical colleges, 31 branch campuses, and seven technical education centers. In 2011, TCSG will complete the final administrative merger reducing the total number of schools from 33 to 25. In addition, there are two technical education divisions housed within two of the University System of Georgia colleges.

TCSG offers more than 1,200 programs and provides opportunities for students to learn new skills or upgrade existing skills to keep pace with rapidly-changing

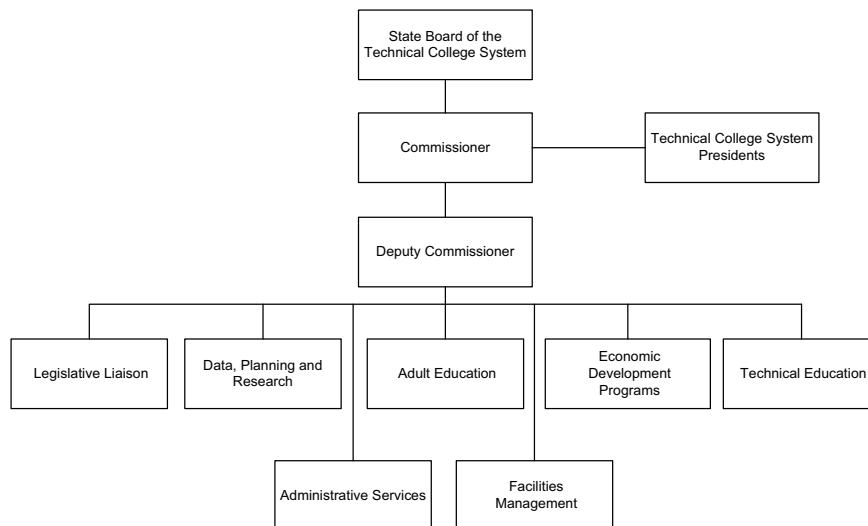

technology and competition in a world market. Students attending technical colleges have the option of short-term programs as well as courses of study leading to certificates, diplomas, and associate degrees. These programs can range in duration from a few weeks to two years. The technical colleges serve approximately 190,000 students annually and produce about 32,000 graduates each year.

### ADULT LITERACY

The Adult Literacy program, through its network of 37 service delivery areas throughout the state, promotes and provides adult basic education and literacy programs, including the General Educational Diploma (GED) testing program that awards GED diplomas. The program is the primary fiscal agent for the U.S. Department of Education adult literacy funds. It is also the largest adult literacy provider for other state agencies and facilitates collaboration among state and local entities to improve literacy efforts for adults needing basic English literacy or specialized skills instruction.

### ECONOMIC DEVELOPMENT (QUICK START)

The Economic Development program provides employee training services to new and expanding industries as well as existing industries at no cost through Quick Start. Quick Start plays a key role in the state's business recruitment and retention efforts by serving as a state training incentive. Supported by TCSG's network of technical colleges, Quick Start has provided training for new jobs in

virtually every technology required by Georgia's manufacturing and service sectors.

### **ADMINISTRATION**

The Administration program fulfills overall administrative roles for the central office and the 26 technical colleges. These activities include budgeting, accounting,

purchasing, asset management, personnel, information technology, research, public information, facilities management, legal services, planning, and evaluation.

# Department of Transportation

## Roles, Responsibilities, and Organization

The Department of Transportation plans, constructs, maintains and improves the state's roads and bridges, and provides planning and financial support for other modes of transportation.

The majority of the department's resources are applied to maintaining and improving the state's network of roads and bridges. Proceeds from the state's motor fuel taxes are constitutionally earmarked solely for use on Georgia's roads and bridges.

The department is governed by a board comprised of members from each of the state's congressional districts elected by each district's state representatives and senators. The board in turn appoints a commissioner.

The Director of the Planning Division is appointed by the Governor and subject to the approval of the state House of Representatives and Senate Transportation Committees. The director serves during the term of the Governor by whom he or she is appointed.

mapping and photogram metric surveys; acquires rights-of-way necessary to construct and maintain highways; supervises all construction and maintenance activities let to contract; ensures the quality of materials used in construction; and conducts research to improve planning and engineering methods.

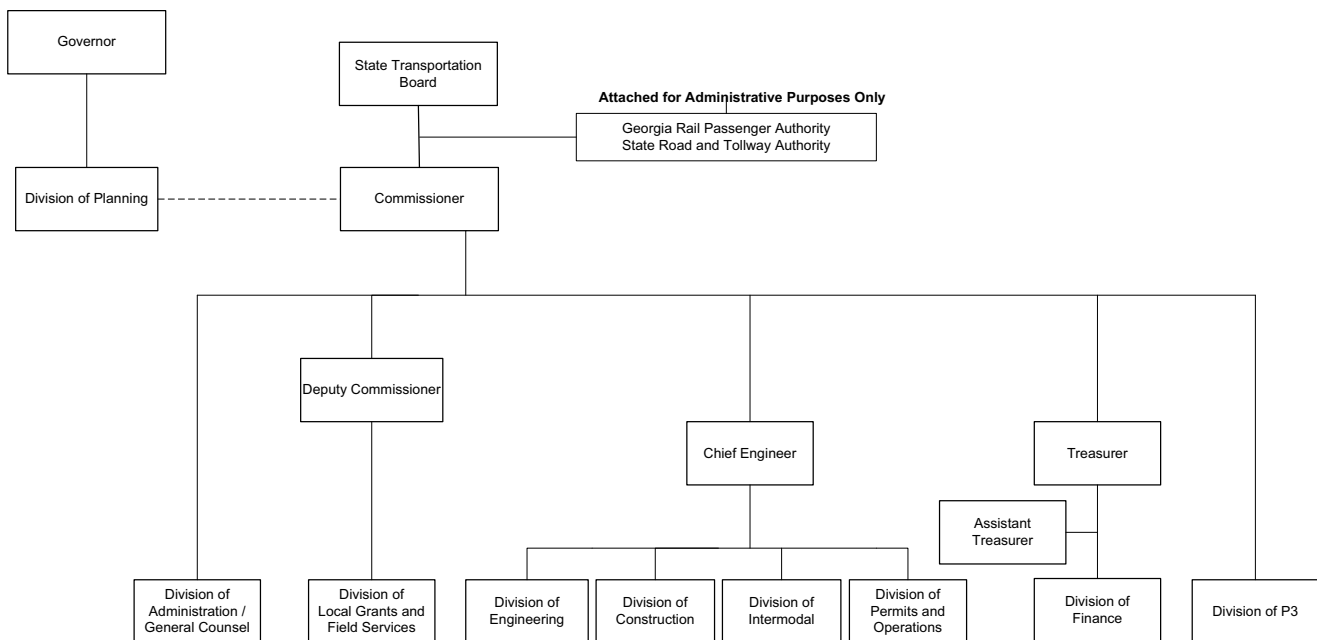

The department is also responsible for maintenance and repairs to the roads and bridges of the state highway system. The goal is to preserve the existing road network and improve its safety by programming and supervising major reconstruction and resurfacing or rehabilitation projects let to contract; performing certain heavy and specialized maintenance such as emergency repairs; making spot improvements and safety modifications; performing routine maintenance such as patching pavement, repairing shoulders, maintaining drainage, mowing rights-of-way, erecting and maintaining warning and directional signs, and inspecting roadside parks and rest areas; maintaining state welcome centers and rest areas; and issuing permits for special vehicles such as overweight carriers.

### PLANNING, CONSTRUCTION, MAINTENANCE AND IMPROVEMENTS

The department plans, maintains and improves the roads and bridges of the state highway system. Through the Planning Division, the department develops a state transportation improvement program and state-wide strategic transportation plan. In addition, the department performs location and environmental studies; conducts

### INFORMATION AND TRAVELER SERVICES

The department provides critical information and services concerning transportation to government agencies and the public. Data collected include truck weight, traffic volume and speed. The department also maintains an inventory of the public road system and produces the official state transportation map along with county maps.

# Department of Transportation

## Roles, Responsibilities, and Organization

The HEROs and the Navigator system provide critical services and information to ensure the safe and efficient operation of the state's highways. The Navigator system uses video cameras, road sensors, weather stations and other technology to collect data and control traffic. Information is then made available to the public through various outlets. HERO units respond to traffic incidents on Metro Atlanta freeways to minimize any impact on traffic flow. These units are on duty at all times patrolling routes on the interstates throughout the metropolitan Atlanta and Macon area and responding to incidents such as road debris, chemical spills, disabled vehicles and accidents.

### **MULTIMODAL SERVICES**

The Transit program provides financial and technical assistance to preserve and enhance the state's urban and rural public transit program. The program administers the federal funds from the Federal Transit Administration and provides the state share for the local match.

The Airport Aid program provides financial assistance to cities and counties for airport planning, construction, approach aids, maintenance, and other services as needed. It

also maintains the state airport system plan; publishes a state aeronautical chart and airport directory; and lends management and technical assistance to local governments to develop, maintain and improve air service.

The Rail program acquires and rehabilitates rail lines to assure freight rail service is a safe, efficient, and viable transportation option throughout the state. This effort provides cities, counties, and municipalities the opportunity to offer an efficient transportation alternative to promote economic development in their communities.

The Ports and Waterways program is responsible for the provision and maintenance of land, dikes and control works necessary for storage of dredge materials removed from the Savannah Harbor and River Navigation Channel. Navigation dredging is performed by the U.S. Army Corps of Engineers and the dredge materials are placed inside designated storage areas prepared by the department.

# Department of Veterans Service

## Roles, Responsibilities, and Organization

The Department of Veterans Service serves more than 773,000 Georgia veterans, their dependents, and beneficiaries in all matters pertaining to veterans affairs. Since all veterans benefits must be applied for, the major activities of the department generally consist of informing veterans and their families about available state and federal benefits and directly assisting and advising them in obtaining those benefits to which they are entitled.

### VETERANS ASSISTANCE

The first priority in the Department's mission of veterans' assistance is accomplished with a claims staff, field offices, an information division and a central office. The claims staff processes claims and appeals of Georgia veterans. The field offices, located throughout the state, provide direct assistance to veterans at the local level. Department field office representatives provide counsel and assistance in gathering documentation and information required to process a claim. The Information Division keeps Georgia veterans informed about issues and their possible impact. The Central Office manages and supports all administrative requirements.

### STATE VETERANS NURSING HOMES

The Department operates two state veterans' nursing homes. The Georgia War Veterans Home in Milledgeville is a 550-bed facility licensed to provide skilled nursing to eligible Georgia war veterans. It consists of three skilled nursing care buildings and an Alzheimer's Care facility.

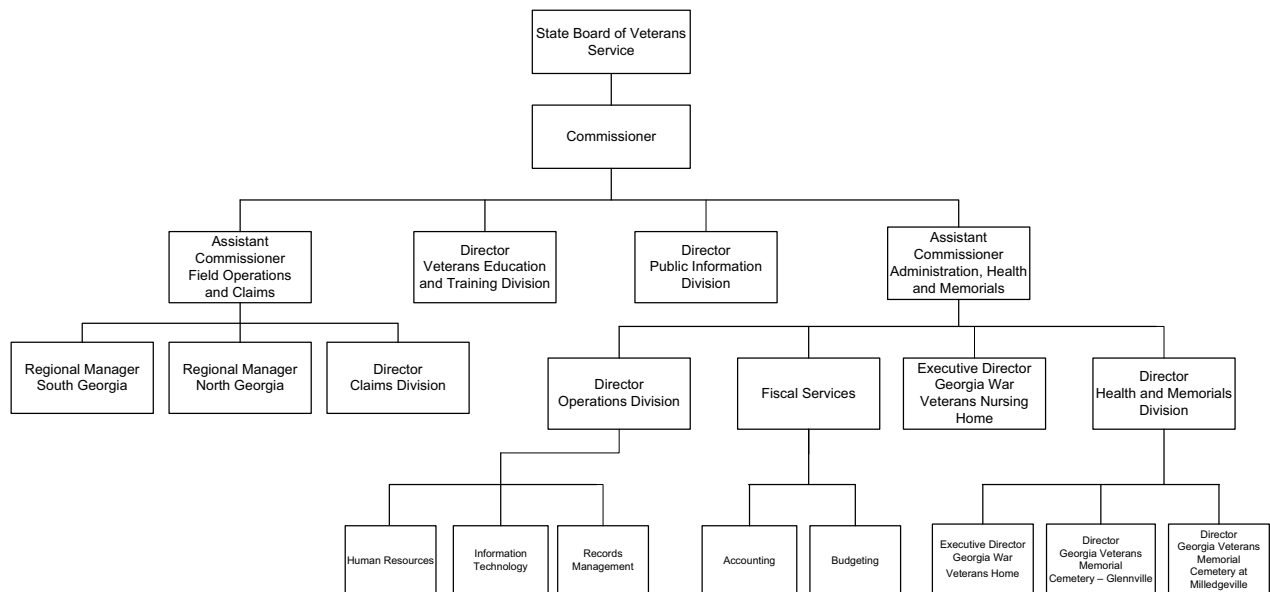

The Georgia War Veterans Nursing Home in Augusta is a 192-bed skilled nursing care facility located adjacent to the Medical College of Georgia Hospital and the U.S. Department of Veterans Affairs Charlie Norwood Medical Center. In addition to providing care for eligible Georgia war veterans, the Georgia War Veterans Nursing Home serves as a teaching facility to acquaint medical and allied health students with medical conditions and diseases that confront the elderly.

### GEORGIA VETERANS MEMORIAL CEMETERY

The Department operates two state veterans' memorial cemeteries, which are part of the nation's National Cemetery System. The Georgia Veterans Memorial Cemetery in Milledgeville will eventually be a final resting place for more than 100,000 Georgia veterans, their spouses, and their authorized dependents. The Georgia Veterans Memorial Cemetery in Glennville, which opened in March of 2008, will eventually be a final resting place for more than 36,000 Georgia veterans, their spouses, and their authorized dependents.

### VETERANS EDUCATION ASSISTANCE

As the state-approving agency for the federally sponsored Veterans Education Assistance Program, the department is responsible for approving and supervising all institutions (including public and private schools and establishments offering on-the-job training and apprenticeship programs) in Georgia that participate in this program. In addition to approving these institutions, the

## Roles, Responsibilities, and Organization

Department of Veterans Service also inspects them regularly to ensure that all criteria for continued approval are met. This function is 100% federally funded and is staffed with eight employees.

### **GOVERNING AND RESPONSIBILITIES**

The seven-member Veterans Service Board appointed by the Governor, and confirmed by the Senate, governs the

Department of Veterans Service. The day-to-day operation of the department is the responsibility of a Commissioner who is appointed by the Board for a four-year term.

# State Board of Workers' Compensation

## Roles, Responsibilities, and Organization

### WORKERS' COMPENSATION LAW

Most Georgia employees are covered by the state's workers' compensation law. Since passage of this law, employees may now gain benefits from employers when injured on the job. The law ensures employees certain benefits paid to them as a result of on-the-job injuries. The same law also provides employers with a form of limited liability from these injuries.

The state's workers' compensation law applies to all employers that have at least three full-time, part-time, or seasonal employees. Some categories of workers are exempt, however, including federal employees, railroad workers, farmers, domestic servants, business partners, independent contractors, and some corporate officers.

The state created the State Board of Workers' Compensation to oversee the workers' compensation law. The board may create rules, regulations, and policies to enforce this area of law. The board is also vested with the responsibility of conducting training seminars that educate employers, employees, insurers, self-insurers, physicians, and rehabilitation suppliers about workers' compensation law changes and other related issues.

If either the employer or an employee involved in a workers' compensation claim wishes to contest the facts involved in the case, an administrative law judge under the board or a board mediator may be used to settle the issue.

Either party disagreeing with this ruling may appeal the decision through the appellate division, state superior or appellate courts; however, that avenue may only be used to debate points of law, not facts of a case.

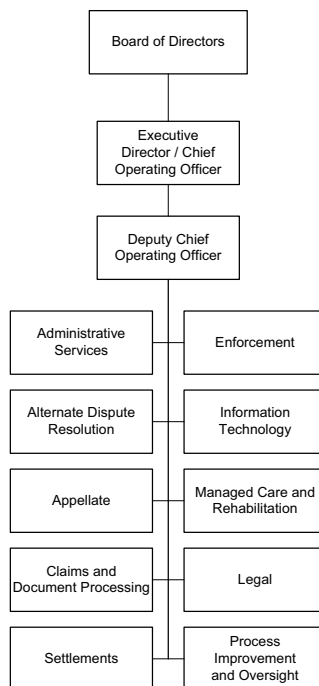

### ORGANIZATIONAL STRUCTURE

The board consists of three directors, one of whom is the chair, and all are appointed by the Governor. The directors promulgate workers' compensation regulations and develop workers' compensation policy. They also hear appeals of administrative law judges' decisions and render rulings on appeals, as well as approve and submit budget requests for the agency.

The executive director/chief operating officer oversees the operations of the board. The executive director also provides management supervision, makes presentations to various groups as requested, assists the directors as needed, and acts as peer review of medical services.

The Alternative Dispute Resolution Division mediates appropriate issues, issues orders, and makes presentations to various groups as requested.

The Appellate Division researches cases that are appealed to the board, recommends appropriate action, receives and processes documents regarding appealed cases, and sets calendars for appellate hearings.

# State Board of Workers' Compensation

## Roles, Responsibilities, and Organization

The Claims Processing Division includes data entry, documents processing, and file room units. These units are responsible for coding and quality input of claims data, processing correspondence, and coordinating the transfer, retention, and destruction of all claims files.

The Enforcement Division investigates incidents of non-compliance and incidents alleging fraud, maintains information on employers' insurance coverage, and makes presentations to various groups regarding fraud/compliance.

The Legal Division is responsible for conducting hearings in contested cases and ruling on motions. The Division schedules and holds hearings for those claims in which an evidentiary hearing was requested by a party, or in cases where mediation conference was either inappropriate or did not result in resolution of the pending issues.

The Managed Care and Rehabilitation Division processes requests for rehabilitation services, performs quality assurance reviews of rehabilitation suppliers, holds conferences to resolve disputes, reviews and approves rehabilitation plans, reviews applications of managed care organizations, and registers rehabilitation suppliers.

The Settlements Division reviews and processes stipulated settlements, and requests for advances.

The IT Services Division provides innovative contemporary and accessible technology in computing, media, telephone services, and training to enable staff to meet their goals as a state agency.

## Note on Expenditure Projections:

Fiscal Years 2011 and 2012 are based on the Governor's Budget Recommendations for those years. Projections for Fiscal Years 2013 to 2016 are based on agency case load growth and an inflation factor. There are no provisions to restore agency reductions made in Fiscal Years 2011 and 2012 in future years. For Fiscal Years 2013 to 2016 a straight line projection has been employed and does not account for budget control measures and policy decisions necessary to meet the requirement for a balanced budget.

The recession that began in December 2007 was the most severe US recession since the Great Depression. The National Bureau of Economic Research dated the start of the recession as December 2007 and determined that the recession ended in June 2009, an 18 month span. This is the longest recession since the Great Depression and almost twice as long as the average length of recession in the period after World War II. The recession hit virtually every state, and in fact, the recession has been a global event with recession hitting every region of the globe. Its' impact on economic indicators such as real GDP, non-farm employment, personal income and industrial production have led to pundits naming this the "Great Recession".

As the State nears the middle of FY 2011, the US economic recovery has been in place for over one year. While economic indicators have generally moved higher, the pace of recovery has been modest and, as a result, employment growth has been slow and unemployment remains elevated.

Non-farm employment in the US fell by 8.4 million jobs from the peak prior to the recession to the trough of the recession. This equals a 6.1% decrease. The unemployment rate also increased sharply. Prior to the recession, the US unemployment rate ran near 5.0%. It peaked at 10.1% in October 2009 and is currently at 9.8% as of November 2010. While there has been little improvement in the unemployment rate, other labor market indicators are improving. During 2010, non-farm employment expanded by nearly one million jobs. Initial unemployment insurance claims have been declining indicating that the pace of layoffs is moderating. Also, the average number of hours worked per week and the average weekly earnings of employees of private firms have both strengthened. This indicates that firms are using their existing work force more intensively and is typically a precursor to additional hiring.

Surveys of the manufacturing and services sector also indicate that the economy has strengthened. The Institute of Supply Management's (ISM) Survey of Manufacturing conditions fell sharply with the financial crisis of late 2008. The index returned to expansionary territory in August 2009 and has maintained readings above the 50 level since that time. Exports have increased, domestic demand has improved and the inventory cycle transitioned from drawdown to rebuilding. These factors have all boosted output in the manufacturing sector. The ISM survey of the services sector returned to consistent growth in January 2010. Recent readings indicate that the expansion in this sector is gaining momentum.

Consumer spending contracted sharply in late 2008 as worries over job security, the drop in personal income and falling wealth all combined to bring consumer confidence to extreme lows. The fall in financial markets combined with

the drop in housing values led to a loss of \$14 trillion in household wealth from peak to trough. This particularly affected purchases of big ticket items such as durable goods. The automobile industry was especially hard hit. US car sales were in the 16 million units per year range for much of the decade. Sales bottomed around 9 million units annualized during the depths of the recession.

However, retail sales began to grow on a year over year basis in November 2009 and growth is running near 8% year over year as of November 2010. Auto sales have improved but are running near 12 million units per year. While this is well above the 9 million units sold during the depths of the depression, it is far from the 16 million units sold annually prior to the recession. Continued growth in consumer spending is critical to the pace of the economic recovery since consumer spending represents around 70% of total GDP.

Georgia's economy has generally tracked conditions in the national economy except that the downturn has been more severe. The Georgia unemployment rate has consistently exceeded that of the US during this business cycle and the percentage increase in year over year job losses has been higher in Georgia than in the US. Housing activity in Georgia has also fallen sharply.

Georgia economic conditions are improving, although the pace of improvement is slow and the recovery still tenuous. Initial unemployment insurance claims are down from their peaks and are running below year ago levels. Net job additions for the first ten months of 2010 total approximately 10,000 jobs.

Georgia tax revenues fell sharply during the recession but have posted positive year over year growth for each of the last six months through November 2010. Recent growth has been boosted by a large decrease in individual income tax payments in FY 2011. At the end of FY 2009, Department of Revenue processing capacity reductions associated with budget cuts resulted in a large volume of refunds being carried over in to the first quarter of FY 2010. Generally, refund payments were current at the end of FY 2010 so that the change in refund payments in the first quarter of FY 2011 has materially boosted revenue growth.

The economic outlook for the US and the State is for continued growth with growth expected to gain momentum in 2011. Recent Congressional action to retain current personal income tax rates and to provide a further extension of unemployment insurance benefits and a payroll tax cut to all workers should provide a further near-term boost to the economy.

## Georgia Economic Indicators

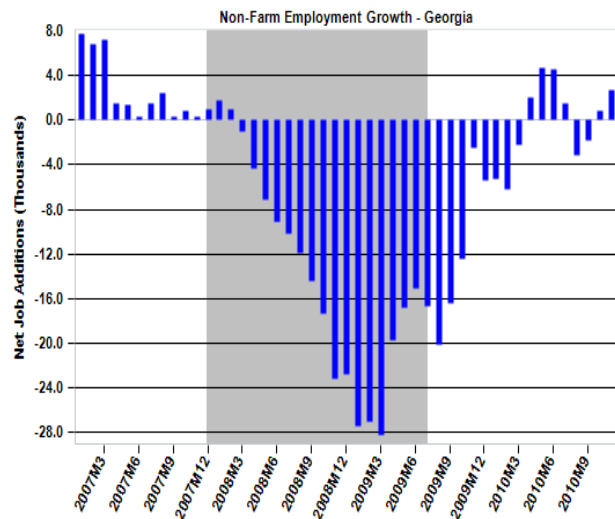

### Personal Income

Nominal personal income has fallen in recent quarters in the US and in Georgia. These declines, measured on a year over year basis, are relatively rare over the last 40 years and are indicative of the severity of the recent recession. However, Georgia has experienced three consecutive quarters of personal income growth through the third quarter of 2010. In addition, wage and salary income has also begun to grow again indicating some improvement in Georgia labor market conditions.

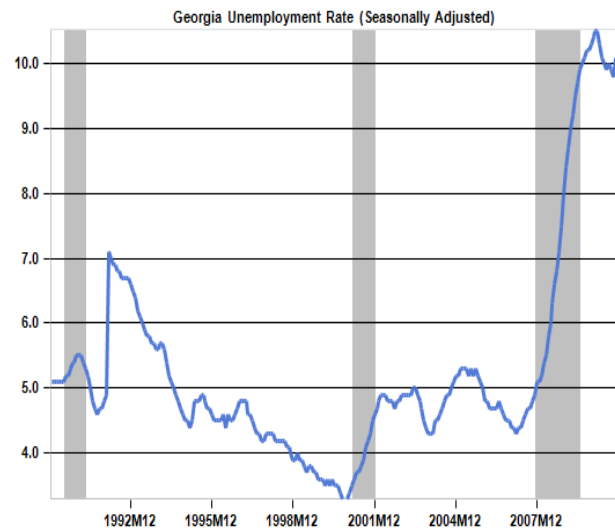

### Labor Markets

Georgia's labor market has gradually swung to growth as net job additions are currently averaging about 2,700 per month. Labor markets are improving across the state. Several metro areas have reached year over year job growth. Other metro areas are still showing net job losses on a year over year basis but these loss are narrowing. A similar pattern is seen when looking at job growth by industry sector. Manufacturing and construction which suffered the greatest percentage job losses during the recession are still showing negative year over year job growth, but percentage decreases in jobs have narrowed sharply for both sectors. Other sectors such as professional and business services and education and health are posting year over year job growth.

The large job losses that occurred during the recession resulted in the highest unemployment rate on record for Georgia at 10.5% in February 2010. Georgia's unemployment rate has come down from that peak but is still at 10.1% as of November 2010. The unemployment rate tends to be a lagging indicator of economic conditions. Thus, it is possible that the rate will rise as the labor market strengthens and discouraged workers return to the work force.

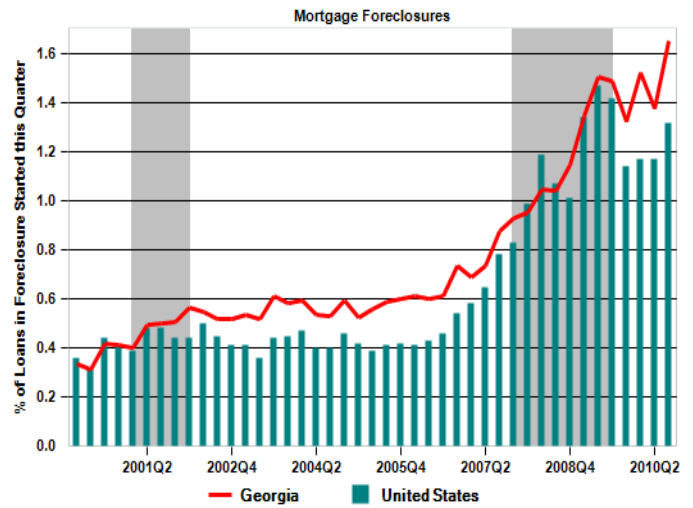

### Housing Sector

Georgia's housing market shows no signs of significant improvement. Permitting activity appears to have stabilized at a very low level but has not shown signs of turning up. Home prices, as measured by the S&P / Case Shiller home price index had begun to show year over year growth earlier this year but recent months have shown renewed price declines.

## Appendix 1: Georgia Economic Report Detail

The key concern regarding the housing sector is looming foreclosures. Mortgage foreclosure rates continue to build in Georgia and nationally and this could lead to further increases in homes for sale and mounting pressure on home prices. There has been some improvement in mortgage delinquency rates suggesting foreclosure rates may also improve in coming months.

## Glossary

### A

**ADJUSTED BASE** -- The beginning point for development of the state budget for the upcoming fiscal year. The adjusted base consists of the current fiscal year Annual Operating Budget, less non-recurring expenditures, plus the amount to annualize pay for performance.

**AGENCY FUNDS** -- Funds collected by the various agencies of state government and retained to be spent on agency programs. These funds are estimated in the Governor's Budget Report and the Appropriations Act. The agencies can change the amount of these funds by amendments to the Annual Operating Budget based on actual collections during the year. Also known as Other Funds.

**ALCOHOLIC BEVERAGE (DISTILLED SPIRITS) TAX** -- A state excise tax per liter upon the first sale, use, or final delivery within the state and an import tax per liter of distilled spirits; an excise tax per liter upon the first sale, use, or final delivery within the state and an import tax per liter on all alcohol.

**ALLOTMENT** -- The authorization for a state agency to withdraw funds from the state treasury for expenditure. Before each fiscal year begins, agencies must file an annual operating budget plan based on an Appropriations Act. Allotments are requested quarterly based on the plan. Once a quarterly allotment is approved for an agency, that agency can draw funds as needed.

**AMENDED BUDGET REPORT** -- A document submitted by the Governor to the General Assembly in which the Governor recommends spending changes in the current fiscal year for the agencies of state government. The Amended Budget Report can involve budget additions, budget deletions or transfers of funds within agency object classes. Also known as the "supplemental budget" or the "little budget."

**AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA)** -- An act passed by Congress and signed into law by President Obama on February 17, 2009. The purpose of the Recovery package is to jump-start the economy to create and save jobs. The Act specifies appropriations for a wide range of federal programs, and increases or extends certain benefits under Medicaid, unemployment compensation, and nutrition assistance programs. The legislation also reduces individual and corporate income tax collections, and makes a variety of other changes to federal tax laws.

**ANNUAL OPERATING BUDGET (AOB)** -- A plan for annual expenditures based on the Appropriations Act, by agency and functional budget. The plan details a level of expenditure by object class for a given fiscal year and must be approved by OPB before taking effect.

**ANNUAL OPERATING BUDGET AMENDMENT** -- Revisions to the annual operating budget, which must be submitted to

OPB for approval. Typically, these revisions are due to the receipt of funding that was not included during the appropriations process or transfer of funds from one activity/function to another.

**APPROPRIATION** -- An authorization by the General Assembly to a state agency to spend, from public funds, a sum of money not in excess of the sum specified for the purposes in the authorization.

**APPROPRIATIONS ACT** -- Legislation that has been passed by the General Assembly to authorize expenditure of state, federal and other funds during a given fiscal year. While under consideration, it is called an appropriations bill.

**ATTACHED AGENCIES** -- Smaller agencies are sometimes attached to a larger state agency for "administrative purposes only" to reduce administrative costs by consolidation. These small agencies operate autonomously but receive funding through the larger agency. Authorities by law cannot directly receive state funds and are attached to budgeted state agencies for any state appropriations that might occur.

**ATTRITION** -- A means of reducing state employment, especially during economic slowdowns, by eliminating positions as they become vacant rather than filling them with new employees.

**AUTHORITY** -- A public corporation formed to undertake a state responsibility that operates in a competitive financial and business environment and should be run like a business corporation. Most authorities generate revenue and need to operate without the strict regiment of rules that confine most departments of government. Authorities usually have the power to issue revenue bonds to construct facilities.

### B

**BUDGET** -- A complete financial plan for a specific fiscal year as proposed in the Governor's Budget Report and as modified and adopted by appropriations and revenue acts.

**BUDGET ACCOUNTABILITY AND PLANNING ACT** -- An Act passed by the 1993 General Assembly that fundamentally changed Georgia's budget process. The Act made accountability and efficiency the driving forces behind budget decisions, as well as the attainment of agreed-upon goals that have been outlined in comprehensive strategic plans for the state and each of its agencies. The requirement for outcome based budgeting is provided through the performance and results measures in Prioritized Program Budgeting. The measure mandated an ongoing review of agency continuation budgets and a more detailed review of expenditures at the individual program level. Procedures and requirements for grant awards by state agencies also were established.

**BUDGET CLASS** -- See Object Class.

## Glossary

**BUDGET CYCLE** -- A period of time in which a specific budget is in effect, usually 12 months. See fiscal year for dates applying to state and federal budgets.

**BUDGET ESTIMATE** -- A statement which accompanies explanations, as required by state law, in which a budget unit states its financial requirements and requests for appropriations. Also known as an agency's budget request, which must be submitted to OPB by September 1 of each year.

**BUDGET MESSAGE** -- A speech by the Governor to the General Assembly in which the Governor outlines his spending proposals and revenue projections, including recommendations for increasing or decreasing revenues, that are embodied in an accompanying budget document. The formal budget message, dealing primarily with the following year's budget, is made to a joint session during the first week that the Legislature convenes.

**BUDGET REPORT** -- A document that displays all programs, efforts and expenditures that are recommended by the Governor for each agency during a specific fiscal year. The Budget Report includes the Governor's official estimate of state revenue to be collected during the fiscal year and details any surplus, reserve or other funds that are available for expenditure. The fund availability outlined by the Governor determines the size of the budget for any given year. The Budget Report for the upcoming fiscal year is also known as the "big budget," the "outyear budget" and the "Governor's budget." The Amended Budget Report, which recommends changes to the current fiscal year budget, is also known as the "little budget."

**BUDGET UNIT** -- A department, board, commission, office, institution or other unit of organization that has, under general law, an independent existence and thus is authorized to receive and expend an appropriation. A department or agency may have one or more budget units in the Appropriations Act.

### C

**CAPITAL OUTLAY** -- Funds designated specifically to acquire, construct, renovate or repair public facilities and other assets. These funds may be appropriated in cash - from state general funds, lottery funds or other funds - or be provided through the sale of general obligation bonds or revenue bonds.

**CONFERENCE COMMITTEE** -- A group of six legislators—three Representatives and three Senators—who are appointed by the presiding officers of the respective houses to reconcile different versions of the appropriations bill and other legislation that have been passed by the House and Senate.

**CORPORATE INCOME TAX** -- The tax is a non-graduated percentage tax based on a corporation's federal taxable net

income. The tax rate is based on a corporation's taxable net income attributed to business done in Georgia.

### D

**DEDICATED FUNDS** -- Funds collected from a specific revenue source that must be appropriated for a specific expenditure. An example in Georgia is motor fuel tax funds, which must be constitutionally appropriated for programs related to providing and maintaining an adequate system of public roads and bridges.

**DEBT LIMITATION** -- The State Constitution places a ceiling on state indebtedness by limiting general obligation bond debt service payments to 10% of net treasury receipts for the prior fiscal year.

### E

**EMERGENCY FUND** -- An appropriation to the Office of the Governor that is set aside for the Governor to provide grants to state agencies to meet emergency needs. Grants from the fund cannot involve a recurring obligation.

**ENHANCEMENT FUNDS** -- Funding for required services that are above adjusted base level.

**ENTITLEMENT PROGRAMS** -- Certain programs, usually federal in origin, that provide benefits to individuals based on specific eligibility requirements. Medicaid is the largest entitlement program operated by the state.

**ESTATE (INHERITANCE) TAX** -- Based on the value of the estate of residents as required to be reported for federal tax purposes. The tax is the amount equal to the amount allowable as a credit for state tax credits under the Internal Revenue Code.

### F

**FEDERAL FUNDS** -- Funding from the federal government to pay for all or portions of specific programs. Often, federal funds require a state fund "match" in order to receive the federal allocation.

**FEDERAL RECOVERY FUNDS** -- See American Recovery and Reinvestment Act.

**FISCAL AFFAIRS SUBCOMMITTEE** -- Twenty members of the House of Representatives and the Senate comprise the Fiscal Affairs Subcommittee, which is authorized to meet when the General Assembly is not in session to consider fiscal affairs transfers as described below at the request of the Governor. The membership includes the House Speaker and four other State Representatives appointed by the Speaker, the Lieutenant Governor and four Senators appointed by the Lieutenant Governor, and five members of each house appointed by the Governor.

## Glossary

**FISCAL AFFAIRS TRANSFERS** -- Appropriations are made through allocations to specific object classes, and funds must be spent within those object classes. Language in each Appropriations Act states that "...no funds whatsoever, shall be transferred between object classes without the prior approval of at least 11 members of the Fiscal Affairs Subcommittee in a meeting called to consider said transfers. This...shall apply to all funds of each budget unit whatever source derived." Fiscal affairs transfers can be considered at any time at the Governor's request but are usually considered near the end of the fiscal year to help agencies to meet emergency needs and to address unanticipated budget problems.

**FISCAL YEAR** -- Any 12-month period at the end in which financial accounts are balanced. The state fiscal year begins July 1 and ends June 30. The federal fiscal year begins October 1 and ends September 30.

**FRINGE BENEFITS** -- Benefits that are provided to state employees over and above their salaries, as an inducement to employment. These benefits include retirement, health insurance and employer Social Security contributions.

**FUNDS** [i.e., state, total, other] -- As used for the general purposes of the budget summaries and schedules in this document, unless otherwise noted, refers to state revenues available or received. The state's specific governmental accounting fund classifications are documented in the state Comprehensive Annual Financial Report prepared by the Department of Audits and Accounts.

---

### G

---

**GENERAL FUNDS** -- State money that is used for general purposes of state government. General funds are derived from taxes, fees and other general revenues and are appropriated to finance the ordinary operations of governmental units. These funds are included in the Governor's Revenue Estimate and are a part of the State's Budget Fund for accounting purposes.

**GENERAL OBLIGATION BONDS** -- Bonds sold by the state to fund major capital outlay projects or for the management of state debt. The bonds are backed by "the full faith, credit and taxing power of the state."

**GUARANTEED REVENUE BONDS** -- State-sold bonds that have the principal and interest payable from earnings of a public enterprise. The state is required by law to appropriate one year's debt payment and to retain the total at that level until the bonds have been retired. Guaranteed Revenue Bonds can only be issued for specific purposes as outlined in the State Constitution.

---

### H

---

**HOUSE BUDGET OFFICE** -- An agency within the Legislative Branch that serves as budget advisor to the House of Representatives.

---

### I

---

**INDIGENT CARE TRUST FUNDS** -- A program that involves the use of Medicaid funds to compensate disproportionate share hospitals for indigent care and to support expanding primary care programs. Participating hospitals make payments into the Trust Fund, and these payments are used to match with Medicaid funds. Most of the funds are then returned to the hospitals, with a small amount used for state-level programs. An amendment to the State Constitution authorized the newly revamped program and restricts the use of these funds. These funds are included in the Governor's Revenue Estimate and are a part of the State's Budget Fund for accounting purposes.

**INDIRECT FUNDING** -- The Appropriations Act each year allocates direct funding to the Department of Administrative Services (DOAS) for computer and telecommunications services to be provided to seven state agencies. These funds are allocated in this manner to facilitate cash flow for DOAS but are available to DOAS only as services are provided to each agency.

**INDIVIDUAL INCOME TAX** -- The tax is based upon an individual's federal adjusted gross income with specific adjustments as provided by state law.

**INSURANCE PREMIUM TAX** -- Tax based on premiums on persons, property, or risks in Georgia written by insurance companies conducting business in the state.

**INTER-AGENCY TRANSFERS** -- A transfer of funds between state departments, either in an Appropriations Act or by the State Office of Planning and Budget pursuant to a legislative authorization.

**LAPSE** -- The automatic termination of an appropriation. Since most appropriations are made for a single fiscal year, any unexpended or unencumbered fund balances at the end of the fiscal year lapse into the state's general treasury, unless otherwise provided by law. There are two kinds of lapses. Non-allotted lapses occur when appropriations are never allotted to a state agency for expenditure and automatically revert to the state treasury on June 30 of each year. Audited lapses occur when budgeted funds are allotted to a state agency for expenditure but are not spent. These unspent funds are identified and lapsed by the State Auditor in the annual audit of each state agency.

**LAPSE FACTOR** -- A budgeting tool that withholds funds from appropriations, based on anticipated employee turnover and lower employee replacement costs.

**LINE-ITEM APPROPRIATION** -- An appropriation spelled out in language in the Appropriations Act that authorizes specific expenditures for a state agency. Line-items appropriations may be vetoed by the Governor.

## Glossary

**LOTTERY FUNDS** -- The net proceeds from the sale of lottery tickets dedicated to funding educational purposes and programs. By law educational purposes include capital outlay projects for educational facilities; tuition grants, scholarships or loans to citizens of Georgia to attend post-secondary institutions in Georgia; training to teachers in the use of electronic instructional technology; costs associated with purchasing, repairing and maintaining advanced electronic instructional technology; a voluntary pre-kindergarten program; and an education shortfall reserve. These funds are included in the Governor's Revenue Estimate and are a part of the State's Budget Fund for accounting purposes.

**LUMP SUM** -- A single appropriation for a specific purpose that does not specify a breakdown by object class expenditure.

### M

**MATCHING FUNDS** -- A type of federal or state grant that requires the government or agency receiving the grant to commit funding for a certain percentage of costs to be eligible for it.

**MIDTERM ADJUSTMENT** -- Additional appropriations to the State Board of Education in an Amended or Supplementary Budget to fund State Quality Basic Education (QBE) requirements for increased enrollment. Initial QBE funding cannot fully and accurately anticipate future enrollment. Midterm adjustments in funding are based on full-time equivalent enrollment counts during the fall quarter.

**MIDYEAR ADJUSTMENT RESERVE** -- A reserve of funds that is set aside each year from prior fiscal year surplus funds to provide additional spending for state agencies in an Amended or Supplementary Budget. The reserve totals 1% net revenue collections, to the extent that surplus funds are available. It is established prior to the Revenue Shortfall Reserve, which is explained elsewhere.

**MOTOR FUEL RESERVES** -- If actual motor fuel tax collections exceed the estimate, these funds are set-aside in a reserve and are appropriated to the State Department of Transportation in a subsequent Appropriations Act.

**MOTOR FUEL TAX FUNDS** -- All motor fuel revenue collections are allocated for public highway and bridge construction or maintenance by provisions of the State Constitution. These funds are included in the Governor's Revenue Estimate and are a part of the State's Budget Fund for accounting purposes. There is an additional tax of the retail sales price. This tax is based upon an indexed retail sales price that is converted to a cent per gallon rate and is collected at the time of sale by the licensed distributor.

**MOTOR VEHICLE LICENSE TAX** -- Collected for the title registration and license tags of motor vehicles, trailers, and truck tractors.

### N

**NON-APPROPRIATED FUNDS** -- Monies received or spent that are not contemplated by an Appropriations Act. These funds must be amended into an agency's budget through a request to the Office of Planning and Budget.

### O

**OBJECT CLASS** -- A grouping of similar expenditure items that form the basis of appropriations and records of expenditure. Establishment of budget object classes and changes are coordinated with the State Auditor's Chart of Accounts to ensure consistency in statewide financial reports. Common object classes are those that are shared by almost all agencies, including personal services, regular operating expenses, travel, motor vehicle purchases, postage, equipment, computer charges, real estate rentals and telecommunications. Unique object classes are those that apply to only one or a few agencies, such as public library materials and driver's license processing.

**OFFICE OF PLANNING AND BUDGET (OPB)** -- A part of the Office of the Governor with the responsibility of providing the Governor with assistance in the development and management of the state budget. The Governor is the Director of the Budget.

**ORIGINAL APPROPRIATION** -- The first budget passed that sets appropriations for all of state government for the next full year after a legislative session. The budget is generally amended in midyear to more accurately reflect current needs of state agencies.

**OTHER FUNDS** -- Funds received by state agencies and institutions for services performed such as tuition fees paid by students to colleges, universities and technical colleges and fees collected by state parks. These funds are not turned into the state treasury but are retained by agencies and spent in accordance with an Appropriations Act or state law. Also known as agency funds.

### P

**PERFORMANCE MEASURES** -- Quantitative or qualitative criteria by which to gauge a program's performance.

**PERSONAL SERVICES** -- The cost of state employees, including salary, fringe benefits and other expenses. This also includes temporary labor.

**PROGRAM** -- Systematic set of activities undertaken to accomplish an agency's core businesses.

**PRIORITIZED PROGRAM BUDGET** -- A performance/results and customer-focused method of budgeting wherein agency programs are identified and are funded based upon their importance in carrying out the agency's mission and core businesses. Programs are measured on their effectiveness and efficiency in achieving desired outcomes.

## Glossary

**PROPERTY TAX** – Based on the taxable value (assessed value) of real and personal property, except for certain property as specified in state law. The state tax is collected locally with local property taxes and is remitted to the state.

### R

**RESULTS MEASURES** -- Indicators by which to assess the impact of a program on its customers or community.

**REVENUE ESTIMATE** -- An estimate of revenues that will be collected by the state during a fiscal year. These revenues include taxes, fees and sales, and other general revenues that flow into the state treasury and are available for expenditure in a budget recommended by the Governor and approved by the General Assembly.

**REVENUE SHORTFALL RESERVE** -- An account established by the State Auditor to make up shortages that might occur in revenue collections at the end of the fiscal year and is commonly known as the “rainy day” fund. The reserve cannot exceed 10% of the previous fiscal year’s net revenue. Funds are set-aside in the Revenue Shortfall Reserve only after the Midyear Adjustment Reserve is fully funded.

### S

**SALES TAX** -- Common name for the state Sales and Use Tax levied upon retail sales, rentals, leases, use or consumption of tangible personal property, and certain services. The statewide sales tax rate is 4%. Various items are exempt from the state sales tax by state law.

**SENATE BUDGET AND EVALUATION OFFICE** -- An agency within the Legislative Branch that serves as budget advisor to the Senate.

**STATE AID** -- Grants and other funding provided by Georgia’s state government to assist cities, counties, public schools and other allied groups in providing various services and programs to the citizens of Georgia.

**STATE FUNDS** – Includes: (1) The taxes and fees collected by the state and deposited directly into the state treasury to be appropriated; (2) Reserves; (3) Surplus funds; (4) Lottery receipts; (5) Indigent Care Trust Funds; (6) Motor Fuel tax funds; and (7) Tobacco Settlement funds, all of which form the basis for the Governor’s revenue estimate.

**STATEMENT OF FINANCIAL CONDITION** -- A statement which discloses the assets, liabilities, reserves and equities of the state and its governmental units at the end of each fiscal year.

**STATE TREASURY** -- A function of state government that receives, manages, invests and allocates all state revenues that are available for expenditure through the state’s general fund budgetary process. The function is managed by the Office of Treasury and Fiscal Services within the Department of Administrative Services.

**STRATEGIC PLANNING** -- The process through which a preferred future direction and organizational mission are established and periodically updated in light of changing trends and issues. Goals, objectives and strategies are adopted and implemented to guide an organization toward that preferred future direction.

**SUB-OBJECT CLASS** -- The lowest level of detail used in recording expenditures. Supplies and materials is a sub-object class of regular operating expenses.

**SUPPLEMENTARY APPROPRIATIONS** -- Increased funding that is approved by the General Assembly in a separate, stand-alone Appropriations Act, usually passed early in the session to get new money into projects with a high time priority. A supplementary appropriations act, which is often called a “speedy bill,” cannot reduce spending or transfer funds previously appropriated.

**SURPLUS** -- Unspent funds at the end of a fiscal year. Surplus funds come from two sources: excess revenue collections over the revenue estimate, and unspent appropriations that were lapsed back to the state treasury and are available for re-appropriation.

### T

**TOBACCO SETTLEMENT FUNDS** -- Funds received as part of the 1998 national settlement with five major tobacco manufacturers to recover smoking related costs. The settlement provides for annual payments to Georgia based on a formula, with annual adjustments based on inflation and future national sales of cigarettes. These funds are included in the Governor’s Revenue Estimate and are part of the State’s Budget Fund for accounting purposes.

**TOBACCO TAX** -- State tax on cigars based on the wholesale cost price; the state tax on cigarettes is based on per pack of 20. The state tax on loose or smokeless tobacco is based on the wholesaler’s cost.

### U

**UNIT** -- A state agency or a division within an agency that is authorized to receive an appropriation. Functions or activities are a part of a unit.

**USER TAXES AND FEES** -- Charges associated with using a particular service provided by state government to its citizens. The charge generally recovers the cost of providing the service. Examples include state park receipts and driver’s licenses.

### V

**VETO** -- An action by the Governor that rejects appropriations passed by the General Assembly. The Governor is authorized to veto by line-item specific spending authorizations, or language within an appropriations bill, or the entire bill. Line-item vetoes are more customary.

## Glossary

### W

WINE TAX -- An excise tax per liter on the first sale, use, or final delivery within the state and an import tax per liter for

table wines; dessert wines (more than 14%, but not more than 21% alcohol by volume) have an excise tax per liter and an import tax per liter.
